Facts for the People.

The constantly increasing popularity and sale of B. A. Fahnestock's Vermituge has induced persons who are envious of its success, to palm off upon the public preparations which all medical men know to be ineffections in expelling mores from the system.

Tails Vermituge made its way nino public favor upon the ground of its own intrinsic merits, more than any other medicine of the kind now used; and, while many worm remedies have, by dint of puffing, been forced into sale, and shortly after gone into the obscurity which their worthlessness justly merited, B. A. Fahnestock's Vermituge continues to be triumphantly sustained. It has only to be used and its effects will fully sustain all that it is aid of its wonderful expelling power.

Wells, Eric Co., New York, Jan. 7, 1843.
We certify that we have used B. A. Fahnestock's Vermituge in our families, and in every case it has provided a decided and effectual remedy for expelling worms from the system. We cordially recommend it to parents who have children afflicted with that dangerous malady.

This is no cravity. They have restored a number of individuous who were in a declining state of health, and in a number or casts have CURED THE PILES—some cases of long standing. HORRIBLE MISTAKES!!
Are sometimes made by confounding one medicine with another, and administering the twong article. Equally horrib eure those mistakes which are made in supposing that all Pills are alike, and that therefore, it is indifferent which are taken, and if one kind is bad all are bad together. This is a very great mistake. There is as much difference between Wriohy's India W. Noetza-Bill Pills and other articles, as between midnight and noonday! We do not wish any to take our word merely for this statement. Let any one, having taken other medicines, try this. Nothing more will be necessary.
Many persons have been led away by a coating of Sudar, as if they anticipated that it would remove the nausea of the medicine. But they are generally mistaken. Without areas those articles have nothing to recommend them, and would not be sold a single day. But with the rugar, and by giving the article a name similar to Wrighty's India Negariate Pills they gain a temporary notoriety. Welers they are insheep's clothing, of whom the public should steer aufficiently Let it be remembered that Wrighty India Negaria Let it be remembered that Wrighty India Negaria Let it be remembered that Wrighty India Negaria. clear.
