POTTSVILLE.

EATURDAY MORNING, JULY 29, 1848. PLATFORM ERECTED BY THE PEOPLE. For President, CENERAL ZACHARY TAYLOR.

For Vice President, MILLARD FILLMORE. Gen. Taylor, in his letter to Capt. Allison, of Virginia ader date of "Baton Rogue, April 22nd, 1848," in an

under date of "Baton Regue, April 22nd, 1849," in answer to several queries—replies

First—I relierate what I have often said—I am, a Whis. If elected I would not be a mere Frealdeat of a party. I would endeavor to act independent of party domination. I should feel bound to administer the Gayeroment untrammelled by partyschemes.

Second—The veto power. The power given by the constitution to the Executive to laterpose his veto, is a high conservative power; but in my opinion should never be exercised except in cases of clear visitation of the constitution, or manifest haste and swant of consideration by Congress. Indeed, I have though that, for many years past, the known opinions and wishes of the Executive bave exercised undue and injurious influence upon the legislative department of the Government; and for this cause. I have thought our system was in danger of undergoing a great change from its true theough. The personal opinions of the individual who may suppen to occup the Executive chair, ought not to control the action of Congress upon questions of domestic policy; nor oeght his objections to be interposed where questions of constitutional power have been settled by the various departments of Government and acquiesced is by the people, ...

Third—Upon the subject of the turiff, the currency, the improvement of our great highways, rivers, lakes and harbors, the will effice people, ac expressed through thair representatives in Congress in 1812, and was and acquiesced.

Millard Fillmore was in Congress in 1842, and was one of the able advocates of the Tariff passed in 1812-and also voted for the distribution of the Land Fund LOCOFOCO PLATFORM ERECTED BY THE "SPOULS PARTY."

For President, GENERAL LEWIS CASS. GENERAL Wm. O. BUTLER.

The Creed of the Party. Resolution passed by the Baltimore Convent which nominated the above candidates:

Resolved, That the fruits of the great poli

establishment of the constitutional Treasury; in the meble impulse giren to the cause of FREE TRADE, by the repeal of the Tariff of 1842, and the creation of the more equal, honess and productive Tariff of 1846; and that, in our opinion, it would be a fatal error to weaken the bands of political organization by which these great reforms have been achieved, &c.

Gen. Casa in accepting the nomination of the Convanion, declares that he has read the resolutions of the Convention—approves of them—and will make them the guide of his Administration, if elected. That is harmonic teto any bill that passes Congress, that may not be in

necordance with their principles.

The Locofoco County meeting, held at Orwigsburg on Monday, June 5th, 1888, (in which Judges Palmer and Frailey, and E. O. Jackson, the editors of the Loedfoco papers of this county, took part, and endorsed the proceedings,) passed the following resolutions? Resolved, That in the resolutions of the National Convention, we recognize but a continuation of those principles which were the foundation of that imprinciples which were the foundation of that imprishable structure, that has rendered immortal the name of Thomas Jefferson, and his Administration, and which, since his time has been upheld by all our Democratic Presidents.

ped. That we cheerfully endorse the resolutions Fellow-citizens, which Platform is the most demothe will of the people expressed through their represen-tatives? The kings and queens of England enjoy the veto power, but they have not exercised it for the last two hundred years,—believing that its exercise in Eng-land would unquestionably create a revolution and aring the head of the sovereign to the block.

were decorated with wreaths, flowers, and flags -and upon each one was inscribed in bold letters the name of some battle in Mexico. The ecene presented was magnificent, and of course no one but a stupid fellow would suppose that any others than the ladies of the house, and those of Mount Carbon, could devise schemes so grand and execute them so tastefully!

Every avenue of this splended Hotel was filled. The Ladies occupied principally the spacious balconies, and though the other decorations were complete, still this feature was irresistible.

A handsome wreath was also suspended from the house of Mr. Kleinert, to the opposite side of the street, and there were several other decorations, of "individual enterprize," which we are reluctantly compelled to forego;-the all-absorbing themes now being cheese, wine, and crack ers, and "are they coming?"

Colonel Wiencor—To be selected on the part of your fellow-citizens of the Military of this county, to bid a welcome to yourself and your brave comrades in arms, on this, your happy return to your families and homea is an honor of which any man might be justly proud. To me the task appears peculiarly honorable and delightful if were personally a stranger to each and all of you, a should still feet that the glory you have acquired in your recent campaign. But I am not a stranger; on the contrary, among you are some of my penerst and dearest friends—the earliest companions of my boylood—the sharers of my confidence in manhoul. Nor am I slome in this respect. Here are your fathers, brood—the sharers of my confidence in manhoul. Nor am I slome in this respect. Here are your fathers, broothers, wives and sweethearts who, with these swarming thousands of your warm friends, eagerly wait an opportunity to grap you by the hand and bid you welcome home! It is this fact that adds increased interest to this joyous occasion. It is these feelings which, mingling with the patriotic emotions of every American breast, causes each heart to beat high with amotion, and renders this the most delightful occasion which the people of this region have ever celebrated. The policy of our country is essentially peaceful. No immense standing army exists to endanger liberty, harass our people and eat out their substance; nor do we seek war with any Nation—but when the alternative is presented of war upon the one hand or National dishonor upon the other, it is then the in the many thousands of volunteers in defence of the flag and honor of the country, is shown the energy of their own will, and looking solely to the people for support.

The territory of a sister state invaded, and the blood of our citizens shed upon American soil called about for retaliation. Your country called upon her sons to railly in defence of her honor, and moved by the sincerest and most patriotic impulses, you answered to the call. We cannot arree to regard the question of the justice or injustice of this war, in its origin and commencement, as longer sin open one. Justice to yourselves and your own character requires that the truth of history shall be vindicated, and the necessity and propriety of the war sustained. It was a righteous and necessary conflict, brought about solely by the aggressions of a faithless and perificious fee.

We understood your character, your dauntless spirify your truly American heart—and we felt satisfied that the result of your promotion would redound to you confidence misplaced. We followed you to Mexicoto the glorious siege of Vera Cruz, and the reduction of the world renowned castle San Juan de Ulloa—to the tonfidence of your promotion would redound to you mind and heart, and in every situation, and under at circumstances—on the battle field and at the coincidence, requiring the exercise of every faculty of mind and heart, and in every situation, and under at circumstances—on the battle field and at the coincidence of your beautiful to you the highest praise. THIS WORK, which has been going through the press for several weeks past, will be ready on Wedesday next, and delivered to subscribers on the following days. nesday next, and delivered to subscribers on the fol-lowing days.

The contents embrace a general Geological treatise on the formation of Coal-including brief abstracts of the theories of Dr. Butkland, Prof. Lyell, and saveral other geologists of eminence. The next paper treats of the geologist structure of the Anthracite Coal Beds of Pennsylvania—the greater portion of the matter being furnished by Wim. F. Roberts, Eag., the well-known practical geologist and mining engineer. The next pa-per details somewhat ninutely the history of the intro-duction of anthracite coals, with occasional glances at the bituminous formation of Pennsylvania. [Correspondence of the Miners' Journal.] TAMAQUA. Mr. Editor : July 21, 1849.

"Sound the trumpet, beat the drum,
The soldiers: they come, they come." Indeed every other topic seems to be absorbed or the present in that of our gallant volunteers' return. Pennsylvania has done nobly in contributing to the army some of her choicest and bravest sons, and now, to testify her appreciation of their merits, prepares to give them a welcome worthy of those who went to defend the rights and liberties of our country. Yesterday the Stockton Artillerists passed through our town an route to . Mauch Chunk. Having received notice on the preceding day, the Burgess and a committee of reception proceeded to Port Clinton, whence the Company was escorted to Tamegua. About half past one o'clock they errived, amid the firing of cannon, the sound of music, and the desfening shouts of thousands of happy freemen welcoming. home their friends and associates. The soldier's return ! there is something pleasing in the assocheers the heart and awakens the liveliest emotions. Leaving their homes and their friends they sought the field of battle, and smid its din and carnage made bare their attength in the defence of their country's rights. Led on by Columbia's bravest Generals, and animated by the spirit of freemen, they marched proudly and gallantly under the folds of the stars and stripes, until they saw it planted on the enemy's citadel, and waving triumphantly o'er the enemy's country. As I looked upon this little branch of our gallant army, and reflected that they had been preserved from falling victime, either to the hand of the enemy or the rayages of the climate; as I mated poor their happy countenances and manly bearing, I could not recreas thoughts of gratitude for the latter. Well might we welcome them with loud shouts of rejoicing, and units in paying them the tribute of a nation's respect and gratitude. But there were also mournful reflections awakened by the return of, this little band. For whilst the hearts of many were made to lesp with joy on meeting with their sons and trothers and friends, there were others, also, to whom the occasion proved painful in the extreme. Their thoughts oved back to the time when, perhaps, their son or heir brother left them with a cheerful heart and light step to join the same company, but who, alas, made their last resting place on the dread and gory field of battle. They see their neighbors etura, but their own lie far off in a foreign land, never more to return. The scene is too much for them to bear: with a sad heart and gloomy stop ticy turn away to weep again the loss of their dear friends who sought the enemy's country only

o make it their grave. Yours, &c. T. Dead Letter Office.-Not less than 1,800,-000 dead letters, it is said, were received at the General Post Office during the year 1847. CAROLINA FLOORS MARKETS. In addressing distinguished, men, a considerate correspondent will be careful to pro pay his letters.

To Hon. Millard Fillinger, the nomines of the Philade phia convention for the Vice Presidency, has written a letter accepting the nomination. its publication has been withheld for some time. in anticipation of a letter from Gen. Taylor; -- but as the latter had not received the official notice in time, it was deemed expedient to publish Mr. Fillmore's letter without further delay. Queen Victoria, as we learn by the last arland on the 10th inst. Dublin was to be first visited. The object of the visit is doubtless to ex-cite and foster loyalty among her Irish subjec s. John Ross.-This distinguished Chief of the Cherokee Nation, is at present at Brandy wine Springs. Delaware. It may not be generally

n that the lady of Mr. Ross is a Quakeress, and a native of Wilmington. 600,000 men will take part in the Presidential election of 1848, who in 1844 were between the years of 17 and 21. Of this number we calculate that two-thirds will vote for old Rough and Ready. The New York Tribune says that a newsnublished at Say Harbor, Long Island, has the old banner of Clay and Frelinghuysen still floating at the mast-head. Sag Harbor is celebrated for its clams.

The New York Tribune is putting forth a series of sketches entilled "New York in Slices."
We have read some of these Slices, and consider them a decided "hit." We have a suspicion as to the author, but we presume "mum's" the word. Greek Slave .- Two statues of the Greek Slave, by Powers, are now exhibiting; one at ceived about two months since. It belongs to

the arts'. Fanny Wright .- Medaine Darusmont, better known as Fenny Wright, arrived in Cin-cinnati on the 14th inst. It is said that she has recently returned from Scotland, where she has ome in possession of a large property. Falls and broke two of his legs, experiencing no other injury. We do not understand why a hog should escape any better than a man. Mr. Clay, it is generally understood, will cordially support Gen. Taylor for the Presidency. All his relations and friends at Lexington, are very enthusiastic in behalf of the old soldier.

A new and ingeniously contrived looking. glars has been invented in England, which ena-Gen. Scott is said to have the command of the North-eastern Division of the Army, under the new arrangement. We presume his head-quar-

ters will be at Elizabethtown, N. J. It is understood that Gon. Taylor has at last received official information of his no by the Whig Convention. William C. Hull, the old stage proprietor

and mall contractor of Lancaster, expired a few Russia is shutting herself up. No repubo cross the frontier. Gov. Johnston arrived at Harrisburg on the 5th inst., and assumed the gubernatorial office.
