INTERESTING LECTURES. The Rt. Rev. Alonzo Potter, Bishop of this these eminent men. Diocese, delivered a Lecture in and for the benefit of the new Episcopal Ghurch of this Boreugh, on Thursday evening last. The weather which, late in the afternoon, became somewhat inclement, prevented many from venturing out, and the atandandance therefore, though quite respectable therefore congratulate the citizens of our County in number, was still not so large as it should have on the result, and hope that whatever unkindness been. Of the Lecture it would be mere superero gation to speak, unless we were to recount the the agitation of the question before the people, sentiments expounded, which we are unfortunate | may now "in the deep cavern of some coal-pit b ly mable to do, not having been able to hear, dis- buried!" tincily, one-half of the interesting discourse, on of the reverberation or echo of the speaker's voice, which was as clear and deep-toned as any that was ever sent forth. HENRY CLAY IN PHILADELPHIA. Mr. Clay is still' in Philadelphia. The en thusiasm of the people whenever and wherever he appears among them, is extraordinary. During the present week he has been kept constantly busy as an acknowledgement of his business services in making calls, and exchanging salutations with old friends. Committees from nearly every town and City in the State, have poured into Philadelphis, inviting him to visit their respective localfries. Among others who thus waited upon him, was a delegation of our citizens, who enjoyed an hour's uninterrupted conversation with the distin-guished man. He assured them of the great desire he entertained to visit the Coal Region, and spoke very inteligently of its resources and character- pay in full, on Monday next, the interest on their istics, adding that the season was unfavorable to inspect satisfactorily the mining operations, &c. and that if it would ever be his fortune again to

visit the North, he would certainly 'call and see us.' He will leave on Monday or Tuesday next, for New York, where he will remain but a day or two. His visit to Philadelphia, we may add, was pursly of a business nature, and the has been de-tained much longer than he expected.

PATRICK MORAN.

This person, who is under sentence of death or murder, last week escaped from the custody of the Sheriff of this County, by breaking through the walls of the prison, and disengaging himself through some acquired means, from his manacles. No intelligence of his whereabouts has yet come to hand, though a reward of two hundred dollars is offered by the Sheriff for his arrest. He is about 5 feet 7 inches in height; stoutly built; broad shoulders; rather short neck; dark hair and whiskers; fresh face and rather healthy appearance and carriage. He is about twenty-two years of age; is a native of Ireland, and speaks the English language very well. He had on when he escaped, a black frock-coat; black satin vest; dark pantaloons; a fur hat, &c. &c.

The following is an extract from the letter referred to above:

above:

"My health is very fast improving. I procured a few days ago, some of Dr. Wright's Indian Vegetable Pills, and they have acted on my system LIKE MAGIC!"

Thus it appears that the brave and patriotic Volunteers who have gone to Mexico to defend the rights and honor or their country, already begin to realize tile exr country, already begin to realize the ex-

OPINIONS OF THE PRESS!

[From the Delaware Express, Delhit.N. Y.]

WRIGHT'S INDIAN YEGETABLE WHILLS.—Although not particularly friendly to patent medicines, we must confess that we have become a convert to these pills, having had an opportunity on some two or three o. casions to test their efficary. For a gentle medicine, one or two will be found mild though effective. Where bile ar other impurities have accumulated, and more thorough medicine is required, a dose of three or four bethere pills taken on golng to bed, will be found effectival finderaning the stomach and restoring the howels to a healthy state. We speak from experience; and take pleasure in commending the pills to the public.

aught to be a matter of serious consideration to the General Government.

We cannot shut our eyes to the fact that a great revulsion has come upon those interests within a very short period, and it is equally obvious that this event is directly, attributable to a revulsion of the same kind upon the same branches of industry in England.

It becomes us, therefore, whose interests are deeply involved, so enquire why the Industrial branches of this country should necessarily depend so intimately upon those of foreign countries, that, when theirs are prostrated and ruin hovers over them, our sare involved in a similar unfort mine crisis,—that for every polation of the foreign marketours should respond—that no foreight or prudence mover part based upon the domestic demand or domestic supply, can protect us against the impre-

scarcity, American enterprize, deceived by the phantom of prosperity, is enlisted in its manufacture, and for a white capital and labor become profitably employed. At another time, making it so low that American capital is endangered or lost, and American labor becomes unemployed by the stoppage of "thimates, mills; and collieries."

It is the duty therefore of all interested in the production of from and coal in this State, seriously to enquire whisher a policy so fatal to departments of our industry, exernial to national prosperty and independance, will be persevered in under circumstances so different these victims and the production of the state of the serious transfer.

mestic industry.

In view of the foregoing facts, the undersigned woul respectfully recommend to their fellow manufacturer and mners the propriety of holding a Trades' Convention at the city of Harrisburg, on the 22d day of Marchael, for the purpose of devising some plan in order to examplish by error boson head against medical for the purpose of devising some plan in order to examplish by error black address. accomplish by every honorable endeavor, a remedy for the evils complained of, and of making known, both to the General and State Government, the injurious ef-fects of the present Rev.nuc Laws on the great staple interests of Pennsylvania...

We therefore hereby publicly notify all interested and concerned in the production of from and Coal that a Con-vention will be holden on the 22d day of March next, at Harrisburg, for the purpose of taking into consideration

TO THE LADIES.

Ladies of pale complexion and consumptive, habits, and such as are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two to bloom and vigor. It is by far the best tem-dy ever discovered for weakly children, and such as have bad buthors; being pleasant, they take it. It immediately counters to the illumn frame. Persons all weakness and lassitude before taking it, at once become robust and full of energy under its influence. It immediately counteracts the netwelssences of the female frame.

CAUTION.-ple careful and see that you get the gennine Dr. Drake's Panacea—it has the signature of Geo. F. Storrs on the wrapper, and elso the naine "Dr. Drake's Panacea, Phila." blown in the glass.
