THE PROTECTIVE POLICY OF THE COUNTRY
The People Demand its Restoration! General-ZACHARY TAYLOR. Of Louisiana For Vice Presiden Hon. MILLARD FILLMORE,

Let We call Attention to the advertisement in another column, for the sale of buildings lots in Tremont and Donaldson.

For Canal Commissions

NER MIDLESWARTH,

Of Union County.

We invite attention to the advertisement offering for sale two superior church organs. They are worthy of attention.

Fair in Tamaqua. - By reference to a notice in another column, it will be seen that the ladies of the former was quite as good as those of the Gannan was insured to the amount of \$400. of the flourishing Borough of Temaqua will hold is ter-that the Reading Railroad was earning as There was a strong wind sweeping during the sale of sundry useful and fancy articles, for the England. Mr. D. also expressed a hope that, an element over the roofs of the adjacent houses, and

Trinity Church Organ.-The new organ is now in the course of erection in Trinity Church, Pottsville, and will be ready by the 4th of July, when it is proposed to give a concert by the choir of the church, assisted by Mr. Standbridge, the builder of the organ, who will preside as organist on the occasion. This organ is one of the large class, and we learn will be equal, if not superior in tone, to the one recently erected in St. Andrew's Church, Philadelphia.

OUR COUNTY. take this opportunity of stating that the greatest understanding was general, or shared by any body satisfaction exists among the people of this county. but himself and the people of his district. with the nomination of Taylor and Fillmore. We attended the County Convention on Monday last, and the feeling among the Whigs was very gratifying-all the differences which had previously ner, the value of the annual cotton crop of Amerforgotten. Taylor were unanimously passed. THE SIXTEEN MILLION LOAN.

The taking of the new government loan of sixteen millions is claiming the attention of capitalists. ing, and faults these unquestionably are. Mrs. The New York Enquirer has no belief that it is to be bid for on foreign account, for at the latest dates from London, United States rixes were quoted at 96 dividend off-and such demand as existed was rather for State stocks, which being purchasable at lower rates, afford better interest than United States stocks. Yet, on the other hand, it may be assumed that the American bids will all be made more or less in reliance upon finding ultimately an advantageous sale of part of the stock tributes many rare poetic pieces to our newspaper in Europe. The stock to be bid for in to be a six per cent. stock, interest psyable semi-annually. and having 20 years to run from July next. One per cent. on the amount of each bid is to be deposited with the Treasurer or some Assistant Treasurer, before the bids are opened, and the money will be called for in five equal successive monthly instalments, beginning with July. No bid under par will be considered. The deposit of one per cent. on \$16,000,000 would be \$160,000. If the bids should exceed the sum required, the deposits would in like proportion overrun the \$160,000. The deposits on all unaccepted bids are, however, to be forthwith returned; but the Taylor without measure or sense, winds up with whole premium, if any offered by the accepted the charge that the is fully committed to the docbids, is to be paid with the first instalment in July. trine that the institution of slavery shall be ex-

Should the weather prove untworable, the screed of P. S. Should the weather prove untworable, the screed of P. S. Should the weather prove untworable, the screed of P. S. Should the weather prove untworable, the screed of P. S. Should the weather prove untworable of P. S Miners' Bank of Pottsville, Isaac Lea and Abrahm Hart, Esqs. of Philadelphia, and known as the York Farm property, have of late been the theatre of the most extensive and splendid improvements for conducting coal-mining operations, on a large and systematic scale, that have ever been erected in our region. The proprietor of the colliery-works is Goo. H. Potts, Esq. who, for about leighteen years past, has pursued, with thus practically identified with the anthracit

trade from its early commencement. The old workings having been adapted for forwarding the products of coal over the Market Borough authorities, is soon to be torn up, Mr. Potts, about five mouths ago, commenced the imnents we are now considering-being sitnated westwardly from the former works about a quarter of a mile.

Tho new slope is 1,000 feet deep, which is the deepest in the region, and is supported by heavy timbers, smoothed and perfectly joined in framework. There are two railway tracks, and heavy iron T-rails, which were manufactured at Danville. The road has been thus substantially built on account of the large quantity of coal that will be brought up daily-two cars will be it first to the payment of interest, and then to town to ashes. Eight of the houses were owned dividends on preferred and unpreferred stock.

The meeting was addressed by Mr. Derby of Boston, who, in the course of his remarks, drew

Boston, who, in the course of his remarks, drew

The meeting the bost of the bouses were owned by Mrs. Gannan. They were old dilapidated to the Reals by Mrs. Gannan. They were old dilapidated frame attrictures, and we understand that it was family well pron themselves and one another. sage up the plane, unhitching at the top, &c. &c. The engine for hoisting the cars is 40 horse-power -that for pumping up the water out of the mine, 90 horse-power, and that at the Breaker, will be 20 horse-power, all erected by Messrs. Haywood & Suyder of this Borough, the reputation whose bouse is a sufficient guarantee as to their from all quarters of the globe.

One word of Cauton—Since the introduction of my capacity, completeness and solidity. They are, indeed, admirable specimens of mechanical skill,

in full—but our present purpose is merely to nature is on each to present the outlines of the principal features which characterize the entire improvement. The building for the engines and hoisting drum, is a large, substantial and airy structure, built of heavy stone, and covered with slate. The exact

wide-the frame-work of which is of the most respondingly neat. It is the largest, we are told, Lein & Co., Summit Hill. in our region. The hoisting chain, which was tons. which a pump is set in motion for supplying water to the boilers from a cistern near them the pump operating with the revolutions of the tially built of stone. There are eight boilers .--

drum. The building for the engine-boilers is health and vigor to the whole frame, which in turn, will The stack is built of stone, 60 feet high, and is a beautiful specimen of work, which, together with he other Mason-work for the sheds, was done by is not an agent for Wright's Indian Vegetable Pills, and Mr. Madara, a young mason of this Borough.-These works are situated about 400 yards from where the breaker will be erected. A tunnel has been constructed through a por-

tion of this distance, and a substantial railroad laid down, which, affording a sufficient inclinaa hill, the loaded cars may run to the head of the w, and will correspond in character with the other buildings and improvements. The breakers, cylinders, screens, &c. all new, large and Physicians in different parts of the Union. receiving large deposites of coal. From beneath | bed Dr. Townsend's Sarsaparilla, and we believe it to the breaker, a railroad is now being constructed, be one of the most valuable preparations of the Sarsa-700 yards in length, to intersect the Mount Carbon Railroad near the Norwegian creek,-from whence the coal may be said to be on its final lestination to market, having about two miles to reach the Navigation and Reading Railroad at

Monut Carbon. The numps used to hoist the water out of the nine, are 16 inches in diameter, and the working harrels are of the same size. The stroke of the pump is 74 feet, and one hogshead of water will thrown out at every stroke, which will be nivelent to about ten hogsheads per minute. They are force-pumps, and are considered greatly superior to the old lifting-pumps, heretofore rally used. The water pipes have also hee manufactured by Haywood & Snyder, and they are in keeping with the general character of th machinery and fixtures-all of which, as before stated, are not exceeded in point of capacity, solidity, and general beauty of finish. Altogether, ed in the construction of the machinery and fix-

The slope, as we before stated, is sunk on the all, and an aggregate thickness of coal equal to 294 feet. As the extent on the line of the veins embraced by this colliery is one and three-quar tor miles, there will be no less than fourteen gang-

ways running nearly one mile in extent with breastings of about 1000 feet high." When we regard the stupendous and permanout character of these improvements; the extent of coal, for a long series of years, without any further expenditure,—the cost of the erection of this colliery, which will be rising fifty thousand dollars, will appear an insignificant amount.

Veins, [which are confined to the Schuylkill Coal landings, are worked out above the water-level, STRAY COW. - Strayed away from the subser landings, are worked out above the water-level, and hereafter on every ton of increase in the supply of Red Ash Coal, there will be required to be expended at least one dollar per tonon improve-ments. When this important feature becomes understood, some idea will be formed of the value

| A - Strayed away from the source, and a supply of the proving strayed and proving the supply of the proving at Belinding at Belinding at Belinding the supply of the weeks ago, a RED COW with shuth County, about the water and the weeks ago, a RED COW with shuth County, about the water and the weeks ago, a RED COW with shuth County, about the water and the weeks ago, a RED COW with shuth County, about the water and the water understood; some idea will be formed of the value of the Ash collieries in this region; and may probably raise the question whether, under such township, about two weeks ago, a Red Cow, with one circumstances, the supply of Red Ash Coal, will keep pace with the demand.
