knowing are, couls will be more failed. They have in o such object in view, excepting as merely incidental.— The great design is to clucate, enlarge, and disciplicits have been present, cipine the mind. To accompliab this, it will not bounder that was to have been present, cipine the minds. To accompliab this, it will not bounder that was to have been present, of a certain bounder that was to have been present, of a certain bounder that was to have been present, of a certain bounder that was to have been present, or possible to balk to make the population), for removal. The like a intradice and trading the tipice is generaling to the theorem that. The scholar is of doing will not balk to make theorem that. The scholar is of doing will not balk to make theorem that was to have been present, the parts preparatory were heglected. This bound that the district through all is degrees upwards to the too, if the full douted near of cech study is to be made as soilable. Step by step, do we advance in our that we cannot the parts in port kept in rooms of conservatories. The full douted the constructions of cech study is to be made the ports of the construction of t

sing and retarding, if hot in-arresting the progress of the scholar altogether. Slight deviations, it is true, may be made from the order of every system of education, but it cannot be departed from in its essential character without destroying i's efficiency,

of education, but it cannot be departed from in its essential character without destroying is efficiency. In gausing serious detriment to those pursuing it. In its recommended, therefore, that these who are placed in the Pottsville Academy for education, should be made to be regular so far as they go, by their parents and guardians. More will be gained finally in doing so, than in any other way. Another thing to be mentioned, which parents often overlook or permit, is, that boys are not serie. often overlook or permit, is, that boys are not sent terre, on satin ; Alencon, on velvet ; and for neg-

through all is degrees upwards to the top, if the full ducational power of each study is to be made available. Step by step, do we advance in our ducation. In the same sense; that we cannot become men instantly from boyhood, are we un-able to become such from nethelectual, informate, without passing through all the graduations of regularly unfolding process. Each staisment always is the platform for the next higher ource. This is the unalterable and universal law of men-ral decolognment. This is the cunalterable and universal law of more to take up the course in regular of the planet shuld be syringed over head of this betrue, (and no one, l imagine will dis-pute it.) then boys orienting a school should be mode to take up the course in regular of the planet shuld be syringed write a week branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in its place, because it is necessary for the propur understanding of every succeeding one — branch in the branch. The provided the weather he not frosty.
