House of Representatives, Harrisburg, Pa. Sir,—I have just witnessed the most flagrant ad outrageous (to use the mildest form of speech,) exhibition of a monopolizing disposition, and derire to supercede truth and the expression of

desire to supercede truth and the expression of public sentiment, ever beheld in Schuylkill County, and I doubt very much whether a parallel for it can be found, even in the history of political excitements, in this State.

A meeting was called by clitzens of Minersville who understand the objected of the application now before a Committee of our Legislature, for the incorporation of a new Railcoad, to be called the "West Schuylkill Union Railfoad," to express mildly, but firmly and candidly, their opposition to the creation of the proposed Corporation, and to the reasons which, in their judgments, should arrest the passage of that fall.

The meeting was called for 3 o'clock this after noon. A large number assembled at the proper hour. Honeat in their own views, and only so fictious to protect the interests of the Coal Region, they had not calculated upon unfairnesses in their opponents, or supposed that men would resort to the little expedient of choking, or suppress truth by numerical force. The 'event proved them wrong; and while it showed conclusively who the applicants for this new road really are, it also persuaded those who witnessed it, that, to accomplish their ends, they are disposed to atop at no aggravation af injustice, to yield to no weight of evidence; but determinedly to close their minds against truth, with the intripidity of men who fear that an appeal to their understanding is the accompany and their tenants. I am now that the can be depreciation of the Coal Region.

Before the hour appointed for the meeting arrived, the room which had been prepared for our use was filled with men, principally operators (and most of them aliens,) in the employ of the Forest Improvement Company and their tenants. I am now that Mr. Payne stopped his works in order to turn out his force—I do not know personally that this is so, but only give it as I heard it; but I do know that Mr. Payne shimself was present and had not calculated. The proposed that the company and their tenants. I am now that Mr. Payne shimself

ernoon. I am sorry that gentlemen should so forget the obligations and responsibilities rest-gupon them, as to descend to a participation in Ingupon them, as to descend to a participation in a mob gathering to choke down public sentiment. It do deprecate, in every view, this fighting with the file, and the spirit of unfairness and misrepresentation to which they resort. They ought to and do know that they have no wrongs to redress on the Mine Hill Company, and are suffering under no denial of rights; and yet they gravely fulminate charges and statements which may be fairly met by positive denial of their truth.

ing Railroad to Schuylkill Haven, would cost 64 cents per ton.

A ton of Coal can be sent from the mines on Wolf Creek, 9 miles to Schuylkill Haven, over the Mine Hill Railroad, for 27 cents.

—It is asserted that the Company have violated their chartef by charging illegal tolls, and that they are realising a profit upon their business exceeding the 15 per cent provided for in their charter. This, I think I may safely assert, is not true. From the best information I have at hand, I believe that the nett profits have never reached 15 per cent on the capital stock expended. The present aggregate amount of capital represented per cent on the capital stock expended. The present aggregate amount of capital represented by shares is \$600,000; but the costs of the Rail road, faildings, machinery for her propositions.

lection of 15 per cent. in talls before a reduction would be required. The charter, by a fair construction, authorizes the declaration of dividends of 15 per cent upon the next profits of the business of the Company, after deducting from the gross receipts the expenses, costs of repairs, management, and a sufficient sum to indemnify them for the depreciation of the work by wear and It is asserted that the Company's road is inade

der no denial of rights; and yet they gravely folminate charges and statements which may be fairly met by positive denial of their truth.

It is complained that the ratesof toll and charges on the Mine Hill road are guormously high. To show what force there is in this charge, I give the following statement, which I think is substantially correct:

A ton of Coal brought from 9 miles up the Valley Railroad, to Schuylkill Haven, passing over the Mount Carbon and Port Carbon Railroad to Mount Carbon and Port Carbon Railroad to Schuylkill Haven, possing over the Mount Carbon, and 3 miles over the Mealing Railroad to Schuylkill Haven, possing over and weighing.

A ton of Coal at passing over 9 miles of the Mill Creek Railroad, their present rate for toll, most weighing.

A ton of Coal at passing over the Mount Carbon, and 3 miles over the Mealing Railroad to Mount Carbon, and 3 miles over the Mealing Railroad to Schuylkill Haven, would cost 54 cents per ton for reight, motive power and weighing.

A ton of Coal at passing over 9 miles of Railroad at the road of the Mill Proposer, &c. and 2 miles over the Mount Carbon, and 3 miles over the Reading Railroad to Mount Carbon, and 3 miles over the Reading Railroad to Schuylkill Haven, would cost 54 cents per ton for tolls, montive power and weighing.

A ton of Coal passing over 9 miles of Railroad at the road of the Mill Haven, would cost 54 cents per ton for tolls, montive power and weighing of the Mill Haven, would cost 54 cents per ton for tolls, montive power and weighing of the Mill Haven, would cost 54 cents per ton for tolls, montive power and weighing of the Mill Haven, would cost 54 cents per ton for tolls, montive power and weighing of the Mill Haven, would cost 54 cents per ton for tolls, montive power and weighing of the Mill Haven, would cost 54 cents per ton for tolls, montive power and weighing of the Mill Haven, would cost 54 cents per ton for tolls, in the season of the Mill Haven, over the Reading Railroad to Schuylkill Haven, over the Reading Railroad to

Derr Sir:—Some three years since, I made an application to the Directors of the Mine Hill and Schnylkill Haven. Ealfroad, which did not at the time ment with much favor, and so far as the Board was concerned, was treated rather cavalierly. At the same time is acknowledge that your own letter to me was frank and courteous. At that time I approached you as a stranger, and as you perhaps had a right to suppose, a stranger to the Coal trade, and mining interests.

I may now address you with the belief that you will hear what I have to say, as coming from one having hear what I have to say, as coming from one having some practical knowledge of the Coal trade, and that not limited to the particular section in which our lands happen to be. Your totil list will show to what catent it am interested, and bear me out in the expectation that my present application, will receive more attention than the one to which I have referred.

In the first place I remark, that he prosperity of the "Reading Railroad," the "Bechnylkill Canali" and the "Reading Railroad," the "Schnylkill Canali" and the "Reading Railroad," depend now, and will more emphatically hereafter depend,) apon the fact that Anthracite from Schnylkill county, can be delivered in the several consuming markets, at a leas price that from the other producing regions. I say will more depend hereafter, from the fact, with which I am perronality cuminant, that the prejudice against the White, and in favor of the Red, for family use, is fast giving way, and the Red ash will not, as formerly command wood of the Red ash will not, as formerly command wo difference will exist. Add this he fact that the great increase of consumption is not in fastilies, but this, and it is a fastilied. The strange of the Red ash will not as difference will exist. Add the land when ittile or no difference will exist. Add the season much towards meet.

The committee to whom the letters from Mr. De Forest, as agent of the Forest Improvement Company, addressed to this Company were committed, beg leave to report. That they have read with attention the said letters, and feel much satisfaction in giving their testimony to the alent and persevering industry of Mr. De Forest, in causing a large amount of tomage to pass on our road, and the company can bear testimony that in all transactions with him, every thing has been done in the most satisfactory manner.

to depart from the position they, have always held
impartiality: and consequently beg leave to decline
posing any resolutions that may alter that position
at the same time tender their thinks to Mr. De Fore
the great benefits that our road receives from his a
vering industry and talents.
All of which is respectfully submitted.

**Recassal's Willow, Paladelphia: —Gentlemen.—Seven months ago, our child, a boy, then dive months of, was first atlacked with a discasse which made its appearance in the form of a sore on his head, which towers the influence as to prevent the possibility of the little sore and part of the forehead. It warm influenced it different in its nature from the other, at influenced it different in its nature from the other, at in their turns prescribed for he disease they pronouned it to be—all, however with no effect. He was getting worse every day and was triefly an an alarming condition one of our neighbors bought us a famphlet, in whit your "Dr. Cullers's Indian Fegetable Panacea" was highly recommended, that we could do no better this like it a trial. Still we had but little faith, but cost not be not seen to see the little one antier so much, while ye had been to see the little one antier so much, while ye had been to see the little one antier so much, while ye had been to see the little one antier so much, while ye had been to see the little one antier so much, while ye had been to see the little one antier so much, while ye had been to see the little one antier so much, while ye had been to see the little one antier so much, while ye had been to see the little one antier so much,
