CLAYTON'S SPEECH.-We shall next week lay before our readers the masterly speech of John Clayton, of Delaware, recently delivered in the Unit States Senate, -- in which the character of Gen. Taylor and the present aspect of the Country, are reviewed. Persons desirous to secure copies, should make application by Tuesday afternoon next.

## CAMDEN AND AMBOY RAILROAD. POWER OF THE PRESS.

Most of our readers have been aware that, while compelled by the Camden and Amboy Railroad to enact laws. Go and elect your Congress and instruc-Company to pay the enormous fare of four dollars, or four cents and a half a mile, for travelling from Philadelphia to New York, that Company carried and when I shall have done that, the duties of the Exin the same train, way passengers at little more conductors are instructed to continue to demand full price, and to get it if possible, they are also in structed to take any price, if full price cannot be efrected to take any price, if full price cannot be their representatives in Congress, ought to be respected to the congress, ought to be respected and carried out by the Executive. having been advised of the change, he had himself tested the matter, and had proved the correctnes of his information; and further, he returns thanks ease, it seems to have become optional with passengers to pay three times and pay only \$2.75, or claim upon the government for a little decent clothpay once and pay \$4, and we would therefore recommend to our Coal-dealing friends, whose business calls them so frequently to New York, to pursus the former course. The change having been thus made public, it cannot be doubted that all travellers will prefer the cheap new ticket sys: tem to the dear through ticket one, and that thus the regular charge will speedily be settled down to that which is as yet the irregular one.

We regard this improvement in the Company's system, as a remarkable evidence of the power of the press 'It is due to a very few months of agitation of the question ; and it cannot be doubted that with a little more agitation, this powerful Company, and the State of New Jersey itself, will be brought to terms, and the monopoly will be abolished, after which the rate of fare cannot poscibly exceed \$2,50. A GREAT FEAT.

Mr. M. Brown, engineer, with a 15 ton, No. 2 engine built by Balwin, of Philadelphia, hauled from Wolf Crock to Schuylkill Haven, on Thursday, the 13th instant, one hundered cars, contain ing about 442 tons of Coal; and on the Saturday following, one hundred and five cars, containing, (we presume) more coal than the previous train-This is the largest train ever hauled over the above road, and the feat is alike a triumph of the machinery, and the well-known skill of the engineer.

DEATH OF GOV. SHUNK.

Francis R. Shunk is no more. He expired or Thursday night last, aged about '58 years. Ho was born in the County of Montgomery, and will be there buried.

Gov. Shunk, in early life, was a school-master, and it was by his own industry and perseverance that he rose to the several high civil stations which he has occupied under our State government, for thirty five years past. He was personally an estimable man, and his death, though long expected, will be universally regretted by the people of this State-for, however earnestly his political princi- his brow."
