

POTTSVILLE. Saturday Morning, Sep. 11, 1847. VOLNEY B. PALMER, At the Real Estate and Coal Agency, Corner of Third & Chestnut Streets, Philadelphia, No. 100, Nassau Street, New York, No. 10, State Street, Boston, and North East corner of Baltimore & Calvert Streets, Baltimore, is our Agent for receiving subscriptions and advertisements for the Miners' Journal.

As the Governor's Election is approaching, and a LOCAL QUESTION to be decided in this County which will probably be of rather an exciting character, the Editors of the Miners' Journal have determined to publish a special issue on the following terms: and the election, payable in advance.

THE COAL TRADE AND THE TARIFF. The locoform, ever since the present Tariff law went into operation, have attributed to it the business prosperity for some time past existing in our country. But, time goes on, and the Tariff develops itself, which it has already had time to do until now all the great merits claimed for it by its advocates and founders, vanish one by one—since the great bubble, Bread-stuffs, has finally exploded and the people see for themselves the folly of depending on foreign markets, over which our government can exercise no sort of control; another bubble, and the principal one upon which they have so long been harping, begins to tremble and quake, and foreshadow coming disaster.

It will be perceived by the Card below, that the County Commissioners refuse to receive the Bond, indemnifying the County in regard to the erection of the Court House and public offices, notwithstanding it was given to one of the Commissioners last week, and by him placed on file. This conduct appears rather singular—and we think establishes the character and validity of the document beyond cavil. For, it is not a legal and substantial bond, of full force and value, where the necessity of refusing to file it in their office.

By the following, it will be seen that the document has been deposited in the Prothonotary's office, which will answer all the purpose desired: Schuylkill County, Pa.

THE COUNTY MEETING. The meeting at Orwigburg, on Monday last, of the friends of Removal, indicated in unmistakable language, what is to be the result of that question at the election approaching. The meeting was composed of the most respectable citizens of the county, residing in all sections, and who evinced an enthusiasm in the matter which is rarely felt in local questions. F. W. Hughes, Esq., reviewed the entire question in a speech of some length, and at its conclusion there appeared to be no sentiment in the meeting, and that was the recognition of the necessity of Removal, and the determination to effect it by all honorable means. Messrs. Geunther and Campbell were next called out, and briefly addressed the meeting—after which it adjourned with nine cheers for the Removal. The proceedings of the meeting will be found in another column.

Published in an extra, on Monday afternoon last, the news from Mexico received at Philadelphia on that day, twenty-four hours in advance of the mail. The news under our Telegraphic head is invariably several hours in advance of the city papers, and though it is a source of considerable expense to us, we shall avoid no effort or expense that can add to the usefulness and general interest of the Journal.

As the Governor's Election is approaching, and a LOCAL QUESTION to be decided in this County which will probably be of rather an exciting character, the Editors of the Miners' Journal have determined to publish a special issue on the following terms: and the election, payable in advance.

ITEMS OF GOSSIP. There is a Child in New York which grew five inches in three days, and then after twelve days intermission, it grew four inches more in a week. It is twenty-two months old, and a very healthy and robust child. This abnormal development has exhausted the strength of the child, which is reduced to such a state that the circulation of the blood can be seen in its veins.

Philadelphia was never sounder in a commercial point of view than at the present moment. The few bills that have been received from England under protest, will not have the slightest effect upon the solidity of a single individual. The amount of loss is indeed, altogether inconsiderable so far as relates to Philadelphia. So says the Inquirer.

A good joke.—A paragraph has been going the rounds of the press, for several weeks past, stating that a woman in New Hampshire was actually living with her husband's! The cream of the joke is, the woman's name is Huskisson, and she has nine children; of course she lives with her husband, and she is perfectly right in doing it!

In the recent Elections at Lancaster, for Delegates, the Locofoco party was beaten through the machinations of a certain individual, who, by the Dallas party, headed by Col. Reeb, Mr. Buchanan is becoming obnoxious to his old friends at Lancaster. They have nearly all turned their backs upon him, and the credit of our army, that such men as that offered the enemy whom they had routed!

Romance in Real Life.—About twelve years ago, a young gentleman, whose name we do not remember, residing in an interior county of Kentucky, became attached to a girl in love with a girl who was the daughter of a wealthy merchant. His love was requited by the fair one, and he was about to be married to her, without influence, and having nothing to depend upon but his own industry and resolution, his wife was looked upon with a favorable eye by the wealthy father. In a moment of chagrin and despair, the young man, who had been in his childhood—and twelve years rolled by, during which no word was heard of him. He went to the West Indies, a penniless adventurer, and in a few months he had accumulated a large sum of money. He returned home, and in the meantime, the father of his beloved had died, and a poor broken hearted man, leaving his wife and daughter dependent upon the cold charities of the world. Yet, in poverty as in wealth, the two lovers had remained faithful to their youthful vows, and two days after the return of the wanderer, he led his long cherished bride to the nuptial altar. How true is the saying, that the heart is the seat of the fidelity of two loving hearts.—Cincinnati Chronicle.

LOCAL MATTERS. New Episcopal Church.—This large and massive building is progressing rapidly. It is situated on the corner of the House and the street, and has been erected by the Rev. Mr. Taylor, who has the honor of erecting it in this Borough, and the workmanship reflects great credit upon the mechanics engaged in its erection. It is to be dedicated to the service of God, and will be a great ornament to the city.

Water Cure in England.—The Hydropathic method of treating disease is attracting great attention in Great Britain, as well as in our own country. Men of high reputation for scientific research, are giving up the old system, and adopting the new one. It is a simple and natural method, and is becoming more and more popular.

Professor Lillie, of Germany, has recently written a letter to Professor Shillman, a relation of which is taken up with examining the relative advantages of boiling and building meat. The method of boiling is obviously the best to make flesh most nutritious. But it does not follow, that boiling is to be interdicted. If a piece of meat be put in cold water, and this heated to boiling, and boiled till it is done, it will become tender and have less taste than if the same piece had been thrown into water already boiling. In the first case, the matters grateful to the taste and smell go to the bottom of the water, and the second, the albumen of the meat coagulates from the surface inward, and envelops the interior with a layer which is impregnable to water. In the latter case, the soup will be indifferent, but the meat delicious.

On motion, the following persons were appointed by the Chair, a committee to draft resolutions expressive of the sense of the meeting: A. B. Christie, James Clear, L. V. Whitney, Andrew H. Wilson, Jacob Lindemann, William Collins, John C. Stanton, M. Lewis, Charles H. Hinkle, and Jacob Reber, who after retiring a short time, reported the following, which were read and unanimously adopted:

Resolved, That we advocate the Removal of the Seat of Justice for Schuylkill County, from Orwigburg to the borough of Pottsville, in now fairly before the people of this County—and, where it is proper and right to have the people of said County, the cases which should move them to vote for Removal—Therefore,

Resolved, That we advocate the Removal of the Seat of Justice for any county, should be located at the point, where it will accommodate the most of the people of the county, at the least expense. That Pottsville is much more central than Orwigburg, either as regards Territory—business—population—or means of access.

Resolved, That the removal of the Seat of Justice to Pottsville, will save to the County, thousands of Dollars, paid to Witnesses and Jurors for mileage; to the Sheriff and other Officers for riding and per diem; to the County, for the enormous tax upon the time and money of most of the people of the county, who are obliged to go eight miles further from their homes, than would be the case were the Court House at Pottsville.

Resolved, That the removal of the Seat of Justice to Pottsville, will save to the County, thousands of Dollars, paid to Witnesses and Jurors for mileage; to the Sheriff and other Officers for riding and per diem; to the County, for the enormous tax upon the time and money of most of the people of the county, who are obliged to go eight miles further from their homes, than would be the case were the Court House at Pottsville.

Important Abolition Meeting.—Letters received by the Editor from unacquainted sources, announce that on the 28th of July last the King of Denmark issued a decree declaring that all persons who should thereafter be born in his dominions, should be born free; and that all persons in servitude in his dominions on the 28th of July last, remaining so on the 1st of July, 1859, shall then be absolutely free, without compensation to the owners.

Denmark has three small islands in the West India, viz. St. Croix, St. Thomas, and St. John. St. Croix contains about 30,000 slaves. St. Thomas, and St. John perhaps 5,000 more.—Journ. Com.

Pleasant Company.—A person writing from Niagara Falls, thus describes the country there: "There are a few quiet men, and a few lady-like women; but fat, tawdry vulgar; boisterous dictatorial impudence; and young simpering silliness, fill up the tables and the drawing-rooms. Oh, you wretch! how dare you speak thus of the ladies!"

The following is the transcendental for "Miss, will you take my arm?"—Young lady, you will condescend so far to sacrifice your own convenience to my pleasure, as to insert the dignified and proper extension of your contiguous arm through the angular aperture formed by the crooking of my arm against the perpendicular portion of my frame?"

London.—The following description of London, from the pen of a wandering Yankee in that city, gives us at a glance as full a knowledge of the great metropolis as any of our more verbose writers.—London is a small, thin, inflated globe, containing about three millions of men, all sorts of women, and some children.

SECURITY FOR THE COUNTY.—The following bond, directed to be filed in the office of the County Commissioners, was entered into on the 11th instant, and in compliance with the provisions of the law, which it incumbent upon the citizens of Pottsville, in case of the erection of the public buildings without expense to the county. It has been entered into in good faith, the signers being abundantly responsible, and the instrument perfectly valid. No room is left, therefore, for doubt as to who are to bear the expenses of Removal.

Know all men by these presents, That we, whose names are hereunto subscribed, do hereby, jointly and severally, make, ratify, and confirm, and bind ourselves, our heirs, executors, and administrators, to the County of Schuylkill, in the sum of One Hundred and Fifty Thousand Dollars, to be paid to the County of Schuylkill, in certain Attorneys or Assigns. To which payment, we well and truly will make, we do hereby bind ourselves, our heirs, executors, and administrators, jointly and severally, and do hereby bind ourselves, our heirs, executors, and administrators, jointly and severally, to the County of Schuylkill, in the sum of One Hundred and Fifty Thousand Dollars, to be paid to the County of Schuylkill, in certain Attorneys or Assigns.

Health Made Easy for the People. Dr. J. C. Smith's... Being an elementary and interesting treatise on the human system, with a full and complete course of instruction in the art of curing all the diseases of the human system, in a plain and simple manner, and in a few days, and in a few dollars. It is a valuable work, and one that every person should possess.

The Great Medicine of the Day. Dr. TOWNSEND'S SARSAPARILLA. This medicine has the peculiar property of being recommended and prescribed by the most eminent physicians of the country, and is a most valuable and reliable remedy for all the diseases of the human system, in a plain and simple manner, and in a few days, and in a few dollars.

THE PROTESTANT EPISCOPAL CHURCH. The Rev. Mr. Taylor, who has the honor of erecting it in this Borough, and the workmanship reflects great credit upon the mechanics engaged in its erection. It is to be dedicated to the service of God, and will be a great ornament to the city.
