To American Farmers .- Many thousand far ers in New England rear large families, pay all their debts and taxes promptly, and live indepen-dently, well clothed and comfortably housed and provided for, and lay up money, on farms of fifty acres. The idea is, that these people labor severe-ly. This is a great mistake. They have much because they waste no time. With them " there is a place for everything, and everything in its place." Their horses and cattle, tools and implements, are attended to with clock-like regularity. Nothing is put off till to-morrow which can be done to day. Economy is wealth, and system affords ease. These men are seldom in a hurry, except in harvest time. And in long winter evenings or severe weather which forbid employment out of doors, one makes corn brooms, another shoes; a third is a carpenter, cooper, or tailor; and one woman spins, another weaves, a third plaits "Leghorn bonnets." "A LTHOUGH many preparations in the form of "Pop-Aular Medicines," have been before the public, claim-ing to give relief, and even cure the most inveterate dis-eases, yet none have so well answered the purpose as Dr. Sherman's Medicated Loznges. They are agreeable to the taste, easily administered, and from the unprece-dented success, which they have met with, and the re-markable cures which they have met with, and the re-markable cures which they have performed, may justly by claim to the tille of conguerer over the diseases for which they have been recolumended. Dr. Sherman's "Cough Loznges" cure the most obstinate cases of Cough a few hours. They have cured a large number of persons who have been given up by their physicians and friends, and many who have heen reduced to the verge of the grave by spitting blood, Consumption and Hectic fever, by their use have had the rose of health restored to the haggard cheek, and now live to speak forth the praises of this invaluable medicine." Dr. Sherman's "Worm Loznges." have been proved in more than 400,000 cases to be infallible, in fact the only certain worm destroying medicine ever discovered. Children will est them when they cannot be forced to take any other medicine, and the benefit derived from is great beyond description. When the breath of the child becomes offensive, and there is picking of the child becomes offensive, and there is picking of the child becomes offensive, and there see as bent the dowinistration of medicing sleep, paleness abent the tips with fright and screaming, troublesome cough feverishness, thirst, voracious appetite, sickness at the stomach, and bloated atomach—these are among the many prominent symptoms of worms, and can be relia-wed by these incomparable Lozenges. They have never been known to fail. Dr. Sherman's "Camphor Lozenges." relieve head ache, nervous sick headache, palpitation of the heart and sickness in a very few minutes. They cure lowness of spirits, despondency, faintness, colic, spasms, cramps of the stomach, summer or bowel complaints-they keep up the spirits, disped all the distressing symptoms of a night of dissipation, and enable a person to undergo great mental or bodily toil. Dr. Sherman's "Poor Man's Plaster" is acknowledg-ed by all who have ever used it to be the best strength-faing plaster in the world, and a sovereign remedy for palas and weakness in the back, loins, side, breast, neck, limbs, jonis, rheumatism, lumbago, &c. One million a year will not supply the demand. Caution is necessary, as there are many unprincipled persons who would force a spurious article upon the community. Be careful to get Sherman's Door Man's Plaster, with a 'fac simile' of his written name on the back-none others are genu-line, and will do môte hurt than good. When such men as the Rev. Beard-sley, Daniel Fanshaw, Esq., and a host of names of a like reputation, can be brought forward to prove the ef-facey of Dr. Shermar's preparations -when they are so warmly recommended by the medical profession and prescribed in their practice, and when such universal approbation follows their use among all classes, we may justly say that the Doctor is not only entiled to the ap-pellation of vizor, but can fairly lay claim to the patron-age of the public, and will receive it.
