## Philadelphia and Reading Bailroad.

Through the policeness of Mr. Walker, we have received a copy of the Reading Railroad Company's report for the year ending the 30th November, 1847, from which we make the following abstract. Its length precludes its publication in

The whole receipts of the Company were as follows: From Coal, do Merchandize Passengers,

do Transportation of Mail, &c.

Total Receipts. The receipts for Merchandize on the Road in 1846, were \$137,583 52, showing a falling off of only \$1,363 60, notwithstanding the competition of the Canal.

The total toppage of the Road, jucluding Pas sengers and materials for Company, in tons of

Equal to 48 per cent of the receipts of the Road The cost of repairing Wharves at Richmond during the year was \$9,438 64.

Rails .- During the year, 1919 Rails weighing Rails.—During the year, 1919 Rails weighing the rapid increase of the lusiness, and product the rapid increase of the lusiness, and product the rapid increase of the lusiness, and product of mining coal, demanding all the capital that those engaged in it can possibly command.

But for the future there is not so much uncer the rapid increase of the coul and the rapid increase of the lusiness, and product the rapid increase of the lusiness. Bars substituted. After deducting the value of the old bars, it leaves the loss on Iron, \$10,305 87. or less than & of a cent per ton on the tonnage of

Bridges .- During the last year fifteen stone Bridges, varying in span from 10 to 351 feet.

77 Locomotives, one of which is out of use. 4606 Coal Cars, one of which is an 8 wheeled fron car, and 3019 4 wheeled iron cars. The remainder are wooden cars. 502 Cars for freight of different kinds.

7 Snow Ploughs. 2 Small Express Locomotives, and Liabilities.-The liabilities of the Company

were on the 30th of Nov. 1847 \$12 236,559 58 do on the 30th Nov. 1846 11,589,696 67 Increase during last year including

stock dividend of 12 per cent, a 646 862 9 mounting to \$434,150 04. During the year, \$1,400,000 of the floating

debt of the Company and bonds due were con verted into a Mortgage loan, the commission

wired into a Mortgage loan, the commissions and charges of which were \$143,027 14.

The indebtedness of the Company is as follows:

Capital stock, \$3.432,000 00

Bonds and-Mortgages on real-catate, 213,168 66

Sundry accounts due

by Comp'y \$507,637 27

Sundry bills

due the Co.

for freights

And we would propose, that at the earliest practically in the many for freights

And we would propose, that at the earliest practical stock, and suited to our new more, making a total of 600,000 tons. These latter year.

The nett income for 1841, after deducting current expenses and repairs, was \$463,000.

Out of this income, \$112,000 were paid for interest, a dividend of \$99,936 made the Stockhold-trade and the debt of the Company reduced to \$202,906 03; and since that period, the coal trade approved form and materials, in good order, and coals of the region with ordinary diligence, a tournage for the coal of the region with ordinary diligence, a tournage for the call of more than 500,000 tons.

And we would propose, that at the earliest practical must be so adjusted that they will neither over \$1841, after deducting current expenses of the latter year.

The nett income for 1841, after deducting current expenses of the stockhold-trade of \$99,936 made the Stockhold-trade of \$99,936 made the Stockhold-trade of \$90,936 made the Stockhold-trade of \$00,000 tons are steadily increasing at the rate of twenty approved torm and materials, in good order, and company reduced to \$202,906 03; and since that period, the coal trade has been steadily increasing at the rate of twenty approved torm and materials, in good order, and company reduced to \$202,906 03; and since that period, the coal trade has been steadily increasing at the rate of twenty approved torm and materials, in good order, and company reduced to secure by all homes are steadily directed to secure by all homes are steadily directed to secure by all only the c

THE SENATE. - Some rich scenes occa-

such other down. That is the plan now generally security. In the annual report presented in Jan. Cost of works, &c. prior to enlarge sequences for the amount of the noise thus issued was

REPORT Of the President and Managers of the Schnylkill Nan gation Company to the Stockholders. January 20 1849.

At the annual meeting, held in January, 1845, the Board of Managers, recommended for adoption, a plan for the improvement and enlargement of the works of the Company, and very fully and clearly, exhibited the necessity of the measure. With singular unanimity, the work was ordered by the Stockholders to be undertaken, and n ordinance passed, providing for the raising of what was then deemed a sufficient sum by loan,

what was then deemed a sufficient sum by loan, to effect this new purpose.

The arrangements for commencing the work, depending upon the negotiation of the loan, the perfecting of surveys, and the making of contracts, occupied the larger part of the year 1945; and after the usual season for unvigating the canal had terminated, the extraordinary labours of the officers and agents of the Company were begue.

The period, therefore, marks a new ern in the history of the institution; and while the past may be referred to as farnishing the hasis for calculations, and the ground of reasonable hope.

The

ation may be said to have been undergoing a reat transformation; and while you have been great transformation; and while you have been annually informed of the progress, and prospects of the change, you have yets rarcely begun to feel, and not at all to realize, the success of your-labors. Although boats and trade were passing the line of your works during a part of the year 1346, they may be regarded as only the earnest of what would sometime follow; but when your proper work had been accomplished, there remained yet much to be done, especially for the accommodation of that part of the trade, which formed the chief inducement for the change you had ordered.

The Spring of 1817, found us in a new and ex-The Spring of 1817, found us in a new man for a spring of 1817, found us in a new man for a spring of 1817, found us in a new man for a spring of the stockhollers, loan holders, had been provided, for the purpose of receiving and others interested in the proposition, was call the spring coal.

After this course had been resolved on, an interested in the proposition, was call the spring coal.

It was auticipated also, that our new works could be used by the boats engaged in the trade on other lage canals, that at the season when they usually have but little employment, (but which is the most active one with us.) they would seek our line.

The Stockholders, at their annual meeting in Blooms. Seek our line.

But these anticipations have not been realized:

But the Managers have realized:

But the Man

The total tonnage of the Road, tackluding Pastengers and materials for Company, in tons of 2000' ibs. was for the year, 1,770,916.

The number of Passengers carried during the year was 97,463, equal to 49,604 through Passengers.

The number carried in 1846, was 88,641, equal to 45,155 through passengers.

The following is given as the expense of maintaining the Road during the year:

Repairs of roads, beds, tracks and bridges, 11,470 34
Railroad Iron, 10 305 87
Watchmen, 9,101 94
Water staticnal depois, Engine houses, 2,863 17
Superindences and office expenses, 2,863 17
Superindences and office expenses, 2,863 17
Superindences and office expenses, 2,863 17
Add expenses of transportation deposites, many things for the future, and in try-shape the carried the carry ing many things for the future, and in try-shape the carried the speciment, to determine whether we are hardened adopted by the Managers to raising money by promissory to the Shuylkill valley, has either from natural decay or some other sufficiently controlly the stock of boats and cars, formerly used in the trade of the Schuylkill valley, has either from natural decay or some other sufficiently controlly the stock of boats and cars, formerly used in the trade of the Schuylkill valley, has either from natural decay or some other sufficiently controlly the Managers to raising money by promissory to the Managers to raising money by promissory to the Managers to raising money by promissory the Managers to raising money by promissory the Managers to raising money by promissory the Author of the boats on other trade of the Managers to raising money by promissory the Author of the Board to protect, and the post of the Stockholders, and the Board have feel taker to an hoast error of the Board have feel to the subscription to the work, the stimule of the business for us, to the extent that our subscriptions the business for the Stock of boats and cars, formerly used in the trade of the Managers to

build cars, and boats, and landings, but also cause them to be used by parties who act independently of us, and require a large share of the profits carned by the use of them. And this state of things arises not so much from the wishes of those who are engaged in the trade, as from necessity the rapid increase of the lusiness, and product

tainty, as the natural increase of the coal and other trade of the Schuylkill Valley, will in the course of the next three years fully occupy, the great channels that have been prepared to carry that trade to its appropriate markets.

There is, therefore, sufficient inducement

capital now unprofitably employed elsewhere to seek either through our hands, or by inde

the proposed changes meet with general approbation.

We therefore ask for your formal confirmation of the policy therein proposed, in order that those who might be deterred by the fear of an unfatories, or embarking in our system of charges and management, from building furnaces, or manufactories, or embarking in the business of transportation, shall have that assurance of stability in our plans, which it is essential to have before integrating the portation, shall have the assurance of stability in vesting capital in undertakings that can only be successful where such stability is to be found.

It may not be inappropriate to consider here; the position the complany now occupies for the coal trade of 1848.

They had secured by lease, at the date of the last annual report, a large and well arranged dock and landings at Schuylkill Haven, and were engaged in constructing others at Mount Carbon and Port Carbon.

These have been so for completed designed to the condition of the company of the reimbursement of loss, would be \$293,000.

In presenting these estimates, it may not be improper to bring to view the condition of the company of the reimbursement of loss, would be \$293,000.

THE SENATE.—Some rich scenes occasionally occur in all Legislative bodies, and it would be remarkable, andeed, if the Pottsville Senate should not sometimes descend from its digniferations, to others of an emburrassing and painful kind. For the first time since the opening price is believed that the honorable members are that flesh and blood." The members of the Senate of Columbia, we perceive by the Spy, are also "appuehensive;" as witness the following:

Senator from Arkansas. Mr. President, I am opposed to the question being take up tonight!—
Six, I protast against the gentlemen gouging us speak on the amendment.

Senator from Massachusetts. (a little excited.)
Mr. President, I do not wish to "going down," (with great emphasis). Nor, sir, prof of Web. 1960.
Why did not the "thororable gentlemen" look such other down. That is the plan now generally gloomed by Senators?

The Senators from Massachusetts are the following: a single provided from the senator of the candinate of the country assumed a character of greater case and stability, it was supposed to the question being take up tonight!—
Senator from Massachusetts. (a little excited.)

Mr. President, I do not wish to "going down," (with great emphasis). Nor, sir, prof of Web. 1960.

Why did not the "thororable gentlemen" look such other down. That is the plan now generally gloomed by Senators?

Why did not the "thororable gentlemen" look such other down. That is the plan now generally supposed the fact of the convertible loan as collected to pass from these contents the member of the convertible loan as collected to pass from these cannot be made. The rich of the convertible loan as collected to pass from these contents and the cost of the ten part and the cost of the form the end of the convertible loan as collected to pass from these contents and the cost of the form the end of the convertible loan as collected to pass from these cannot be presented to the part of the company. January 1, 1848.

Legislative booles, and the cost of the pass from these carn

stated at about \$844,000. In order to complete Improvement of the works the works, to pay for cars, boats, and fandings, Schuylkill Navigation Co. and to meet the current expenses of the Company and the interest upon its losns, a large sim beyond the current income has been required, and thought exercise to been raised by the issue of the Company's promissiry notes, secured to a considerable like deposits of the convertible losn Rail Road Cars and Boxts. as collateral security. The amount now due by it Cash on hand under such liabilities, is about \$1,500,000. The Loans of the Company held in trust interest due January 1, 1848, amounts to \$49, by the President 037 33; the debts due for work, materials, dec. Due by sundry persons on the line, are about \$50.000; the usual expen-

ses for preparing the work for use in the Spring will need about \$50,000; and there are other will need about \$50,000; and there are other claims which must be met, and preparations to be made, for aiding the expected trade of 1848 by farmishing boats and care, that will require about \$150,000, making an aggregate of present and proximate liabilities of about \$1,800,000, for which permanent provision is absolutely necessars.

may be referred to as furnishing the basis for calculations, and the ground of reasonable hope, the completion of what was then taken in hand, will mark hereafter, as distinctly, the new work from the fold, as the latter marked its character upon the trade that had flowed over the fiver Schuylkill, when the charter of the Company was granted.

Since the antumn of 1845, the Schuylkill Navis gation may be said to have been undergoing a stockholders under the necessity of submitting to for the contractor's Improvems Bills Psyable Due to sundry persons Surplus

The funding of this debt, and the proper provision for the contingent liabilities just stated, had been postponed under a belief that the trade of Surplus

8118 Psyable Due to sundry persons Surplus

8147 would command the money at or near par for the convertible loan; but the revulsion that occurred about two months since, has deprived the Board of the ability to do so, and placed the stockholders under the necessity of submitting to

a very large sacrifice.

Embarrassed by such a position, and unable to bring the stockholders together in regular meeting. bing the stockholders together in regular meeting, to provide for the emergency, the Board first invited a number of the large stockholders and loan holders to meet with them, for consultation and Tolls on Coal, advice; and the result of their deliberations was Tolls on other articles, a proposal on the part of the Managers to raise by Rents of water power and real estate, a convertible loan, payable in twenty years, and Boat, car and landing rents, to bear interest at the rate of six per cent, per an-num, the sum of one million eight bundred thousand dollars of the certificates of the loan at fifty dollars in money for one hundred dollars in

the horrid tribe, and your little ones which you here

dearly, will live to make you blessed. People call take

child's friend and the worm a death. It is on y 25 cm.

bitte. Made by Dr. Evans, No. 32s, No. 118 Sints,

Philadelphia. Wake up Worms!

Attention is invited TO the fact that persons afflicted with Dyspepa, Liver Complaint, Sick Headache, Nervous Affa lons, Giddiness, toss of Appetite, Weakness, Hearthun Coativeness, Palpitations of the Heart, lowness of faj itis, and all itg plaint, and all delicate females subject to irregularities will find in the use of DR. EVANS' VEGETABLE ANTI-DYSPEPTIC CANDY-COATED PILLS,

A safe, pleasant, and certain cure, 25 cis. a box, with directions for using them, and a pamphlet containing numerous testimonials of the astonishing cures performed by these pills.

For sale in Schuylkill county, Pa., by B. BANNAN and JOHN S. C. MARTIN, Pottsville; H. Shissler, Port Carbon; J. B. Falls, Minersyille; H. Shissler, Prepared by Dr. T. G. Evans, at his medical depot, No. 32, North 6th street, Philada. 102948-5-3m

OR the cure of Headache, Giddiness, Rheumatism, Piles, Dyspepsia, Seurvy, Smaltpox, Jaundice, Psia the Back, Inward Weakness, Palpitation of the Heart, Mats., in the Throat, Droppy, Asilma, Frees of all kinds, Finnals Complaints, Bleasles, Salt Rheus, all kinds, Finnals Couplaints, Steasles, Salt Rheus, all kinds, Finnals, Couglas, Quiner, Woodpiag Cough, Consumption, Fits, Liver Complaint, Styalpelas, Deafness, Itching of the Skin, Colds, Gorc. increases, a in the organs of digestion.

Experience has proved that nearly every disease entitates from impurities of the blood or derangement of the digestive organs; and to secure health, we must remove these obstructions or restore the blood to its many the secure of the secure of the blood to its many the secure of the secure move these obstructions or, restore the blood to its ni tural state.

The aversion to taking medicine is most effectually removed by Clickner's Vepetable Purgative Pills; being completely enveloped with a coating of pure white sugar other is as nut shell from the kernel) and have no taste of medicine, but are as easily awallowed as bits of candy. Moreover they neither nauseate or gripe in the slightest degrees but operate equally on hill of the diseased parts of the system, instead of confining themselves to and racking any particular region. Thus, if the Liver be affected, one ingredient will operate on that particular crean, and by cleansing it of any excess of hile, restore it to its nursal state. Another will operate on the blood, and remove all impurities in its circulation, while a third will operate of the order of the discount of the control move all impurities in its circulation, while a third will effectually expel whatever impurities may have been discharged into the enomach, and hence they strike at the root of disease, remove all impure humous from the body open the porce setternally and internally; separate all foreign and obnoxious, particles from the chyle, we that the blood must be thoroughly pure—thus secting a free and healthy action to the heart, lungs, and here are the property of the control of the means have failed.

The entire truth of the above can be ancertained by the trial of a single box; and their virtues are so positive and certain in restoring health, that the proprietion bush himself to return the moiney paid, for them in all cass where they do not give innversal satisfaction.

Retail prices, 25 cents per box.

where they do not give innversal satisfaction.

Retail prices, 23 cents perbox.
