Stevenson, the Engineer, has been making a series of experiments upon the relative strengths of hot and cold blast iron, the result of which will be a complete revolution in the iron trade. Hitherto cold blast iron has brought a higher price, and has been considered in every respect superior to hot blast. Previous, however, to the construction of the high level bridge at' Newcastle upon Tyne, intended to connect the York and Newcastle with the Newcastle and Berwick Railway, Mr. Stevenson caused more than one hundred experiments to be made with the various sorts of Pig fron-the result of which has been to prove that hot blast is superior to cold, in the proportion of 9 to 7; and moreover, that pig iron, No. 3, is better iron than No. 1, which, up to this time, has sold much higher in the market. - Athanxum,

Either provision can be repealed at the next seesion of the Legislature, that the people may desire, by petition or otherwise-for ourselves, we would prefer giving the Public Buildings to Or. wigsburg for Educational purposes, which would more than compensate them for any imaginary evils they may sustain by the Removal. The Jail would be a snug lock-up-house, should any of the "moral" citizens of Orwigsburg at any time and under any circumstances, become sufficiently excited as to disturb the peace and quiet of that village.
