The friends of Gen. All kinds of business is prostrated, therefore it is understood that the call will embrace all the known friends of Taylor, without regard to their previous political distinctions. Gen. Taylor declares, that if elected, he will let the people enact the laws, and rule the country through their representatives—that the exercise of the one-man power (the veto), used to defeat the will of the majority, in a species of tyranny and despotism directly opposed to the spirit of our institutions and the principles of dimerzay—therefore it behoves the whole people, or rilly-into the support of their jown rights, and also the new who uphold them. morracy—thereion ifly into the support of their own in it. ifly into the support of their own in it. if it is not the support of the support of the candidates for the different offices will be select the candidates for the different offices. Be careful of your Colds:—Many people are vary apt to consider a cold but a trifling matter, and think that "it will go away of itself in a few days," and they give themselves no trouble about it. But to such we rould say, "be careful of your colds," do not tamper with your constitutions. If you desire to live to a good "old age," use such remedies as will effect an easy and permanent core. Dr. Swayne's Compound Syrup of Wild Cherry has cured more colds than any other medicine offered for sale in this country. The certificates of cures effected by this invaluable medi-cine, which the proprietor is daily receiving, are of the number who have such under disease.

CHILLS AND FEVERS. — Wright's Indian Verstable Pills are one of the best, if not the very best medicine in the world, for the cure of intermittent fever, because they excel all others in ridding the body of those more bid humors which are the cause, not only of all kinds of fever, but of every malady incident to man. Four or ave of said Indian Vegetable Pills, taken every night on going to bed, will in a short time make a perfect cur of the most obstinate case of chilis and fever; at the sam time the digestive organs will be restored to a heal-ity tone, and the blood so completely purified that fever an ague; or disease in any form, will be absolutely im-

possible.
