Penetrated with a deep sense of gratitude for the be-nefit experienced by the use of Thiompson's Compound Syrup of Tar, and that others, who, like me, have lan-guished through years of affliction and suffering, with-out being able to find a remedy, may know where it can be obtained, I voluntarily make the following statement: About 4 years since, after being affected with a violent cold it left me a troublesome and severe cough. Whilst the cough continued, which was, with scarcely any in-termission, during this long period, language fails to tell what I have suffered from debility, pains in the breast and side, night sweats, difficult expectoration, oppressed breathing, and, in fact, all those symptoms which mark a severe pulumoary affection. The relief occasionally obtained by the discharge of the matter which obstruct-ed the healthy action of my system, but increased my fears, as the purulent matter discharged was frequently streaked with blood. During this time I was under the treatment of several physicians, and look many of those preparations re-commended as servicable in the cases of others, but withoutrelief; and I, at length, concluded that a cure, in my case, was hopeless. But how agreeably changed is now my opinion I have nised, for about three weeks, Thompson's Compound Syrup of Tar. By the use of one bottle my cough has been relieved affermy system reinvigorated, and by continuing its use up to this line. I am satisfied that my complaint is entirely removed and eradicated. R. HAAS' 'EXPECTORANT, FOR THE CURE OF

Consumption, Coughs, Colds, &c.

TO THE PUBLIC:: TO THE PUBLIC:: IN PRESENTING this valuable medicine to the pub-lic as a remedy for Consumption, and Pulmonary Diseases in general, I have been actuated solely by the great success attending its use in my own immediate neighbothood, and a desire to benefit the afflicted, I shall simply endeavor to give a brief statement of its usefulness, and fatter myself that its surprising effica-cy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that CONSUMP-TION may and "CAN BE CURED," if this medicine is resorted to in time. As Consumption, however is a discase which differs much in the severity of its symp-oms, and the rapidity of its progress, and has long baf-fied the akill of physicians it cannot be supposed that this or any other remedy is capable of effecting a cure in every case and in every stage of the disease; on the contrary, we must expect it to fall sometimes, a iscunstance which occurs daily, with all the most val-uable remedies we possess, for the most simple diseas-ter of the proprietor submits the following testimoning

circumstance which occurs daily, with all the most val-uable remedies we possess, for the most simple diseas-es.
