I'll tell you a plan for gaining wealth.
Better than banking, trade, or leases;
Take a bank note-and fold it up,
And then you will find your money in-creases.
This wonderful plan withou danger or loss,
Reeps your cash in your hands, where nothing can

trouble it:
And every time that you fold it across,
It's as plain as the light of the day that you doubleit.

## Wit and humor!

ONE WAY to Nullify a bad Lease. There is a shrewd and wealthy old Yankee landford away down in Maine, who is noted for driving his "sharp bargains," by which he has amussed a large amount of property. He is the owner of a great number of dwelling houses, and it is said of him that he is not over scrupulous in his rental charges, whenever he can find a customer whom he knows to be responsible. His object is always to lease his houses for a term of years, to the best tenants, and get the utmost farthing in the shape of rent.

A diminutive Frenchman called on him, last winter, to hire a dwelling he owned in Portland. and which had long remained empty. References were given, and the Yankee landlord ascertaining that his applicant was a man "after his own heart," for a tenant, immediately commenced to "jew" him. He found that the tenement appeared to suit the little Frenchman, and he placed an exorbitant price upon it; but the lease was drawn and duly executed, and the tenant moved into his

new guarters. Upon the kindling of fires in the house, it was found that the chimneys would'nt "draw," and the building was filled with smoke. The window spshes rattled in the wind at night, and the cold air rushed through a hundred crevices about the house, until now unnoticed. The snow melted upon the roof, and the attics were drenched from leaking. The rail pelted, and our Frenchman found a "natural" bath room upon the cellar floor -but the lease was signed and the landford

"I hav' ben vat you sal call 'suck in,' vis zis dain maison" - muttered our victim to himself, a week afterward - but n'importe - ve sal sec, vut "ve sal see!" Next morning he rose bright and early, and passing down town he encountered the landlord. "A-ha! Bon jour. Monsieur," said he, in his happiest manner. "Good day, sir.— How do you like your house?" "Ah! Monsieur -elegant, beautiful-magnificent? Eh. hein.
Monsicur: I hav but ze one regret!" "Ah!
What is that?" "Monsieur-I sal live in zat house but tree little year." "How so !" "I hav' find, by. vot you sal call ze lease, zat you hav' give me ze house for but tree year an' I have ver' mooch sorrow for zat." But you can have it longer-if you wish—" "Ah, Monsieur—I sal be ver' mooch glad if I can have zat house so long

as I please eh, Monsieur?" "Oh, certainly-"Tres bien, Monsieur! I sal valk rite to your ees-an' you sal give me vot you call ze lease for zat maison ies so long as I sal wont ze house Eh. Monsieur !" . " Certainly, sir. You shall stay there your life-time, if you like." "Ah, Monsieur-I hav' ver' mooch tanks for zis accom-

The old leases were destroyed and a new one was delivered in form to the French gentleman giving him possession of the premises for "such period as the lessee may desire the same, he paying the rent thereof, promptly, etc. etc." The next morning, our grafty landlord was passing the house just as the Frenchman's last load of furniture was being started from the door; and an hour afterwards, a messenger called on him accompanied with a note as follows:

"Monsikp'a,-Ishav' bin smoke-- I hav' bin drowned-Fhav' bin frees to death, in ze house vot I have hire or you, for ze period as I may desire." I hav' stay in ze dam house jes so long as I please," an' ze bearer ov zis vil give you ze

tecting the weakness of his new acquaintance. Setermined to muse himself at his expense. "I have always felt a desire to see Mississippi," said the unanumous man with a sort of a smile.

intended to be very engaging, and a tone which omised the sweetest accord that might be said in its favor-not excepting Brandon money!

"Well, d-n a fool that would believe such

"Yes, sir: yes, sir," again assented the man of imperturbable politeness; "I agree with you ney are great liars in Mississippi!' When last seen the alligator catcher was stand ing on a corner presenting his hat to every pas ser-by-that apparently didn't-require one.

I'v A gentleman sat down to write a deed's You are wrong said a bystander, it ought to be, know all men.' Very well,' answered the other, if one woman

knows it all men will, of course."

COLLIERY WORKS, 四豐豐山

THE subscribers, at their old stand, corner of Rail Road and Callowhill streets, are prepared to manufacture to order, at the snortest natice, Steam Engines and Pumps, of any power and capacity for infining and other purposes, Battin's Coal Breaking Machines, with solid and perforated rollers, as may be required.

Also Engines and Blowing Cylinders with all necessary machines for Blast Furnaces. Hob Sir Pipes, of the most apigoved plans, Cup and Ball joints and Water Taygers follow very best construction. They particularly invite the attention of Iron Masters and parties engaged in the Iron trade, to their large stock of Patterns (or Rolling Mills, having lately constructed the machingty for two of the largest Mills in the country, viz.—The Wyoming Mill at Wilkesbarre, and the Rolling Mill, at the Montour Iron Works. Danville. They are full systepared for this kind of work, together with every variety of general machinery. Of the quality of their work and materials, it is enough to say, that time and experience, the most infallible tests, have amply demonstrated the genuine character of their engines and machinery.

Orders are respectually solicited and will be promptly attended to.

May 8 19 Book and Variety store, Potisville. FARM FOR SALE

Will be sold at Private sale, a farm situated with-in one mile of the town of Cattawissa, in Colum-bia county, Pa., adjoining farms belonging to John Cleaver and Peter Bodine, containing fifty acres more or less, three acres of which are woodland, and the balance in a good state of cultivation.

There is an excellent orchard of choice apple trees, together with a number of peach and cherry trees, on the farm. On the premises are erected a good two story, log dwelling house with kitchen back, a large bank barn, a new cider press, stone spring house together with other out buildings, all in in good order. The farm will be sold a bargain to any person in want of one. For terms and other particulars apply to WILLIAM PATTON,
Mine Hill Gap, Schuylkill Co., Pa.

March 6,1847

THE subscriber respectfully invites the public to call at Mr. Wiffield's Store, Centre street, and examine his assortment of C. Meyer's GRAND ACTION PIANOS of Philadelphin.

The instruments are highly approved of by the most eminent Professors and Composers of music. For qualities of tune, touch, and keeping in time up to concert pitch, they cannot be surpassed by either American or European Planos. They are chosen by all musical stars for their concerts, such as Madame Castellan, Leopold de Meyer, Vieux Temps, Burk, Walface, Templeton and many others; they are used for 200 or 300 concerts every year. They have also received the first premiums of the three last exhibitions, and the lastsil ver medal by the Franklin Institute was awarded to them. The subscriber warrants these instruments for the year. He keeps them constantly on bund and sellis othem at the lowest manufacturer's prices on reasonthe desired, the desired is woodland. The shore describe premises will be sold cheap upon accommodating terms to suit the purchaser, or will be exchanged for property in Pottsville. For further particulars enquire at the Eagle Foundry, on the Railroad below Clemens & Parvin's Steam Mill.

C. M. STRAUB, Prothonotary. POTTSVILLE HIGH SCHOOL. THE Adumn term of this Institution will commence on the 6th of September next. The Interal patronage which has been bestowed on his school, and the considerable accession of pupils during the last year, has induced the Principal to procure two additional competent teachers; hoping that the character which will thus be given to the school will increase the humber of pupils still more; so as to enable him to meet the fleavy expenses which will consequently be incurred and to carry out his design of establishing an Institution worthy of the most liberal support. The following will be the division of failor: the division of failure.

Mr. Elias Schneider, A. B., Principal and teacher of the Ancient languages and Mathematics.

The French and German languages have been assigned to Monsieur F. Perrin, a graduate of one of the principal of the Perrincipal Control of the Pe

ed to Monsieur F. Perrin, a graduate of one of the principal Gymasiums of Berne, Switzerland; and also a native of that country. Mr. Perrin has had considerable experience in teaching before his connection with this Institution. He teaches the French and German, according to Ollendorff's method, being able to speak both lesse languages with fluency.

Mr. W. P. Koutz, a member of the Senior class of Marshall College, will have charge of the department of Natural Science. History, and Elocution.

Mr. E. Sagendorf, who has been already a year connected with the school, teaches the English branches.

The German is considered one of the most important branches of the school, and, therefore, besides the usual recitations in this language, half an hour is spent every daylwith the German pupils in German insulations, and discussions. The exercises are conducted by two teachers, who, by exchanging the rideas with each other in the presence of the pupils, lead them gradually to do the same, and thus enable them to speak the German soon. Persons from abroad, who may wish to send their sons to this Institution, will proculte further information by writing to the Principal. Arrangements have been made to accommodate a certain number of persons in a respectable private boarding house, not far from the school, and in a retired part of the town.

by paying the Company \$1 31, would secure to his faamily or heirs \$100, should he die in one yeu; or for \$13 10 be secures to them \$1000; or for \$13 60 annually for 7 years; he secures to them 1000 should he die in 7 years; or for \$22 60 paid annually during life he provides for them 1000 whenever he dies; for \$65 50 they would receive \$5000 should he die in

one year.

JANUARY 20, 1845.

THE Managers of this Company, at a meeting held on the 27th December ult., agreeably to the design referred in the original prospectus or circular of the Company, appropriated a Bonus or addition to all policies for the whole of life, remaining in force, that were issued prior to the ist of January, 1842. Those of them therefore which were issued in the year 1836, will be entitled to 10 per cent upon the sum insured, making an addition of \$100 on every \$1000. That is \$1100, will be paid when the policy becomes a claim instead of the \$1000 originally insured. This policies that were issued in 1837 will be entitled to 187 per cent, or \$57.50 on every \$1000. And those issued in 1833, will be entitled to 71 per cent, or \$75.00 every 100, and in ratable proportions on all said policies issued prior to 1810 of January, 1842.

The Bonus will be credited to each polocy on the books endorsed on presentation at the Office.

It is the design of the Company, to continue to make addition or bonus to the policies for life at stated periods.

B. W. RICHARDS, President. JANUARY 20, 1845.

JOHN F. JAMES, Actuary.

20 The subscriber has been appointed Agent for the above Institution, and is prepared effect insurances on lives; at the published rates, and give any information desired on the subject, on application at this office.

Farmers' Department.

MICE.—The harvest mouse is the smallest o all known British quadrupeds, only one-sixth of the size of the common house mouse, for two harvest mice placed in a scale will not do more than weigh down a single half-penny. Its little nest is beautifully constructed of leaves, and sometimes the softer portion of reeds. About the mid-dle there is a small hole, just large enough to ad-mit the point of the little finger. This is the en-trance to the nest, which the mouse closes up when it goes in quest of food; and yet this fairy structure, which a man might enclose in the palm of his hand, and which might be tumbled across the table like a hall without disarranging it, often contains as many as eight or nine little mice; for even when full grown the whole length of the head and body scarcely exceeds two inches. During the winter months it retires to its burrow under the ground, unless it should be fortunate enough to get into a corn stack. It is one of the prettiest of our English animals, and may be kept in a cage like white mice, where it will amuse itself for several minutes at a time by turning round a wire wheel. Its chief food is corn, although it will occasionally, feed upon insects.

How the harvest mouse contrives to give nourshmenf to eight or nine young ones in that found confined little nest, was a puzzle to that clever naturalist Gilbert White; and as he could not resolve so difficult a question; he imagined that she must make holes in different parts of the nest and so feed one at a time. It is very amusing to watch the habits of this beautiful little creature in a cage; to see how she will twine her tail around the wires, clean herself with her paws, and lap water, like a dog; it is the little tom ut of animals. Even the common mouse, which is so great a pest to our houses, is an elegantly shaped little animal, altho it is such a plague in the cupboard and in the larder. Wherever man goes, it follows him let him build ever so princely a mansion, he is sure to have the little mouse for a tenant. He walks in we cannot tell how, and when he has once obtained possession, he is in no hurry to start again .-He helps himself to whatever he can get, without asking any one's permission; and he never saw a carpet in his life that he thought was too good for himself and his little companions, to play upon,-Rural England.

CLUBFOOT IN THE HORSE.-A fine black wagon horse, the property of Mr. Millet, miller, of Newton St. Cyprus, was some time since sent to Mr. Tremlett's kennel to be slaughtered. heing considered incurable, having a distortion of the foot from a contraction of the sinew, which made him walk on the front of his hoof, with the heel elevated perpendicularly. Being an animal in such good condition, Mr. Tremlett was univilling to destroy him. He therefore requested Mr. Read, veterinary surgeon, to examine him; who decided that the only chance of rendering the animal useful would be the division of the great flex-or tendon of the leg. Accordingly the operation of tendotomy, or dividing the tendon was performed. Ten days after the operation he walked flat on the sole of his foot: one month afterwards he was put to the plough. He'is now as useful as any horse on the farm, and performs all the duties a horse is required to perform. Four months have elapsed since the operation was done; a fair trial has therefore been given to test the utility o inutility of the operation .- Western Times. ;

COMPARATIVE Nutritive Powers of Green and Dry Fodder for Cattle.—A communication has been made to the Paris Academy of Sciences by M. Boussingault, on the comparative nutritive powers of green and dry fodder for caitle. Hith-erto the received opinion was, that natural or attificial grasses, on their being converted into hay, lost a portion of their virtues. To determine this point, M. Bouseingault fed a heifer alternately, for ten days at a time, upon green or dry food, and weighed the animal after each ten days. found no difference in the average weight; and therefore comes to the conclusion, that the hay made from any given quantity of natural or artificial grass has the same nutrition as the quantity of green food from which it was made.—London Athenaum.

PUMPKIN PIES .- Pare the outer rind from pumpkin cut it up and take out the seeds; then put it over the fire with a cup of water: cover it and let it boil until it is perfectly tender, and will trush; then take it into a colander or serve, with a skimmer; let it drain; then rub it through the sive or colunder, into a deep basin; add to it enough milk to make it quite thin, one teaspoonful of salt, nutmeg grated, some essence of lemon, and six well-beaten eggs, and sugar to faste. Line a dish with paste or putf paste, and fill with the prepared pumpkin. Some little ginger in the mixture. There may be more or less eggs than is here

Agriculture, says Socrates, is an employ ment the most worthy the application of man, the most ancient and the most suitable to his nature; it is the common nurse of all persons, in every age and condition in life : it is the source of health. strength, plenty, and riches; and of a thousand sober delights and pleasures. It is the mistress and school of sobriety, temperance, justice, religion, and in short, of all virtues civil and military.

directed; but this number, to a common sized cheese pumpkin, makes excellent pics.

IMPORTANT TO INVALIDS!

Let all who are affected with Connumption, Coughs, Colds, Asthma, Bronchitis, Spitting Blood, Pain in the Side and Breast, Sore Throat, Hoarseases, Palpitation of the Heart, Whooping Cough, Croup, Hines, Nervous Tremors, Liver Complaint, and diseased Kidneys, try

THOMPSON'S COMPOUND SYRIP OF TAR AND WOOD NAPTHA.

IF there is power in medicine to remove and cure distense, this one will rapidly did effectually secure a restoration to health.

From all parts of the country testimony continues it foour in of its unequalted and salutary power over Pulmonary, Throat, and Pettoral diseases.

A recent letter from Hendiershott & Co., an old and highly respectable firm in Nashville, Tenn., states — That the Compound Syrup of Tar and Wood Naptha gives universal satisfaction,"—more so than any medicine they have ever sold.

Read the following from Dr. Young, the eminent oculist:

PHILABELPHIA, Jan 18th, 1847.

Messes. Angney & Dickson:—Gentlemen:—Having recommended in, my practice, and used in my own family. Thompson's Compound Syrup of Tar and Wood Naptha, I have no hesitation, in saying that it is the best preparation of the kind in use, and persons suffering from colds, coughs, affections of the throat, breast, &c., so prevalent at this season of the year, caanot use any medicine that will altay a cough or consumption sooner than Thompson's Compound Syrup of Tar and Wood Naptha:

WM. Young, M.-D., 152, Sprince street.

Read also the following from a man who will, at any time, corroberate its statements.

MOST WONDERFUL CURE!

PHILABELPHIA, Dec 4th, 1846.

Penetrated with a deep sense of grantitude for thebe-

time, corroberate its statements.

MOST WONDERFUL CURE!

PHILABELPHIA. Dec. 4th, 1846.

Penetrated with a deep sense of gratitude for thebeen effit experienced by the use of Thompson's Compound Syrup of Tar, and that others, who, like hie, have languished through years of affliction and suffering, without being able to find a remedy, may know where it can be obtained, two untarity make the following statement:
About 4 years since, ofter being affected with a violent cold the me atroublesome and severe cough. Whilst the cough continued which was, with scarcely any intermission, during this long period, language fails tozelf what I have suffered from debility, pains in the breast and side, night sweats, difficult expectoration, oppressed breathing, and, in fact, all those symptoms which mark a severe pulmonary affection. The relief occasionally obtained by the discharge of the matter which obstructed the healthy action of my system, but increased my fears, as the purulent matter discharged was frequently streaked with blood.

During this time I was under the treatment of several physicians, and took many of those preparations recommended as servicable in the cases of others, but without relief; and I, at length, concluded that a care, in my case, was hopeless. But how agreeably changed is now my opinion! I have used, for about three weeks. Thompson's Compound Syrup of Tar. By the use of one bottle my cough has been relieved and my system reinvigorated, and by continuing a use up to this time. I am satisfied that my complaint is entirely removed and groups are the stream of the stream of Fifth and Spiuce stream, Thinadelphia.

Sold in Bottsville by J. G. BROWN, and J. B. FALLS, Mindraville.

Price 50 cents, of 1 per bottle; of \$2 50, and \$5 for six bottles. Bewafe of initiations!!
