character is truly aluming. The company have could not make a partial reduction without makmade every effort to avoid them by laying down ing a general one. To this the Forest Company rules for the government of the engineers-but, replied that they "did not wish to convess the Fit would appear, that lattle respect is outertained for them by those officers. For example, they are reduction in favor of the Forest Improvement positively prohibited from running at any consid- Company was again applied for. The whole rable speed while passing each other with trains, subject was then submitted to a Committee of and especially when passing the passenger traine. the Managers, who gave a final Report in subyet every one knows that this rule is not observed. We have friquently been alarmed in passing over they had heretofore always pursued an impartial

contse, and an and the transmission of the least accident should feel, as to the advantages that might accrue to at such time hypen them, incolculable would be themselves by adopting the proposition, they felt the in perit, and placed fir beyond reparation by had always held-impartiality-and consequentany m'ans accessible to the Raitroad Company ly begged leave to decline proposing any resoluur their agents.

POTTSVILLE SENATE. - The lecture of Mr. J P Smith, on Tuesday evening, was nu. This, then, furnishes a key to all the hostility merously, attended. ' The festurer' embraced in to the West Branch Railroad. Before these aphis subject a cursory view of nature, animate and plications were resisted, no fault was found with fanimite and comminging the whole into the the Company-everything moved as smoothly great first cause, unfolded correct paetical ideas of as could be desired. That the Forest Improve the beautiful. It is much to be regretted, how- ment Company, and its Agents, should therefore ster, that the lecturer, owing to other engagements, find fault with the West Brauch Railroad Com had not sufficient time to arrange this subject diff pany for failing to obtain from their hands what farontly, and to explore it at greater depth. The they had already obtained from the Reading Rail grand phenomena of Nature-than which what road Company, [a reduction of tolls in their favor, can be more grand in contemplation ?-should while individuals were to pay foll rates] I am bave been considered in the out-et. This done, not at all surprised. It is natural! But that inthe lecturer wou'd nave been left fice

"To explate over all this scene of man, A mithly maze-bit not without a plan; A wild where weeds and flowers promise uous shogt. Or gorden tempting with forbidden fruit."

This step would have broken the seal which Buts out the Bcautiful of Nature from the imagi- countable! Nothing but ignorance of the move Sho the stars in the firmament. The next Lecture will be delivered by R. M.

aticle has seen.

A New ARTICLE OF EXPORT .--- Some bur citizens have commenced shipping ice is also very natural. They are endeavoring to stein this region to Phile lelphia and elsewhere. and we learn that two or thre," contracts for large Bigon ti of the commodity have be "n entered into They failed in the attempt with the West Branch that at lenst 13,000 tons will be shipped the presmy year, and supposing it to be worth \$3 to \$3,59 or two instances, much to the regret of all the response on the routes, and others interested, it Operators on the routes, and others interested. will be readily perceived that the trade has some It would be unfortunate for the individual Opeimpariance. Our streams are situated between them is slacked, and perfectly clear and sparkling. The ice, therefore, cannot be excelled anywhere, and amains an unu-ual thickness. This year its average thicks ess is about 10 inches and we doubt whether this measure has been obtained elsewhere upon narrow fresh-water streams. The mildness of the weather during the last two weeks has been of others. very unfavorable to its growth.

noney in our region, and by which our resources ANOTHER PUZZLE .- One of our subhave been developed, and a lasge population seribers at Boston, Mass. after making some kind planted among our mountains, is quite charactersuggestions which we shall take into consideraistic of Locofocoism-and especially so of the edtion adds : " A friend at my elbow has reckoned art woman had 295 eggs when she starteditors of the Emporium. These kind of appeals juzzie, and makes, as you will see, to the worst feelings in our nature, have done troly a good basket full! I will, in return, more to obstruct the investment of capital in our state and to drive it into others, than any other cause. Thousand of dollars are annually driven class the solution, so that you may be prepared from us and invested in other States, where the for any who may be skeplical upon the subject, for bonesty and intelligence of the people will not permit such foul mouthed, corrupt and dishonest although it may seem easy to you with the anwee before you. I assure you it is somewhat hard having accumulated money through honest indus- of their tribes, &c. to the generality of people : Aship on a voyage from England to America, sprung try and integrity, invest it for the benefit of the
