A choice collection of standard Works,

At the Cheap Publications as they are is-ued, in that case you will all be murderers!

May it please the court and gentlemen of the jury; the case is as clear as ice, and sharp to the doin as not from your sweether at. The computer saith, 'Thou shalt not kill;' now, if, you hand any client, you transgress the command as slick as grease, and as plump as a goose egg in a loater's foce. Gentlemen: murder is innuclet, whether committed by twelve jurymen or by a humble individual like my client. Gentlemen: I do not deny the fact of my client's having killed a man, but is that any reason why you should do so?—

No sich thing, gentlemen. You may bring the prisoner in guilty—the hangman may do his duty
but will that exonerate you? No such thing. In that case you will all be murderers! Who sameng you is negroud for the hand of Cain to be among you is negroid for the hand of Cain to be among you is negroid for the hand of Cain to be among you is negroid for the hand of Cain to be among you is negroid for the hand of Cain to be among you is negroid for the hand of Cain to be among you is negroid for the hand of Cain to be among you is negroid for the hand of Cain to be among you is negroid for the hand of Cain to be a control of the presence and Periodical Ag't.

Caution Extra.

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses also name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla, denominating it GENUINE Crisical, etc. This Townsend is no doctor, and never was; but was formerly a worker on railroads, canals, and the 'live's Yes has the control of the c was; but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gausing credit for what he is not. This is to caution the public not to be deceived, and purchase none but the Genuino Original Old Dr. Jacob Townsend's Earsaparilla, having on it the tild Dr's. like-

OLD DOCTOR JACOB TOWNSEND, THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla! O.I.D Dr. Townsend is now about 70 years of age, and has long been known as the author and discoverer of the Genuine Original "Townsend Sarsaparilla".

Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the rales of the research to those who who has presented to those who was the presented to those who who has presented to those who who has been to the presented to the

by which means it has been kept out of market, and the sales circumseribed to those only who had proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of ears of diseases, and saved from death, proclaimed its excellence and wonderful.

Knowing, ways gears age, that he had, by his skill, science, and experience, devised an article which would be of incalcuable advantage to mankind, when once known and extensively used, he hoped and persevered, expecting the time to arrive when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has concur, the means are supplied; this GRAND AND UNEQUALLED PIRPARATION.

Is manufactured on the largest scale, and its called nerially as it is found incapable of degeneration or deterforation. Let every man ring throughout the land, that Old Dr. Jacob Townsend is now manufacturing the real Townsend Sarsaparilla, which scere sours; never ferments, and serer changes its character.

From this day forth the people shall have the Pure Gensius Townsend Sarsaparilla, which shall never sour in the bottle, or in the stomach, and it shall yet hants it from the land all Fer senting. Souring, Exploding, Vinegary Sarsaparillas, now in use. A good Sarsaparilla, pure and genuine, ought to droop and die. The Old Dr's. Sarsaparilla ough to droop and die. The Old Dr's. Sarsaparilla will, keep pure and perfect 100 years.

Saraparilla, pure and genuine, ought to live; a poor souring, slip-slop Saraparilla ought to drop und die. The Old Dr's. Saraparilla will, keep pure and perfect 100 years.

Unlike young S. P. Townsend's it improves with age, and never changes, but for the hetter; because it is prepared on scientific principles by a scientific gan. The bighest knowledge of Chemistry, and the latest discoveries of the Art have all been brought into requisition in the manufacture of the OLD Dil's SARSA. PARILLA. The Saraparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which, if retained in preparing it for use, produce fermentation and said, which is injurious to the system. Some of the properties of Sarasparilla are so ylattie, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatile principles, which dy off in vapor, or as on exhaltation, under heat, are the very executial medical properties of the root, which give to it all its value.

Any person can boil or stev the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; they can then strain this inspired or vapid inquid, sweeten with sour medasses, and then call it "Saraspanilla Extract or Syrup." But such is not the not the article known as the GENUINE OLD DR. JACOB TOWNSEND'S SARSCHUNE OLD DR. JACOB TOWNSEND'S SAR-SAPAHILLA.

This is so prepared, that all the hert properties of the Saraparilla ord are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virue is secured in a pure and concentrated form; and thus it is rendered incapable of lowing any of its volumble and healing properties. Prepared in this way, it is made the most powerful neers in the

Hence the reason why we hear commendations of several terms of the several terms of the several terms of the several We find it doing wonders in the cure of Communition Byspopata, and Liver Complaint, and in Rhommation Dyspopata, and Liver Complaint, and in Rhommation Finding, Piles, Costiveness, all Cutaneous Eruptions Finding, Biorless, and all affections arising from MURITY OF THE BLOOD. IMPURITY OF THE BLOOD.

It possesses a marvellous self-acy, in all complaints arising from indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, pelpitation of the heat, cold feet and cold bands, cold chills and but flashes over the body. It has not its equal in Colds and Cough; and promotes easy expect-ration, and gentle perspiration relaxing stricture of the lungs, throat, and every other part. But in nothing is its exectione more manifestly seen and acknowedged than to all kinds and stages of Female Complaints.

It works wonders in case of Fluor Allous or Whites.

every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues used in preparing it, and which are incapable of changes which might render them the agents of disease instead of health?

But what else should be expected from one who knows nothing comparatively of medicine or disease! It requires a person of some experience, to cook and serve up even a common decent meal, how much more important is it that the persons who manufacture medicine, designed for weak stomachs and enfechied systems, should know well the medical properties of plant, the best manner of securing and concentraling their healms virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases?

It is horrible to think, and to kniw how cruelly the afflicted are imposed upon by presumptious men for the sake of money! Fortunes made out of the agonics if the sick! and no equivalent rendered the despairing sufferers!

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom, and wight into the crushed and broken, and to hanks infigmity.

ASTROLOGY.

THE subscriber having just arrived from Sweden, offers his serrices to the citizens of

de from Sweden, offers his services to the clitrens of Philadelphia and its vicinity. That there are more things between heaven and earth heaven and earth there are more things between heaven and earth there are work than ever was dreamed of, is daily made manifest by the Astrologer, C. W. ROBACK, whose miracles approach more near those spoken of in the Scriptures, than any of later day, by his daily performance of wonders unheard of in this country; yet quite familiar are thousands in Europe who have enjoyed his confidence, among which may be mentioned Orear, the present King of Sweden, Louis Philippe, and many of the English noblitly and gentlemen of high rank, who have consulted him present King of Borear, the present King of Sweden, Louis Philippe, and many of the English noblitly and gentlemen of high rank, who have consulted him how have been gratified in livoking the powers of the wonderful science which he has inherited from his ancestors. For information of his powers to forsee the result of law-sults, and all undertakings of hazard, and advice for the restoration of stolen property, and for the speedy cure of diseases of various kinds, heretofore considered incurable by our best physicians.

He is also prepared with a quantity of his celebrated strologer's Swedish coasumtion syrup, which is pro-ucing such wonderful enres in healing ulceration of ne Lungs from Consumption. More than 10,009 patents are been satisfactorily eared in Sweden by this won-gruf remedy. Each bottle is accompanied with minute irections, and for sale at his office.

HAAS! EXPERCIPELANT.

Nov3 47

HAAS EXPECTORANT,
For the Cure of Consumption, Consus, Colds for TO THE PUBLIC.

IN PRESENTING this calculation medicine to the public as a remedy for Consumption, and Pulmonary Diseases in general, I consumption, and minediate streat success attending its use in my own immediate neighborhood, and a desire to benefit he lafflicted, I shall simply undeavor to give a brief statement of its neighbothood, and a desire to benealthe laffleted, I shall simply endeavor to give a brief statement of its Jackilness, and flatter myself that its sprinting effication will enable me to furnish such proofs of its virtues as will satisfy the most incredatous, that CONSUMPTION may and "CAN BE CURED," lifths medicine is resorted to in time. As Consumption, however is a disease which differs much in the severity of its symp. I mus, and the rapidity of its suggress, and has long haf-

by their use have had the rose, of health restored to their haggard check, and now live to speak forth the praises of this invaluable medicine.

DR. SHERMAN'S WORM LOZENGES

Have been proved in more than 400,000 cases to be infallible, in fact the only certain worm destroying medicine ever discovered. Children will cat them when they cannot be forced to take any other medicine, and the benefit derived from the administration of medicine to them in this form, is great beyond description. When the breath of the child becomes offensive, and there is picking of the nose, headyche, drowsiness, starting during sleep, disturbed dreems, sawaking with fright and screaming, troublesome cough, fever-islaness, tairst, voracious appretite, sickness of the stomach, and bloated stomach—these are among the many prominent symptoms of worms, and can be relieved by these incomparable Lozenges. They have never been known to fail.

DR. SHERMAN'S CAMPHOR LOZENGES

Relieve headache, nervous sick headache, palputation of the heart and sickness in a very few minutes.—They cure lowness of spirits, despondency, faintness, colic, spasms, cramps of the stomach, summer or howest complaints—they keep up the spirits, dispelail the distressing symptoms of a night of dissipation, and canable a person to underso great mental or bodily toil.

DR. SHERMAN'S FOOR MAN'S PLASTER

Is acknowledged by all who have ever used it to be the beststrengthening plaster in the world, and a sovereign remedy for pains and weakness in the back, loins, side, breast, neck, limbs joints, rhomatism, lumbazo, &c. One million a year will not supply the demand. Canuton is necessary, as there are many unprincipled persons who would force a spurious artiscle under the community. Be careful to get Reheman's Poor Man's Plaster, with a 'Jac simile' of his written name on the back—none others are genuine, and will do more burt than good.

The CRAND PURGATYVE.

THE GRAND PURGATIVE.

name on the back—note of theirs are genuine, and will do more hurt than good.

THE ORIGINAL AND GENUINE KIRKBRIDE'S TATTERSALL'S Heave Powders.

Heave Powders.

IT HAS cared, in the last year

1500 cases of Heaves,
2000 cases of Chronic Cough,
200 cases of Chronic Cough,
2000 cases of Horses out of Condition, and other
diseases.
More than 500 certificates, verbal and written, have
been received, attesting to the virtues of this inestimable tenmedy; but we have only space to subjoin the following:

ble remedy; but we have only space to subjoin the following:

Richland, Oswego Co., Sept. 17, 1948.

Gentlemen:—I wish to inform you that the Tattersall's Heave Powders! bought at your store last October, curred a valuable mare of mine of the Heaves, that she had had tree years. The first package did not effect a cu.c., but did the mire so much good I was induced to try another package, and the result has been, that she has not had the Heaves, since about a week after commencing the econd package, although she has been used on my farm almost every day since, which has satisfied into that she is effectually cured. One of my neighbors is giving Tattersall's Heave Cowders to a horse, and the prospect is very fluttering he will be cured by it.

Believing that the above named medicine is a very valuable one, and that Heaves can be cured by it, I feel willing to lend my name in praise of it.

Respectfully.

Spring Hill. Ala., July 29, 1848.

willing to lend my name in praise of it.

Respectfully.

Spring Jillt, Ala., July 23, 1848.

Mesars, J. F. Winter & Co.—Gentlemen.—I most cheerfully heartestimonytothe greatefficacy and virtue of the Tattersall's Heave Powders, in the cure of hurses affected with Heave Powders, in the cure of hurses affected with Heave coughs and colds. I have a valuable horse that was so severely affected with Heave and violent coughing, that I had well nigh lost hum, when I purchased a package of Tattersall's Heave Powders, which entirely cared kim and restored his apacitic. No owner of horses hould be without it.

Respectfully yours. Chas. A. Peabody.

Call Tion.—initiations and worthless compounds have followed us wherever we have introduced our remedy, and we understand that several new ones are being put up for irrellation—beware of those and take no remedy but "the Tattersall's."

of the grubs that they threw up young sprouts in great professions, but the sheep kept their topse can stantly respect off; not one excepted them. The stantly cropped off; not one except recollect the time occupied in cutting and piling the brush, though the work was done with great facility with the implement I used for the purpose -a brush hook."

Thousing Manure.-That manure exposed to rains and the scorching rays of the sun, must-less a portion of its enriching qualities, no reflect-ing mind can doubt. Ashes exposed to the was-ther, become leached after a few soaking rains, and ther, become leached after a few sosking rains, and are nearly worthless for their alkaline qualities. Although menure probably does not waste in the same ratio, yet that it does waste, any person must be satisfied who has observed the drainings of hismanure heeps and yard ofter a rain, the water being nearly black with the most valuable part leached from the manure. Add to this, the color imparted to the enow, in the spring from manure heeps, often being stoined with the drainings for a number of rode, and who con doubt but that much of the soluble part of the manure has escaped.

Not long since, to conversation with an observa-

Not long since, in conversation with an observ-ing farmer upon this subject, he remarked that manuse exposed to the weather and leached by every rain, was not worth more that half what it' would have been had it been housed; and in confirmation of the correctness of his theory, stated? that last epring he manured a piece of corn in the hill with the same kind of manure; only a parthad been housed, and the other exposed to the weather, and the difference in the growth was such as to eatisfy him that there was double the value in the housed manure that there was in the other.-Admitting this statement to be correct, or evenallowing it to be exaggerated one half, which I de-not think is the case, would not farmers soon cave-

enough, by howing their manure heaps, to pay the expenses of a shed for the purpose? experience of a shed for the purpose?

They would find it very convenient, when their maners heaps were removed, to shelter cattle, besides affording an excellent place to had in form, muck, &c., to lay through the winter and absorbthe liquid partir which would otherwise escape. Try it, brother furmers, and see if your farms-do not soon give you credit for good economy.

THow to Mike a Horse Sure-footed .- A singular account of the manners of the ancientain the matter of breaking in their horses and render. the matter of breaking in their horses and rendering them sure-footed when galloping over themost irregular and dangerous grounds, is related by Vegetius. The Parthum horses were lighter and hardier than those of the Espadbolans or Meder, and were the best war horses. A spot off dry level ground was selected, on which warious troughs or boxes, filled with chalk or clay, were placed at irregular distances, and with methy is regularity of surface and of highly regularity of surface and of height. Here the horses were taken for exercise, and they had many a fall as they gailoped this strangely uneven co but they gradually learned to lift their feet higher out they gradually tearned to lift their feet higher and to bend their knees better, and to step some-times shorter and sometimes longer, as the ground required, until they could carry their riders with case and safety over the most irregular and dangerous places. Then it was that the Parthians gerous piaces. Then it was that the Parthians could fully put into practice their favorite manouver, and turn upon and destroy their disuspecting foes. They were as formidable in flight as in attack, and would often turn on the back of the animal and pour on their pursuers a cloud of ar-rows that at once changed the fortune of the day.

Foundered Horses .- Although . s yast num'er of "cer'aian cures" exist for founder in horses, very little seems to be known of the nature of the malady, and nearly aff the remedies proposed are these suggested merely by empyticism. The symptoms of founder are decidedly influences. of ite malacy, and nearly all the remedies proposed are these suggested merely by empyricism. The synatoms of founder are decidedly influmnatory, resembling inflammatory rheumatism in human beings. The treatment, therefore, should be simed at the removal of this condition of things. It should be
