## Wit and Humor.

dent of the Common Schools of the State-and who may very properly be termed the "father of our Com-mon School system :" "I feel pleasure in expressing the opinion that the Columbian Calculator, by Mr. Almon Ticknor, is a most valuable ichoot book. The adherence to our own bean-tiful and simple decimal system of money, and the ex-clusion of the Brithk currency of pounds, shillings and pence, which forms one of its chief differences from other arithmetics. I consider a decided and valuable im Zovennent. It always appeared to me useless, if not worse, to puzzle the beginner in Arithmetic with questions in any other money than our own, at a time, too, when the unavoidable intricaties of the Science are sufficiently numerous and difficult to tark all his pa-tience, and when the teacher's chief object should be to excite and sustain his interest in the study. After has become well versed in the principles of Arith-metif, and complete master of all calculations in our own calo, it is not only proper to give him a knowledge of those of other tands, but it will be found practicable it does on one tenth of the time requisite for that pur-pose at an earlier period. In many other respects, also, therefore cordially recommend it. "Thowas III. Bucanover, and I therefore cordially recommend it. "Thowas II. Bucanover, and Ticknor. After a careful examination of the work, I have come to the conclusion that it is well calculated to impart a full and clear understanding of flautes, an applicable to the buines transactions of the country, and exactly suck a work as should be intraduced into the schons the tothe conclusion that it is well calculated to impart a full and clear understanding of flautes, an applicable to the buines transactions of the country, and exactly suck a work as should be intraduced into the schonist which are often omitted it elementary works, among which I was particularly pleased to notice, is that of "Practical Menes metacolary pleased to notice. Is that of "Practical Menes variants." Don't Sit up to Her .- A Green Mountain Ly Don 1 Sit up to firs.—A Green Mountain boy fell in love with a very pretty girl, and do-termined to court her. To that end he dressed himself in his 'Sunday-go-to-meeting;' went to her father's house, and found her alone. "How d'ye du?" said Jonsthan. "I'm nicely," says the girl.

Jonathan took a seat and seated himself in the farthest corner of the room, as though the beauty was a thing to be feared rather than loved.

farthest corner of the room, as though the beauty subjects which are often omitted in elementary works, was a thing to be fear-d rather than loved. "Aint you cold—had nt you better sit up to the 'fire," says Sally, supposing he would, of course, 'if he was going to make love at all, do it in a pro-Vif be was going to make love at all, do it in a pro-

per manner. "No, I thankee; I reckon I'm comfortable," re-. turns Jonathan.

"Now, I thenkee; I reckon I'm comioriable, "Form of AcCariney, Espin, processor of maintemati-urns Jonathan. "How is your marm?" said Sally. "Well, she is complainin' a little," said Jona-han. Here a pause of ten minutes ensued, during work you the subject and is fail in details and liberata-book is well adapted to those who desire a practical work on the subject and is fail in details and liberatawork on the subject, and is just in details and industra-tions for those who are commencing the study of this science. Practical books are the kind adapted to the business transactions of the age. W. McCgaryer. which time he amused himself whittling a stick. "There's nothin' new up your way, is there ?"

said Sally, which Jonathan might understand as

sand Sairy, which Sumarian imget understand as applying to his present situation, or to his father's domicile. "Here ! oh-yes, you meant hum ; woll, no; that is, yes; our spotted cow's got a call !" said Jonathan. Sally would undoubtedly have laughed at this aqueer piece of information, only she was too much verget at the speaker. At length, after much pro-verged at the speaker. At length, after much pro-tracted silence. Sally got up a very small edition

indicative of fear, but sounded very like a request. "Well, aint you goin' tu ?" Jonathan thought a moment of this equivocal

reply, and then placing\_his knife in his pocket, he drew his chair by the side of pret'y Sally, genily encircled her waist, and-the next week they were married .- [St. Louis Reville.

Confirmed Habit - A gentleman of excellent habits and a very amiable disposition was so unfortunate as to have a wife of very different character—in short, one that would get heastly drunk Being in company of a few intimates, one evening, one of them remarked to him, that if she was his wife-since all "other things had failed—he would frighten her in some way so that she would quit; and proposed the following method : that some time when dead drunk, she should be laid in a box shaped like a coffin, and left in that situation until her drunken fit should be over,

that situation until her drunken fit should be over, and consciousness restored. A few evenings atter, the lady being in a pro-per state, the plan was put in execution and after the box lid was properly secured, the party before alluded to, watched, each in turn to witness the ing a movement, laid himself down beside the box, when her ladyship, after bumping ber head fow times was heardito say: "Blues main and the subcent. Bayes main an

It is self-evident, that if this solid foundation be may secured, the future labor of the The examples of the second and the second and a sume and permanent foundation. It is self-evident, thut if this reactive will become comparatively valueless, and the transform of the problem of the second and the sec Harrisburg, June 5, 1948. Extract of the minutes of the South Ward School District : Resolved. That the Teachels of the respective schools in said Ward, be requested to introduce into the school. under their charge the "Columbian Calculator" and the Youth's Columbian Calculator, by Almon Ticknor. C. BEILES, Secretary Secretary's Office. School Department, }

Marrisburg, June 6, 1648. To all whom it may concern :-- I have given the "Col-mbran Calculator," by A. Ticknor, a cursory exami-ation, and entertain the opinion that it is admirably ambian Calculator," by A. 1960, 1971 and entertain the opinion that it is admirably adapted to the use of our common schools. J Miller.

Lewisburg, May 30th, 1848. So far as I have had no opportuoity of examining Mr. Ticknor's system of arithmetic I am Ushly pleased with the 'mode of its receution and should be much pleased to have i' generally introduced into the Common schools of this place. II. H. BLAR, Teacher. Bloomsburg, May 15, 1848. Histomsourg, may 10, 1000. Mr. Ticknor:--I have examined the series of treatises on arithmetic, of which you are the author, and am much pleased with Ihem, and shall introduce them into the school under my charge immediately. A. FORSTER.

Catawissa, May 15, 1918. Cataxissa, May 15, 1918. The examination which I have been able to give Mr Ticknor's "Feries of Arithmetic," the Columbian Cal-culator, Youth's Columbian Calculator, with Keys and Arithmetical Tables, has satisfied me of its great supe-riority to other systems. It is an orizioal work-origi-nal in its plan, arrangement and questions, and that the advantages resulting from its general introduction would much more than compensate for the temporary inconvenience of making the exchange The system in my opinion should be introduced into every school. J. J. BROWER.

We have examined the Columbian Calculator of De-We have examined the committee alternation be-commanded and the committee alternation of the scholar, and adapted to the currency of our country — We have introduced it into the seminaries respectively inder our care. The profusences of the examples, adap-ted to the wants of the learner, is a very important rec-commendation to those who are employed in the in-struction of youth. Joux TAYLOR, Mr.ALMON TICKNOR.] Teacher of District School.

York. September 19th, 1848. M. A. Ticknor-Dear Sir.--I have examined the Co-jumbian Calculator, and find in its atrangement a work well calculated to facilitate the progress of wholars iz arithmetic; and would therefore recommend its adop-tion in the schools in general. Youra respectfully. BAML. LEITNER, Twacher of District School. Almon Ticknor, Esq.—Dear Sir.—After such exam-ination of your Columbian Calculation, (both life small-er and larger work) as I have been able to give it, I. have no hesitancy in according with the general high recommendations it has received from other quarters. It is clear, well digested, suited to this rountry, and suf-ficiently comprehensive for all practical purposes. You have my best wishes for a 'forismate run'' of the work —It descryes it. Truly yours, &c., E. O. likers, Principal Bethlehem Institute for Young Gentlemen. York, Sept. 18, 1948 I have partially examined the third edution of the

Countries and the second secon

From a cursory examination of an arithmetical series, by Almon Ticknor, I am favorally inpressed with their practical adaptation, and genuine merrt. Being gradu-ally inductive and progressive in their character, they are finely adapted for the new learner and ine advanced scholar. Mr. Ticknor's plan of teaching the tables in concert, merits my most corrilal approbation, as from several years' practice of it I am fully convinced of its great approving to the ordinary mode of cinartmetics. several years' practice of it I am fully convinces on us great appendent to the ordinary mode of instruction... Could this plan be generally adopted both in our prima-ry and higher schools, I doubt not but the interests of

and ingher schwort wood who but the interest is blacation would be greatly enhanced. D. Vinsit, Principal of Tankhannek Select School. Mettisse R. Mancy, Teacher Young Lattics School.

reaven and catting than ever was dreamed of, is daily made manifest by the Astrologer, C. W. ROBACK, whose miracles approach more near those apoken of in the Scriptures, than any of latterdays, by his daily performance of wonders unheard of in this country; yet quite familiar are thousands in Europe who have enjoyed his condence, moong which may be men-lioned Orear, the present King of Sweden, Louis Phil-tipe, and many of the English nobility and gentlemen of high rank, who have consulted him respecting losses, by design or accident, and who have been gratified in invoking the powers of the wonderful science which the by design or accident, and who have been gratified in invoking the powers of the worderful science which he has inherited from flis ancestors. For information of his powers to forsee the result of faw-suits, and all underfakings of hazard, and advice for the restoration of stolen property, and for the speedy cure of diseases of various kinds, heretofore considered incurable by our best physicians. REIFSNYDER, New Castle; JAS, B, TALLS, Mingraville. in winter, hardy fruit trees may be praned, as well as grapes, and grafts may be cut. Young fruit trees, which have not had a conical bank of earth thrown round them.-the most perfect protection from mice-should have the snow trodden round them as often as it freshly falls, which will exclude the mice from them. Catterpillar eggs-known at a glance by their knobby clusters on the smaller branches-should be torn or cut from ruit trees before they hatch in spring.

7-1y

To Build a Rat Proof Granary .- Take ocust posts and place them in the ground as locust posts and place them in the ground as deep as you may wish; saw the tops of smouth, and build on your crib. 3 or 3 1-2 fort above the ground, and then around the posts, which must be barked smooth, nail in; and when the rate climb up to it they will tumble down, finding no foot hold. The building must not be attached to any stark building or to any fance. other building, or to any fence.

Profitable .- Mr. Humphrey Lakesman, who lives on Ipswich Beach, has a lot of land from which he gathered the past year, one bus-dred bushels of cranberries. They are of the best kind, and sell readily at the rate of two dallars a tushel. Two hundred dollars' worth of cranberries is a very considerable item of produce fa single farm.

See to your Animals -- Midwinter is now EF Sec to your Animals — Midwinfer is now upon us, consequently it is essential that the farm-er looks frequently to his domestic animals. Un-less well sheltered and carefolly attended, there will be no profit in keeping them, as they will toose more than they will gain. Oren, cows, sheep, swine and horses, should have comfortable quarters and an extra ellowance of pelatable and nutritious food. Fowle, likewise, should be the honor scining of the amelia for the heafth Heave Powders. T HAR cured, in the last year L 1500 cases of Heaves, 2000 cases of Chronic Cough, 2000 cases of Broken Wind, 5000 cases of Horses out of Condition, and other because More than 500 certificates, verbal and written, have een received, attesting to the virtues of this inestina-le remedy; but we have only space to subjoin the fol-wing:

nutrifyus food. Fowly, intervie, and to be the happy, recipients of no small share of the benefits resulting from this prudential economy. When neglected, carelessly exposed, and spa-ringly fed, they cease to discount very liberally, and are often stacked with disease. ble remedy; but we have only space to subjoin the to-lowing: Richland, Osweeo Co., Sept. 17, 1818. Gentlemen: --I wish to inform you that the Tauer-sall's Heave Powders I bought at your store last Octo-ber, cured a valuable mare of mine of the Heaves, that she had had ne or are. The first package did not effect a cu.e, hut did the mute so much good I was induced to try apother package, and the result has been, that she had not fragers, and the result has been, that she had not hard the Heaves, since about a week after commercing the, second package, although she has been used on my farm almost every day since, which has satisfied mu that she is effectually cured. One of my neighbors is giving Tattersall's Heave Powders to a hore, and the prospect is very fattgring he will be cu-ted by it. Every farmer, we are conscious, especially every observing farmer, is aware of the above facts, but a' gentle hint, occasional y, will do no harm, even the most prudent.

The Essentials for Productive Farming. are such that every farmer ought to know and

red by it. Believing that the above named medicine is a very valuable one, and that Heaves can be cured by it, I feet 1. Good implements of husbandry, plenty of willing to lend my name in praise of it. Bespecifully, Moses P. WARNER. them which should always be kept in perfect
