Voluey B. Palmen, at his Real Estate and Coal Jeneuss; Gamer of Third & Chesnut Streets, Philadelphia, No.100, Nassau Street, New York, No. 16, State Street, Doston, and South east corner of Baltimore & Calvert Street nore, is our Agent for receiving sub-tisements for the Miners' Joannal.

THE PROTECTIVE POLICY OF THE COUNTRY

The People Demand its Restoration REEUCTION OF WAGES.

The New York Tribuns of the 12th Novembe contains the following in its commercial article, quited from the Dry Goods Reporter: "The arrivals from Europe bring us intelligence of a still further decline in the price of cotton. The will have a corresponding effect upon this side, and

rial at less price. It is also agreed that

of wages twenty-five per cent." Is this the entertainment to which the laboring Is this the entertaisment to which the laboring classes of this country are to be invited on the very heeis of a great Whig victory! These people were invoked, nay, in many cases coerced to vote the Whig ticket. They were threatened will loss of employment if they did not do so, and promised the most unbounded prosperily in the event of Whig success. The land was to teem with wealth, and the sea send forth its tribute; the hungry were to be field, the naked clothed, equalid powery driven from out our borders, and our whole people were to rejoice with exceeding great jay, because of the ruccess of the Protector's so Labor. But here is their projection, shown

this strick is propie to mere dumb beast. How, one possessed of any resconing faculties, it is they posses the same degree of patients rounts found to 20.3 a special, that they posses the same degree of patients rounts found to 20.3 a special, the same degree of patients rounts found to 20.3 a special, the same degree of patients rounts found to 20.3 a special, the same degree of patients rounts found to 20.3 a special, the same degree of patients rounts found to 20.3 a special, the same degree of patients rounts found to 20.3 a special, the same degree of patients rounts found to 20.3 a special of the same found to 20.3 a speci doubt which can only be removed by the elections that branch of manufacture. We have before us the New York Herald, which gives the following tures at the port of New York alone, together of eighteen hundred pounds, and the other about | before that period.

LOCOFOCO EMISSARIES.

We have a letter before us stating that a Wilfore E-quire Pryor of Mauch Chunk, a short time place the Presidential election, and off-red to wear to some great frauds that were perpetrated in Postsville, at the Governor's election. He disappoint the Whige: They also predicted that afterwards borrowed \$5 of the 'Squire, and then disappeared. We have been stated the squire and then disappeared. We have been stated upon. The Whige have this our Locoloco friends for such a purpose.

Th. Old Wold.

The three great elements which enter into the society, condition, and destiny of nations, are Ruce. Religion, and Climate. The first regard. the primary constitution of man; the second re-gards the influence of the spiritual world upon his heing. These are generic principles. They are not more dependent details like the forms of govheing. These are generic principles. They are not more dependent details live the forms of givening and the changes they undergo—or like monicipal laws. They are organic, fundamental, and no human laws can obstruct or even modified their influence. Many where have justly estimated the influences of some one of these primarely mated the influences of some one of these primarely monts, but we are yet without a philosophy which shall consider a nation, or an individual actions the impelled in his life and course, by the just life of these great forces. They are not opposed to one another; but they are adopted, and colonies and the colonies are also another; but they are adopted. ence of these great forces. They are not opposed to one another; but they are adepted, and colliterat to each other-because the God of revelation e also the Gol of nature. The law of reversion admir- of modes, while its principles are eternal Siciety, then, may be modified, according as it writes in race of climate - while the gest principles of revelition remain as eternal and immutable wife. Principles of revelition remain as eternal and immutable. as the universe to which they are revealed. Muntesquieu, in his spirit of law-, has no iced, with great historical accuracy, the profound and previlent influence of climate, in modifying pointof race; but the direct satisfied in of many excontrast between the Angle-American and the Arican. In marching to M zico, we may also Brown C. Dawson see the difference between an Angle-American White American, and between both and the White probably. original Aziec. We see, also, that these races are totally unlike, and there is but a small tendency to am elgam etton, although the mitature is p recognize, as clearly as is necessary to our under diff rence of recessed religions, between many of

he European races :
1. The present races of Europe, divided by what is now the philo-ophical ruit-the roots of language-and connected a st with their origin, are divided into three great fami tes viz: the Latin or Romanie; the Teutonic, or Germans : and the Sclavonic—under which may also be classed the Finne—a distinct class in the North. So a so in the public as a base, wicked and infamous per-fesses, shows that he prostitutes the right of suf-the Latin class might be included the remains of verter of the truth. So long as we are members frage to unhallowed ends, and renders it a mere the Celus, in Ireland, and of the Ibertand, in Sprin But, without going into minor distinctions of more ancient date, the present nations of Europe may properly be divided into three classes. After the above was in type, we observed the are greater that it would be polled in behalf of the Romanic, Teutonic, and Science. B-tween hest interests of the country, then in the hands of these thrie races it must be turne in in s neither affi my nor sympathy. The division

by nations is as follows:-Romanic Race. 34 500 noo France, inhabitunte, 4 000 000 Spain, Portugal, 22 5 (0.000 Latin trace, 75.0:0 000 The languages spoken by these people, are a managinguineous, and they in fact, constitute all no ongangumeous, and they in fact, coastitute si no he whole available portions of the Roman E aptre
