Love is fickle, sages 23y—
Beauty cannot hold him;
Love will steal himself away,
Maidens, if you scold him.
Love he will not live with strife,
Even turns from beauty,
If the lady plagues his lifeWith her household duty. You have him in your power, Ladies, if you try it: Use him as you won him first, Love, he can't deny it. Do not fret, and scoid, and pout, Aggraving trouble;

How to Travel free of Expense.—
An officer of the Vermont constabulary force arrived in Hudson last week, having in custody, as he supposed, Moshier, the anti-renter, who stands charged with shooting the Sheriff, and for whose atrest and delivery at the Columbia county jail, large reward has been offered. The prisoner accompanied the officer on the way willingly, and was in remarkably good humor during the entire journey; but when he arrived in Hudson, where Moshier is well known, the good-natured genius proved to be neither that individual, nor a whit like him in appearance. The Vermont constable was, of course, taken all aback, as he had confidently imagined the one thousand dollars as good as in his hand. His fellow traveller, being decidedly a wag, run him very hard on his leetle mistake, and gave him a few lessons, with due mock gravity, upon the course to be pursued with reference to the weasel, when that animal is caught in a state of profound somnolence. After the officer had put his horses beads towards the Green Mountains, and was fairly homeward bound, the quasi Moshier was asked how he came How to Travel free of Expense.the omicer nau put his nurses posses to be and the omicer nau put his nurses posses to be of the omicer was asked how he came the own of the year.

He replied that he was away down east, and "dead broke," and that he wanted to get to Hudson, and in order to accomplish this, under the peculiarly perplexing state of his finances, he gave a fellow his jacket to start a report that he was the absquatulated anti-renter. In less than an hour, he says he "was arrested, placed in a devillash nice coach, and drove to Hudson with a speed that he never before accomplished after. New York, July 10, 1817.

This, (says the Albany Knickerbocker, after alluding to the facts,) is one of the most finished "do's" we have ever met with.

DR. McCLELLEN.-A thousand anecdotes are related of the late eminent scholar, sur-geon and philanthropist, Dr. Geo. McClellen.— The memory of his great talents and goodness lingers like a charm upon the public mind, and hardly a day passes that we do not hear some welcome mention of his virtues, coupled with sincere regret that he was not longer the world. On one occasion he was called upon to perform

a critical and painful operation upon the mother of his friend, the late Dr. R. He came a day before the appointed time.
"Well George," said the old lady, "will you come to morrow!"

"Only five minutes, George—only five."
"No, no—not one;—come, be seeled," and in a few minutes he accomplished the operation most successfully. "There," said he, "if I had permit ad you to do as you wished, you would have been praying all this time."

At one of the fashionable watering places recently appened a self-important foreigner, who, upon bearing the dinner bell ring at half-past three o'clock, exclaimed:

standing—an acromptished and well educated man, and
war recently HIGH SHERIFT of this District. By one
of your advertments in a Charleslown paper, I happened to notice the location of your office, and thought
you might extract an article of some value in regard to
your medicine, therefore I sent the paper.

The following is an extract from the letter referred to

A party of young men were dining at a public house, and among sundry dishes served up for the occasion, was a chicken roasted. One of the gentlemen present, made an ineffectual attempt to carve it, when he stopped suddenly, and called for the landlord who was in another part of the room.

"Landlord," said he, "you might have made a great deal more money with this chicken before ma, than serving it up in this way."

"How so!" asked the landlord, staring.

"Wby, in taking it around the county to exhibit it."

"Exhibit a chicken? Who would give anything to sees a chicken?" said mine host, getting a little riled.

"Why every body would have paid to have seen this one, for you might have informed them. I have no doubt with truth, that this is the same rooster that crowed when Peter denied his mas-

faction; and no longer ago than yesterday, we heard an eminent physician of this city recommend them in high terms a proceed that truth, that this is the same rooter that crowed when Poter denied his master!"

Occupying Territory.—Edward Flatwell was yesterday sent to the workhouse by the Recorder, for retaining forcible possession of a shanty in Girod street:

"Well, I'm blamed," said Ned, as he was taken out by the police officer. "Well, I'm blamed if it ain's contrary to the constitution; it must be it's worse than martial law. There's Gen. String Centre, Cayuga Co., N. Y., December 29, 1847.

A TRAVELLER'S SANG FROID.—What a pleasant thing it is to see a man make the least of an unavoidable discomfort, instead of boring himself to death about a thing that can't be helped. A friend tells us of a good natured was, travelling by 'stage' between two distant towns in Maine, when the vehicle was suddenly arrested by impassable snow-banks, far from any other dwelling than a small log tavern, to which the half frozen travellars with great difficulty waded. All but our wag were grumbling at their fate; he, however, hailed the landlord, got himself a toddy, and then asked:

String Centre, Cayuga Co., N. Y.,
Dr. W. Wriout :—Dear Str:—About six months ago became nuch debilitated by over evertion and a lastressing Cough, which soon brought on Inflammation of the Lungs and Intermitting Fever, with Pain in the Cold Night Sweats, which reduced me very low. After being confined to my bed for several days, I got a box of your Indian Vegetance Prices and from the use of your Pilks, and from the use of your Pilks, and from the uses of the Lungs and from the use of the Lungs and induced to believe that Wright's New Parks and from the use of the Lungs and from the use of your Pilks, and from the use of the Lungs and from the use of the Lungs and induced to believe that Wright's New Parks and from the universal good name which they have among my friends, who have used them for New Parks and from the use of the Lungs and from the use of Sour Pilks. I am induced to believe that Wright's Marks Yours Iruly, Dariel C. Sandpord.

A friend tells us a great count six months ago became much debilitated by over evertion and a store that one in the use of the suppart of the Industry of the Industry.

Are sometimes made by confounding one medicine with another, and administering the wrong article. Equally horribe are those mistakes which are made in supposing that all Pills are alike, and that therefore, it is indifferent which are taken, and if one kind is bad all are bad together. This is a very great mistake. There is as much difference between Whight's India Vocatable Pills and other articles, as between midnight and nonday! We do, not wish any to take our word merely for this statement. Let any one, having taken other medicines, try this. Nothing more will be necessary. Many persons have been led away by a coarming or Sudar, as if they anticipated that it would remove the nausea of the medicine. But they are generally mistaken. Without sudar those articles have nothing to recommend them, and would not be cold a single day. But with the sugar, and by giving the article a name similar to Weight? I stolay Vegarate. Pills they gain a temporary notoricty. Wolces they are, in sheep's clothing, of whom the public should steer sufficiently do do. "Dear me, how fluidly he does talk!" said Mrs. Partington recently, at a temperance lecture. "I am always rejoiced when he mounts the noatril, for his eloquence warms me in every nerve and cartridge of my body—verdingrase itself could not be more smooth tham his blessed tongue is;" and she wiped her spectacles with her conton bandanna, and never took her eyes from the speaker during the whole hour he clothing, of whom the public should steer aufficiently was on the stand!

Willow this statement. Let us me will be necessary. Nothing more will be necessary. Many persons have been led away by a coatting or Sudan, as if they anticipated that it would remove the nauses of the medicine generally mission have been led away by a coatting or Sudan, as if they anticipated that it would remove the nauses of the medicine, the time with the sugar, and the start of the similar to Wistont's Island Year-And Plus are prepared with special reference to the acceptance in the stand!

The increased demand for Da. McLaNES LIVER PILL, since their introduction by us as his agents, has far exceeded our most synguine expectations. It is now about TEN YEARS since they were brought before the public. During this time hundreds of certificates have been handed us, testifying to their efficacy, and stating the very great relief they had derived from the use of them. We have how in our possession many certificates from bispectable persons, who have used Ds.
