BY MAGNETIC TELEGRAPH!

Philadelphia, Sep. 18, 6 d'clock, P. M. The steamer Union, Captain Herbert, arrived at New York yesterday, from France, bringing Paris papers to the 31st ult., which contain London dates to the evening of the 28th.

The accounts from England are not favorable. Several heavy failures had taken place since the date of our last advices.

The result of the hervest in England is very satisfactory. The potato crop in the British Islands has generally escaped the rot.

The Hibernia reached Liverpool on the 28th August. The Queen of Sicily has given birth to a prince.

He is to be named Phillippe Louis Marie. The market is depressed. Flour nominally 55 371; wheat, \$1 05; oats, 45 cts. Market

throughout dull, Bultimore. - Flour, very dull at \$5 121 a \$5 25;

outs, 41 cts.; whiskey, 274 cts. The New York telegraphic line is out of order-Pillsburg .- Market very dull: No buyers for flour. No news south.

A friend-at Phanixville, Unester county. gives a flattering account of the state of affairs at that place. The extensive Rolling Mills, Furnaces, &c. of Reeves, Buck & Co. are in full opera tion, one of which turning but daily about forty tons of rails. Many fine buildings have gone up during the summer, and the whole aspect of the town is at once gratifying and business like. His allusion to the Phonixville Hotel, which has recently undergone some important elterations, we are fully prepared to endorse. The gentlemanly proprietor, D. K. Brower, Esq. is doubtless well known to many of our readers-and to such his name would be sufficient guarantee as to the excellence of the house. But to the public in general, we may say, that while it has all the quiet of the country, it also has many of the characteristics of a fashionable City Holel, with which its Table di Hole, at least, will favorably compare.

TA rich Vein of Lead has been discovered on the Harrishurg turnpike, near Lancaster./Pa.. The ore is said to be found in great abundance, and is very rich. Its discovery was the result of an examination into the cause of the premuture ripening of grain on the land which covered the netallic treasure. Lead abounds in that county a rich vein was discovered in a limestone quary some years ago in Conestoga township, which,

rastored to the Bishoprick by the Conver to sit; the evide ace being that he has entirely abstained during the intervening time. We hear, farther; that a Church will be erected for him, by

some of the Episcopalians of Philadelphia." The City Hems Man of the North Ameri can does, sometimes, say a good thing; but his frequent observations of the weather, the State House clock, and the Dollar Newspaper, are really "stale, flat and unprofitable." No intelligent Whig, after reading the paper, (which, at most, is but a trashy affair) could conscientiously recommend it to the public as a Neutral Paper. Yet the North American ... does this every week!

Order of Agriculture .- The King of Prus- 1 in has lately created an Order destined exclusively to agriculture —that is to say, to cultivators and persons who distinguish themselves in this department of industry. The decoration bears on one side the effigy of the King of Prussia, on the rounded with a crown of wheat, with vine and olive leaves. This is a kind of Order that no one will object to see greatly increasing its numbers.

Fulfilling a Prediction.—The New Orthough as close-mouthed as an oyster about his designs, expressed his determination to be in the Capitol by the 1st of September. "Ishall dictate peace to them in their Capitol, on the 1st of September, 1847." The old General is certainly shaving it very close, but he will redeem his promise beyond a doubt.

Great Kailure in New York. - The firm of Prime, Ward & Co. Bankers, and one of the oldest firms in New York, failed a few days since. The statements which came out by the late steamers caused a run upon the house by depositors and creditors to such an extent, as to induce them to suspend operations at once. It is said they were offered \$500 000, if they would agree to go on, but that they declined it.
