In the second state of the OFF <section-header><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> THE MINERS' JOURNAL, AND POTTSVALLE GENERAL ADVERTISER To OTICI entitled the Columbian Calculator, and consider it to be a work worthy of being introduced into all the Dis-trict achools and Academies throughout the United States. Believing it to be a work of practical utility and indescribable merit, on account of its benultful arrange-ment and its excellent system of gradations from one step to another, up the rugged and difficult hill of math-ematical scheme, i would, hall with inepressible from the step to another, up the rugged and difficult hill of math-ematical scheme, i would, hall with inepressible light that hour, when all the citizens of this great fle-public may be enjoying the union of carrency and other benefits, which an extensive circulation of this work is destined to produce wherever it is introduced. . B. C. WAONER, Teacher of Public School, No. I. The Youth's Friend and the Teacher's comfort. The undersigned, having carefully examined the The following gold lyric is furnished by the Salem "Youths' Columbian Calculator." by Almon Ticknor Esq. believe it to be an excellent introduction to the study of arithmetic, and superior to any other work of the kind they have examined. They intend to introduce it into their respective schools as soon as practicable. A. C. FISHER, J. HOFF, PTER DERGETERSER, Ja. Selin's Grove, Pa., June 24, 1845. Teachers. COLUMBIAN SERIES OF or Griswold if he is still ab ARITHMETICS. Automatics, and a series of the state of the second series of the second series of the second series of the second second series of Arithmetics, prepared with great care by Mr. Almon Ticknor, a Tescher of upwards of twenty-fire years experience. They are called— THE COLUMBIAN CALCULATOR. THE COLUMBIAN CALCULATOR. A complete KEY to the above works to be nad separates or to contexp. THE CALIFORNIA EMIGRANT. Tune-"Oh! Susanah!" I come from Salem city, With my wash-bowl on my knes; Sclis's Grove, Pa., June 2d, 1848. Teachers. Beiras Grove, June 2d, 1848. Having examined the Columbian Calculator, by Mr. Almon Ticknor, I believe it as mostadmirable work to give the young scholar a proper idea of the science of Arithmetic. The rules are comprehensave, and the ex-tamples being arranged in a natural and progressive or-der, brings the work within the comprehension of pupils, and is well calculated to freilituit their advancement in this important branch of education.. The work in my ophion, is well calculated for common schools and academies. I will introduce it into my school as soon apossible. Towas LLoyn, Teacher of Beleet School. I'm going to California, The gold dust for to see. heaven and earth than ever was dreamed of, is daily made manifest by the Astrologer, C. W. ROBACE, whose miracles approach more near those spoken of in the Scripiures.than.any of latterdays, by his daily performance of wonders unheard of in this contry; yet quite familiar are thousands the Europe who have enjoyed his confidence.among which may be men-tioned Orear, the present King of Sweden, Louis Phi-lipe, and many of the English nobility and genilemen of high rant, who have consulted him respecting losses. by design of accident, and who have been graified in to has includered and and have been graified in ho has inherited from his ancestors. For information of sinon property, and for the specify cure of discases of various kinds, heretofore considered incurable by aur best physicians. It rained all night the day I left, A complete KEY to the above works to be nad separate or tozether, TICKNON'S ARITHMETIC TABLES. The books are thoroughly American in their character —based on our beautiful decimal system of currency, and received the approval of unwards of five hundred Professors and Teachers in different sections of the U. States: We giesn a few from the list, and publish be-low: (See pamphlet for the balance.) The weather it was dry, The sun so hot I froze to death— Oh! brothers! don't you cry; Having examined the system of arithmetic by A. Ticknor, I cannot but express a decided opinion in its favor : particularly as relieving the pupils ander the persona systems, of acousiderable unnecessary burden. In resona systems, or a considerable unnecessary ourden, as well as presenting the acience in a plain and concise view. On these accounts it cannot but recommend it-self to the attention of every teacher of youth, and it will be introduced into our institution, at least, as soon as practicable. E. D. YROMANS, Principal of Danville Academy, Pa. Danville, May, 1848. Oh! California; That's the land for me ! 'I'm going to Sacramento, With my wash-bowl on my knee! iow: (see pamphiet for the balance.) The following recommendation is from Thomas H. Burrowes, Esq., the late able and talented Buperinten-dent of the Common Schools of the State-and who may very properly be termed the "father of our Com-mon School system :" "I food program is a second to be a state and the state of the program is a second to be a state of the st I jumped aboard the 'Liza ship, . Milton, June2, 1848. An' travelled on the sea, Harrisburg, April 6, 1948. To the Hon. Board of the S. Ward-Gentlemen : Ve, the undersigned, teachers of the South Ward, has swined the Youth's Columbian Calculator, and t olumbian Calculator, by A. Ticknor, and believe the We would the And every time I thought of home, I wished it was n't me ! Milcon, Junez, 1848. Mr. Ticknor-Dear Sir:-Having eramined the work entitled the "Columbian Calculator," I deem it due to the author to say it is the best work upon arithmetic that I have examined; therefore I would recommand it to the public schools in our district. Yours respectfully, J. M. HUFF, Teacher. system :" sure in expressing the opinion that the alculator, by Mr. Almon Ticknor, is a mos "I feel pleasure in expressing the opinion that the Columbian Calculator, by Mr. Almon Ticknor, is a most valuable school book. The adherence to our own beau-tiful and simple declimal system of money, and the ex-clusion of the British burrency of pounds, shillings and pence, which forms one of its chief differences from other arithmetics, I consider a decided and valuable in governet. It always appeared to me useless, if pot worse, to guzzle the beginner in Arithmetic with guestions in any other money than our own, at a time, too, when the unavoidable intricacies of the Science are sufficiently numerous and difficult to task all big na-The vessel reared like any horse That had of oatsa wealth ; of various kinds, heretoine consideren incuracie py our best physicians. He is also prepared with a quantity of his celebrated Astrologer's Swedish consumitor syrup, which is pro-ducing such wonderful cures in healing ulceration of the Lungs from Consumption; More than 1,000 patents lave been satisfactorily cured in Sweden by this won-derfol remedy. Each bottle is accompanied with minute Columbian Calculato, by A. Ticknor, and believe them to be the best systems now extant. We would there-fore recommend their adoption. We believes that in the first named work Mr. Ticknor has accomplished much to facilitate the progress of children in becoming acquainted with the elementary parts of arithmetic, while in the latter, the science of arithmetic is explain cd and developed so as to suit the more advanced schol-ar. We would respectfully request, that your honor-able body would take into consideration the superior merits of the hors, named works, and cause their adoption in the public schools in the South Ward. Canates W. Scurgers, J. K. MCKEYERS. It found it could'nt throw me, so I thought I'd throw myself! The "Columbian Calculator," by Mr. Almon Tick-I thought of all the pleasant times We've had together here ; I thought I ort to cry a bit, But could'nt find a tear. Hereiten and for sale at his office. He would respectfully refer the sceptical, and all others, to. Mrs. Moss, Brown street, between 3d and 4th, bask of nor, I have examined, and must say that I am very much pleased with its arrangement, and I think its in-troduction into our schools would be a great and public benefit. Principal Public School, New Berlin, Union Co., Pa. not works, to grate in more than our own, at a time, too, when the unavoidable intricacies of the Science are sufficiently numerous and difficult to task all his pa-tience, and when the teacher's chief object should be to excite and estatin his interest in the study. After he has become well versed in the principles of Arith-metic, and complete master of all calculations in our own coin, it is not only proper to give him a knowledge of those of other laads, but it will be found practicable to do so in one-tenth of the time requisite for that pur-pose at an earlier period. In many either respects, also the Columbian Calculator is a superior work, and I therefore cordially recommand it. "Tooxas H. Brenowzs." Lancaster, Nov. 20, 1847. *Litti*, Sept. 30th, 1848. Mr. Bannam-Dear Sir: -1 have received from you with much pleasure a copy of the "Columbian Calcula-tor," a treatise on elementary arithmetic, by Almon Ticknor. After a careful examination of the country, and eractly such a work as should be introduced into the schools throughout the State of Pennsylvank. The work is full and comprehensive; and treats of several subjects which are onelon similar in version and which bus which are onlen omitted in velocating work, among which I was particularly pleased to notice, is that of "Practical Mensuration." A familiar acquaintance with the principles there on dimary mathematical ducation. A common practice is af-icr they have been allowed to glean in the subble remedy ; but we have only space to subjoint the fol-lowing: Rickland, Oswegn Co., Sept. 17, 1849. Gentlemen :-- 1 wish to inform you that the Tatter-sall's lieave Powders I hought at your store last Octo-ber, cured a valuable mare of mine of it : Heaves, that she had not tro years. The first package did not effect a cure, but did it in envie as much good 1 was Induced to try another package, and the result' has been, that she has not had the lieaves, since about a week after commencing the second package, although she has been used on my farm almost every day since, which has satisfied me that she is effectually cured. One of my neighbors is giving Tattersall's Heave Powders to a horse, and the prospect is very flattering he will be cu-red by it. Believing that the above named medicine is a very valuable ne, and that Heaves and be cured by in, Ifeel willing to lend my name in praise of it. Respectfully, Moste P. WARNER. [Spring Hill, Ma., July 24, 1818. THE YOUTH'S COLUMBIAN CALCULATOR. This work contains 96 pages with about 900 exam-ples in solution on the slate; it embraces the fun-damental railes, Compound Rules, Nimple and Con-pound Reduction, and Single Rule of Tarce, or propor-tion. Teachers who have examined this work areof opnion that it is just what is very much wanted at this time in our District Schools as a primary arithmetic for those commencing the sindy of numbers, for the rea-sons that those 7 rimary Books now in use are either no jerceit or too far in advance of the praif; in fact, that there is no anitable Primary treatise on arithmetic new before the public. It is also believed that this vol-ume will contain a sufficient amount of practical arith-metic, as will commonly occur in the transaction of ar-ithary buleness-more particularly in the Female De-pertment of our District Schools, many of whom seldom learn thomes of numbers na Karas Reduction of Properwing Dinner was served, the wine despatched and a a glass of brandy and water comfortably settled Bath. Pa., March 18th, 1948. Respected Sit: — After several year's practice in teach-ing, both in the State of N. J., and in this State. I am convinced that atmong all the arthmetics hy different authors, with which I have secome acquainted there are none equal to your Columbian. Calculator. I have had your Calculator in any school for more than a year, and am confident I have choins farther advan-ced than they could have been with the use of any other arilametic that I have seen. From a cursory view of your Youth's Calculator, I am so well satisfied that I intend to introduce it yinto any school as soon as oppor-tunity may present. Yours respectfully. <text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> the dinner. "Waiter," said the traveller, coolly and dispasble-fields in autumn, to but them up for fattening. A good weight for a turkey is 15 lbs; but they are sionstely wiping his mouth with a nepkin. "Waiter, I am swkwardly situated." FRESH IMPORTED GIEEN AND BLACK TEAS From J. C. Jenkins & Co., TEA DEALERS, S. W. corner of Cleanut and Tacifik streets, sometimes fed to 20 and even 30 lbs. The abom "Sir !" said the waiter. "I cumot pay you." "Surry for that, sir; I must call master." (Enter Landlord.) (Enter Landlord.) "My good sir, you see this is rather awkward. "good dianer ?" "capital dinner?" "famous wine?" "glorious grog ?" ", but no cash." The landlord looked black. perimmi of our District Schools, many of whom seldom learn the use of numbers as far as Reduction of Propor-tion, and as this work is intended, in part, for this class of pupils, great care and labor have been heatowerd with a view to render every part perfectly plain and easy of romprehension by the pupil. The calculations are in 'our currency.' with the use of a few fractions, suffi-lent use, as a knowledge of fractions can be acquired from the larger rolume. Vork, September 19th, 1848. M. A. Ticknor-Dear Sir -- I have examined the Co-lumbian Calculator, and find in its arrangement a work well calculated to achiling the process of scholars in arithmetic; and would therefore recommend its adop-tion in the scholar in general. Yours respectfully, SAML LEITNER, Teacher of District School. N. J. MANLEY, Teacher of the Fublic School, Bath. . Eacher of the Fubile School, Bain. Bethlehem, Sept. 4., 1843. Almon Ticknor, Esq.—Dear Siris-After such exam-ination of your Columbian Calcutator, (both the small-or and larger work) as I have been able to give it. I have no hesitancy in according with the general high recommendations it has received from officer quarters. It is clear, well digested, suited to this country, and suf-ficiently comprehensive for all practical purposes. You have my best wishes for a fortunate rise" of the work —It descrees it. Truly yours, &c., E. O. Back Principal Bethlehem Institute for Young Gentlemen. "No difference to you of course !-pleasan house here-plenty of business-happy to take your order-long credit-good bills." "There is my bill, sir ;" prompt payment-FARE LETIALS, resource or District Sciences Fork, Sept. 18, 1895 I have partially examined the third edition of the "Columbian Calculator," by A. Ticknor, and feet no hesitancy in recommending it as the best practical arithmetic with which I am arguainted. WM A. Good. A.M. Principal of Institute for Boys, York, Pa. "Ab, but I must go without paying. Let us see — bill 176. 6d.

Let us have a pint of sherry together-make it up a pound—that will square it." "Sir, I say you are a swindler sir !" I will have

"Sir, I tell you I will call and phy you in three weeks from this time exactly, for I shall have to pass this way again." "None of that sir—it won't do with me—pay me my money or I'll kick you out." The stranger remonstrat J—the landlord kick-ed him out. "You will repent this," said the stranger. "The landlord did repont it.

The landlord did repent it. Three weeks from that day, punctual to his word, the stranger re-entered the Lion Inn. The landlord looked very foolish, the stranger Williamsport, May 26th, 1848. Mr. Ticknor-Dear Sir :---I have been highly graufic AIT. LICKNOT-Dear Sir:-I have been highly gratified by the examination of your arithmetic entitled the "Co-lumblan Calculator." The principles of the science are unfolded, and its practical wave as a science are stailed, and held out his hand-
