And then most awful tight he got, And then he went away, And then no went away, And bound himself to go and cut Live Oak in Florida.

He pined upon the live oak lands, He murmured in the glades, His axe graw heavy in his hands, All in the wild wood shades.

Mosquitoes bit him every where, No comfort did he get. And ah! how terribly he'd swear, Whenever he got bit. At last desnalring of release, And wishing himself dead.

He went into the woods a piece.

And chopped oil his own head

the digestive organs; and to secure means, we have more these obstructions or restore the blood to 1 s no turns state.

The aversion to taking medicine is most effectually removed by Clickner's Vegetable Pargative Pills; being completely enveloped with a coating of pure sakin sagar (which is sa distinct from the internal ingredients as a nut shell from the kernel) and have no taste of medicine but are as easily swallowed as bits of candy. Moreover they neither nauscate or gripe in the eligitiest degree, but operate caually on all of the diseased parts of the system, instead of confining themselves to andracking any particular region. Thus, if the Liver be affected, one ingredient will operate on that particular organ, and by cleansing it of any excess of bile, restore it to its natural state. Another will operate on the blood, and remove all impurities in its circulation, while a third will effectually expel whatever impurite smay have been discharged into the stomach, and hence they strike at the root of discase, remove all impure humors from the body open the pores externally and internally; separate all foreign and obnoxious particles from the chyle, so that the blood must be thoroughly pure—thus securing a free and healthy action to the heart, lungs, and liver; and thereby they restors, kealth, even when all other means have failed.

MANUFACTURERS, No 65, North Front street,
M Philadelphia, have now a good supply of their warranted pure WHITE LEAD, and those customers who
have been spatingly supplied in consequence of a run
on the article, shall now have their orders filled.
No known substance possesses those preservative and
beautifying properties, so desirable in a paint, to an
equal extent with unadulterated white lead; bence any
admixture of order malerials only mars its value. It
has, therefore, been the steady aim of the manufacturers,
for many years, to supply to the public a perfectly pure
white lead, and the unceasing demand for the saricle, is
proof that it has net with favor. It is invariably branded on one head: WETHERILL & BROTHER in full,

HENLY COLLYER. such is a mily medicine which has ever been offered to the public.

Worms are capable of producing great disturbance in the system; not only do they aggravate all ordinary diseases, but they also give rive to a great variety of very aisrming and anomalous affections. Indeed the whole train of spasmodic and convulsive diseases may proceed from the irritation of Worms in the alimentary canal. Cholera, Epichepay, Catelepay, Tetanua, Paralvisis, Mania, and Convulsions, as well as a variety of Nervous Affections, are, not unfrequently the effect of this cause. Drappenta on Indicators—There are few complaints more common among all classes than the above disease, the stomach and the intestinal canal parts of a most delicate structure and possessed of a most capulsite secsibility are daily subject to this complaint, from indulgence or improper food, a few of the symptoms are duliness or distension in the region of the stomach, obeliching of wind, sometimes impaired appetite, flatulence, coated tongue, in the morning, decression of prigits, tenderness at the pit of the stomach, other cold feet, Palpitation of the Heart, sallow complexion, or disturbed bowers, &c.—all these diseases yield to this valuable Vermifure, or great antidyspeptic medicine.

BEWARE OF IMPORTION—Swaves & Warne's Vermifure disturbed bowels, &c.-all these diseases yield to this valuable Vermiluze, or great antidyspeptic medicine. BEWARF OF IMPOSITION.—Swayne's Vermiluze is in square hitles (being recently changed to prevent counterfeit, also to pack to a better advantage) with the following wordsblown in the glass: Dr.H.Swayne's Vermiluze, Philada, also enveloped in a heautiful wrapper, bearing the signature of Dr. Swayne, with his portrait on each side of the bottle without which none is genuine. This article is so pleasant to the taste that both children and adults are universally found of DR SWAYNE'S COMPOUND SARSAPARILLA AND EXTRACT OF TAR PILLS—The great American Puritier—for the removal and permanent cure of all diseases arising from an impure state of the blood or habit to of the system.

Partiter—for the removal and permanent cure of all diseases arising from an impure state of the blood or habits of the system.

It is an important first, and one that hundreds are undoubtedly ignorant of, that many of the pills in common use, are composed of such powerful and tritiating purcaive substances that a continuation of their use for a short time, as is often necessary in derangements of the liver and directive organs, will many times be productive of serious consequences, and not unfrequently produce the diseases which they pretend to cure. These circumstances will plainly point out the many advantage of Dr. Swayng's Compound Sursyparific and Extract of Tar Phis which, though equally certain in their purgative direct, are incapable of producing any of the bad effects mentioned above. They produce a natural pleasant evacuation of the howels—strengthen and invigorate the system—restore the tone and activity of the liver and digestive organs—thus effecting all that is required for the cure of the diseases under consideration. BEWAIR OF MISTANES—the member that each bottle of the genuine medicine hears the signature of Dr. H. Swayne without which none can be genuine. See that the name is spelled correctly Sewa-e-n-o.

HAAS' EXPECTRANT,

For the Care of Consumption, Congles, Colds, & c.

IN PRESENTING this valuable medicine to the public as a remedy for Consumption, and Pulmonary Diseases in general. I have been actuated solely by the great success attending its use in my own immediate neighborhood, and a desire to benefit the afficted, I shall simply endeavor to give a brief statement of its usefulness, and fatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that CONSUMP-TION may and "CAN BE CURED," if this medicine is resorted to in time. As Consumption, however is a disease which differs much in the severity of its sympoms, and the rapidity of its progress, and has long baffed the akill of physicians it cannot be supposed that this or any other remedy is capable of effecting a cure in every case and in the contrary, when the consumption, the disease on the contrary, when the contrary is a surprised to find the most simple disease. PATENT METALLIC ROPES
FOR THE USE OF MINES, RAILWAYS, &c.,
For sale, or imported to order, by the subscriber.

THESE Ropes are now almost exclusively used in
the Colliaries and on the Railways in Great Britan, and are found-to be greatly superior to Hemen,
ones as teards safety, durability and economy.
The Patent Wire Ropee, have proved to be still in
good condition after three year's service, in the same
situation where the Hempen ones, previously used, of
double the size and weight would wear out in nine or
ten months. They have been used for almost every
purpose to which Hempen Ropes and chainshave been
applied. Mines, Railways. Heavy Cranes, Standing
Rigging, Window Cords, Lightning Conductors. Signal
Halyards, Tiller Ropes, &e. They are made either of
iron or Copper Wire, and in cases of much exposure
to dampness, of Calvanized Wire.
Testimonials from the most eminent Engineers in
England can be shown as to their efficiency, and any
additional information required respecting the different descriptions and application will be given by

Ague.

It is success of Wright's Indian Vegetable Pills in the cure of Fever and Ague, has been most remarkable. Before the proprietor was fully satisfied to recommend them in this complaint, he had case after case come under his notice in which it was proved that if there was one complaint over which the Pills had

Russelfrille, Putnam County, Indiana, July I., '47.

Dr. Wright:—Some time since, your agent left me a supply of your Indian Veretable Pills. I have found said Pills to be in great demand lately in the cute of Fever and Ague. Mr. James Boyd has a son who had been hidd up with Fever and Ague, and had tried with a rious other remedies, all of which proved of no avail. He determined to try your Indian Vegetable Pills, and by using one bax is now sound and well. Mr. T. Spences had a daughter, Mr. High Grovesia son, and Mr. Charles Nichole and three of his family, were all down at the same time with Fever and Ague, and had also-tried the various other remedies without effect. Your Indian Vegetable Pills may be relied on for a cenam cure of Fever and Ague. Yours, respections.

Tis Autumn—season of the year When Summer into Winter dies; When Nature, mark'd by Time's decay, Points to a test beyond the skies.

'Tis Autumn-fields and wood preclaim The trace of Time's unsparing hand; While Winter with its frozen chains, To bind us, sends his stern command.

The Autumn sun its shadows fling
O'er fields of waving, rip ning corn;
While birds their matin notes now sing,
To usher in the dewy morn. The lowing kine in herds go forth To browse upon the fawu— The lark, nigh soaring, pours her sort Upon the waking cars of morn.

But sparkling grass, with dew-drips gem'd. And forest leafaire tdy sered, Must soon to icy Winter yield The charms that round us they have rear'd The perfumed buds that scent the grove,
The gentle flowers that near us bloom,
Will soon their sweetest fragrance lose,
'Mid Winter's cheerless, chilling gloom.

The music we delight to hear, Of rippling waters leaping by. In silence drear will soon be hushed, 'Neath beds of chrystal there to its.

A dreamy stillness reigns around, An influence mild pervades the air;
A feeling that must cause the beart,
To draw to God in fervent prayer.
