OUR ANNUAL STATISTICS. The short period which has elapsed since the first of January, has prevented us from procuring all the official statistics of the Coal Trade in time for this paper-we have therefore preferred delay-

ing their publication for a week. The time, trouble and expense of collecting as the Journal is the only periodical in the county that has incurred the expense of collecting and injury. No insurance on the property. preserving them for future reference, we feel a pride in giving them to the public as full and accurate as the circumstances will permit. We have never been guilty of the ditty, mean, and disreputable practice of stealing these statistics from others and then palming them off as our own, as some of the papers have done both at homo and abroad.

THE COAL TRADE FOR 1848. We give below the official quantity of Coal sent to market from the different regions, in 1849,

Schuylkill, { Railroad, Canal,	1847. 1,360,681 222,693	1848. 1,216.233 434,652
Swatzra Region,	67,457	G1,530 O
Lehigh,	1,650,631 613,973	1,712,615 680,746
Lackawanna, Wilkesbarre,	353,203 284,398	437.500 237,271
In 1810,	2,967,405 2,331,013	3,069,132 2,967,405
Increase,—tons,	635,392	100.727

392-tons, and only 100,727 tons in 1848, with largely increased facilities for mining and transportation over 1847.

THE COURT HOUSE.

We publish the proceedings of a meeting held at the Town Hall, on Monday evening last. The meeting decided egainst the project of purchasing the Methodist Church, and resolved in favor of the location selected by the Commissioners. A committee was also appointed to wait open the Council, and reques that body to petition the Legisla-ture for an Act authorising the Borough to borrow the necessary sum to erect the Court House. In compliance with this request the Council have called a special meeting on Monday evening next,

We also publish a call for a meeting, to be held at the Pennsylvania Hall, on Monday evening .-We are not aware of the object of this call, further than the wording would indicate-but we sincerely hope that a spirit of forebearance and conciliation will prevail among our citizens on this important subject, otherwise the whole project will fail. After this winter it will be too late. RAILEGAD IRON.

The advices from Europe represent railroad iron as ruling very low, with but little disposition to purchase-in fact, that railway orders had nearly ceased, and great quantities were being thrown upon the market. In Walcs, it has been sold at £5 per ton, delivered on ship-board, and some bargains were reported as low as £4 103.-Adding duty and freight to New York, the cost North and South can be advanced. in this country would be but \$34 70 per ton, which is about half what it can be manufactured for here. Is it a wonder, with these facts before us, that our manufactories are suspending opera-

LOCAL NEWS.

FIRE IN PORT CARBON, TWO CHILDREN BURNT TO DEATH: We regret to state that a dwelling house in Port arbon, occupied by Philip Steinbach, and owned by Abraham Pott, was entirely destroyed by fire on Tuesday night last, about nine o'clock. It appears that Mr. and Mrs. Steinbach were absent, and had left the house in charge of three children, the eldest of whom was five years old. During the absence of the parents, the house took fire; and before aid could be procured burnt down.

Horrible to relate, two of the children above allumbles of the parents, and the places where pockets locate ever—But—and I crave your merry. pears that Mr. and Mrs. Steinbach were absent, Horrible to relate, two of the children above alluand preparing these statistics for publication, are much greater than people generally imagine; and one being one, and the other two years! THE CARRIER'S ADDRESS THE PATRONS OF THE MINERS JOURNA

January 1st. 1649. erry New Year, readers, great and small! Your friend, the Carrier, acying he's cur-teous, and withal A kind of "tarrier" ould humbly pay,

But—and I crave your mercy— Permit me first—for "lean" folks are not cleve To hope you're "pursy"!

Ahem! that done, I'll now commenc Though, faith! I don't know what to say, inless I chronicle events

Unless I chronicle events
Just passed away;
And that would be a rather stale proceeding—
For Eighteen Hundred Forty-Eight
I entertain no special hate;
And 'twere no evidence of gentle breeding,
Should I—by mere inquiry led—
Rake up the ashes of the dead,
All its decayed particles re-hearse,
Merely to turn its bad things into "werse":
I have, indeed, no stomach
To say of good things that they all were mean
And so—but hang the comic!
Suppose we try the sentimental?
What say you? Eh! What! Shake your head
By Jupiter! You're not afraid?

er! You're not afraid?
Well, then, toss up! Ayes or noes?
Take care of your toes! Heads win it! I'll begin it-

So here goes! Hark to the New Year's chime! Old Forty-Eight has left us in his prime!

Old Forty-Eight has left us in his prime!
And yet how brief
His accents in the parting moments seemed!
Laughter was voluble—and so was Grief—
And much spake Care and Crime—
Still, ere their utternace is familiar deemed—
Ere we have laid their touching stories by
And garaer'd all the ripened harvest in,
A far-off cry
Reveals them fading, death-struck, from the
scene!

And yet, he came all smiles—as if his face Were quite unused to storms and cloud, not gloom—
gloom—
very laughing one! And oh, the grace
Of his light footsteps 'mid the summer's bloom!

Hissouth wind's music 'mid the whispering flow And all the deep blue glory of his skies!
And all the deep blue glory of his skies!
Ab, these were beautiful! And they were ours!
Brange! that such charms should have such rot

Strange! that such charms should have, such rot at core;
For we have flowers as fair, and skies as bright;
Winds whose rich breath may perfume be all o'er,
Still—mid the pleaty of a festal night
The gushing well-spring where we drank of yore
Will come on our remembrance with delight—
So the foud Heart will idolize the Past!
Wooing its gifts as lovers woo a bride,
Till present thoughts, hopes, wishes, all surpassed,
Become but passionless objects by their side!

Hark to the New Year's chime! The Past is gone—
Tombed with its living scenes and magic flower
We cannot mar its slumber, so sublime—

And such is Time! [scroll hough we may not blanch Life's blackened may peruse its features, and betime The Fature thus control.
We have known many a change—
Have looked on Toil—on Tunult—and, I
On many a sad and melancholy scene,
And many of black Revenge—
The transpared up as priceless gen The Future thus control.

Caution Extra.

OLD DOCTOR JACOB TOWNSEND,
THE ORIGINAL DISCOVERER OF THE
GENUINE TOWNSEND SAFEADARIHA!
OLD Dr. Tuwnsend is now about 70 years of age,
and has long been known as the author and discoverer of the Genuine Original "Townsend Sarsaparilla"
Being poor, he was compelled to limit its manufactured

The manuscope of known as the author and discoverer of the Gennine Original "Townsend Sarasparilla" Being poor, he was compelled to limit its manufactured by which means it has heen kept out of market, and the sales circumscribed to those only who had proved its worth and known its value. It had reached the cars of many, nevertheless, as those persons who had been beel-d of sore diseaset, and saved from death, proclaimed its excellence and wonderful HEALL'IG FOWER.

Knowing, many years are, that he had, by his skill, science, and experience, devised an article which would be of incalcuable advantage to manking, when once known and extensively used, he hoped and perisevered, expecting the time to arrive when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION.

Is manufactured on the largest size, and is called for thoughout the length and bryadth of the land, executing the its its found incapable of degeneration of deterioration.

Let very man ring throughout the lend that the

Dr. Jacob Townsend is now manacturing the real Townsend Sarsaparilla, which never sours, never fements, and never changes its character.

From this day forth the people shall have the Pure Gennine Townsend Sarsaparilla, which shall never sour to the bottle, or in the stomach, and it shall yet mansh from the land all Pernenting, Southing, Exploding, Vinegary Sarsaparillas, now in use. A good Sarsaparilla, pure and genulant, ought to live; a poor souring, slip-slop Sarsaparilla ought to droop an our souring, slip-slop Sarsaparilla ought to droop and die. The Old Dr's. Sarsaparilla will keep pure and perfect 100 years.

The Old Dr's. Sarsaparilla wilf keep pure and perfect 100 years.
Unlike young S.P. Townsend's it impropes with age, and never changes, but far the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the Art have all been brought into requisition in the manufacture of the OLD DR's, SABJA-PARILLA. The Sarsaparilla root, it is well known of medical men, contains many medicinal properties, and some properties which are hert or uscless, and others, which, if retained in preparing it for use, produce fermentation and scid, which is injurious to the system. Some of the properties of Sarsaparilla are so relatife, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those expecienced in its manufecture.

preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these colarite principles, which thy off in vapor, or as an exhaltation, under heat, are the very exercisin medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring in matter in the root than from anything else; they can then strain this inspired or vapid liquid, weeten with sour moissees, and then call it. *Barsapatilla Estract or Syrup." But such is not the article known as the again the strain this inspired or vapid liquid, weeten with a form anything else; they can then strain this inspired or vapid liquid, weeten with order to the strain or Syrup." But such is not the article known as the again and the following and the following action of former to the strain of the Sarsaparilla root are first removed, every thin gapable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical vir. ed and rejected; then every particle of medical vir. ed and rejected; then every particle of medical vir. ed and rejected; then every particle of medical vir. ed and rejected; then every particle of medical vir. ed and rejected; then every particle of medical vir. ed and rejected; then every particle of medical vir. ed and rejected; then every particle of medical vir. ed and rejected; then every fact of the summariant of the result of the strain of the strain of the summariant o

DR. SWAYNE'S
COMPOIND SYRUP OF WILD CHERRY;
The Original is not Genuine Preparation.

DOTHER COMPOIND STATE OF THE OFFICE OFFICE OF THE OFFICE OF THE OFFICE vous Debillty, and all discases of the Throat, Breast and Langs, the most effectual and speedy care ever known for any of the above diseases is, Dr. Swayne's Compound Syrup of Wild Cherry.
SWAYNE'S VERMIFFUGE is an agreeable tonic, and very effectual in destroying Worms, curing Dyspepaia, Sick Headache, Sour Siomach, &c. It is extremely, palatable and perfectly barmless, if administered to the tendermst infant. Remember: I have changed my bottles to a square, having my portrait on each.

palanable and perfectly harmless, if administered to the teoderreat infant. Remember? I have changed my bottes to a square, having my portrait on each.

DR. SWAYNE'S SARSAPA. & EXT. TAR PILLS are a mild and gentle purgative, unsurpassed by any medicine for remoting the bile, cleansing the stomach, and effectually purifying the blood.

These medicines are no longer among those of doubtful utility. They have passed away from the thousands daily launched upon the experiment, and now stand higher in reputation, and are becoming more extensively used than any other preparation of medicine ever produced for the relief of suffering-man.

They have been introduced very generally through the United States and Europe, and there are few towns of importance but what contain some remarkable evidence of their good effects. For proof of the foregoing statements and of the value and efficacy of these medicines, the proprietor will insert a few of the many thousand testimonials, which have been presented to him by men of the first respectability—men who have higher views of moral responsibility and justice, than to certify to facts, because if will do another a favor, and them estees no injustice. Such testimony prove conclusively, that their surpassing excellence is established, by their intrinsic merits, and the impuestionable authority of public opinion. The instantaneous relief they afford, and the southing influence diffused through the whole frame by their use, render them most aspecial temedies for the efficiency. Where the milieted.

Consumption of the Langs. Dr. Swayne's Compound Syrup of Wild Cherry! The greatest medicine in the World! Still another wonderful cure!

World: Still another wonderful cure!

Still another wonderful cure!

Dr. Swayne:—Dear Sir:—This is to certify that my wife was attacked with a violent cough, withe section.

DR. SWAYNE'S VERMIFUGE—An effectual reme-y for Worms, Dyspepsia, Cholera Morbus, Delicate fickly of Dyspeptic children, Convulsiohs, and the most scald family medicine which has ever been offered to be multile.

The control of the co

Postscript.

From our Telegraphic Correspondent. NEWS TO THE LATEST MOMENT: PHILADELPHIA, Jan 5, 8 o'closer P.M. Flour is held at \$5 per barrel. Corn Mcal and Rye Flour are dull. Wheat, \$1,05a1,07. Rye, 60a62c. per bush. | Corn. 52a33c.

THE POSTAL TREATY .- The Europa brings the rates of postage provided for by the Postal Conven-tion between the United States and England. They are as follows: 1. The ship letter postage is fixed at sixteen cents for I an ounce. 2d. The postage on Newspapers to their destination at two cent each way. 3. An inland postage of five cents is to be paid on teach letter.

4. Letters may be pre-paid or not, just as the sender pleases.

5. Letters from America for France and other parts of the continent of Europe, are to pass through England free under the American seal, in care of a muil agent, 6. Let-ters and papers from England for Canada, to pass ree in like manner through the United States. These tre the chief points of the treaty. It will be observed that it is one of complete reciprocity and equality, Immorality of Gold Diggers. The Waih ington Globe has another interesting letter from

and careless character of those collected in the California gold region. One passage in the letter reads as follows: "Every man engaged in hunting gold and every one that visits the gold region, goes armed to the

San Francisco, confirming the motley, desperate,

curity for life or property," &c. This is deplorable. But the introduction of law and regulations will no doubt remove much of the avil, if it cannot remove all. With whatever government Congress establishes there, the writer recommends that a strong military force of cavalry be sent out to sustain it.

Now that the Whige have secured the control of the National Government for the next four years from the 4th of March next, we ask those adopted civizens who may have been impressed with the belief that the Whigs were their natural enemies, to watch the progress of the Whiz Administrations in all matters in which their rights or their interests are at stake. We ask this, because we are satisfied that many of our adopted civizens hone-tly entertain the unfounded opinion cirzens honestly entertain the unfounded opinion is altroitly enforced upon them by Locofoco demagogues, that they have no chance for the enjoyment of those privileges which, as adopted citizens of this asylum of oppressed, they are constitutionally entitled to unless through the agency of a locefoco administration. All we desire is that our political friends should be judged by their acts, and not by the accusations maliciously brought against them by our political adversaries; and if in the end, it is not made manifest that the and iff in the end, it is not made manifest that the ights and privileges of adopted citizens a o as Whig as a Locoloco administration, then for the future we shall have no objectors to their listning to our political calumnistors.-[Lancarier
