## LOW FARES ON RAILROADS.

The experiments recently made, establish beyond chusetts has created an immense amount of travel, and greatly added to the profits. New York

A circlul survey of the market in every direcis directing her earnest attention to the subject .-Would it not be well for those who have the control of the Reading and Pottsville Road, to take these facts into consideration, and govern themselves accordingly.

POPULATION OF THE WORLD.

The last estimate of the po	pulation
world is as follows:	
Asia, Enrope,	555,000 235,00
Africa, America, Oceanica,	110,0% 50,00 20,00
Of this number there are:-	
Hoathen Mahometans, Jews, Roman Catholics,	600,00 140,00 10,00 130,00
Greek Church,	\$5,00 65,00

By the above table it appears, that out of a population of a thousand millions, the Christians can claim but one-fifth of that inconceivable num

In the last number, of the Germantown Tele-graph is a letter from D. H. Mulvany of Nor-

of the port of Philadelphia, has resigned his Borough, and in pamphlet form.

thout delay.

The only legitimate regulator of prices is the elation between demand and supply, with some reference also, of course to the cost of protection The experiments recently made, establish beyond doubt that low fares secure large profits. In our red a-h Coal, delivered in Boat or Car at Mount own vicinity this truth is not sufficiently known or appreciated; and a reform would be attended with great advantages both to the public and the Railroad Companies. One of the Railroads in Section is mentioned as charging only half a cent per mile. The reduction of rates in Massathurshes are twenty-fire cents less. It is only what it brings beyond these forms the control of the

tion enables us to say with confidence, that all the Coal which can be forwarded from the different regions in 1849, will be required for consumption; so that none need envy his neighbor's market, nor suffer any one's blindness or necessities to

shall be the only branch of industry that is to re-

The Schuvlkill Coal Mines produced 1,714 365 Lehigh, Delaware and Hudson, Wyoming and Shamokin, 256.627 Total product of 1848, There was an overstock from '47 (over

Hon. Wm. Donaldson, on fands owned by him-self. There was at that time but one house, or

self. There was at that time but one house, or shanty, rether, on the site of its present location, which is the very centre of the Coal Barin, the Broad Mountain laying on the North, and the Bry and Little Licks, on the South side of it.

The Lots were all sold, at what was then considered fair prices, in an incredible short space of time; upon nearly ell of which, in less than twelve months, were erected good and substantial dwellogs. The next year the town plot was considerably enlarged; and the year efter, still another addition was made, in consequence of the increased demand for Lots. In the fell of 1846, I think, the Swatara Coal Land Co., whose lands sulprined on the East of the town, seeing the enterprize of the people, and the rapid improvements that we have a being retained to the benefit of the human family. If all men were trious for themselves, how different would the state of society be from that in which we now find it.—

I think, the Swatara Coal Land Co., whose lands adjoined on the East of the town, seeing the enterprize of the people, and the rapid improvements that we have a beinger without them he was doomed to live in obscurity. Poets, Painters and Scolptors were Cpar-LIME.

In the last number, of the Germantown Telegraph is all letter from D. H. Mulvany of Noristown, on the subject of lime and lime barning, passasing considerable interest. According to his account, the annual quantity of lime burnt in Montgomery and Philadelphia counties, the former county yields all the stone) amounts to 4,00,000 bushels; of which one-fourth is wood, burnt and three-fourths coal-burnt. The annual value at the kilos is nearly half a million of ollars. It costs & centre ye though more to the mild coal; but coal-burnt lime has, among brick masons and platerers, the objections that it does not slake perfectly when made into morter and ests too quickly. It does very welf foatone work. The devideration is, some process of burning with coal which shall produce lime of a similar quality to the wood-burnt. Mr. Molvany proposes, and promises the experimental trial of a supply of steam to modify the day that of the wood-burnt. Mr. Molvany proposes, and promises the experimental trial of a supply of steam to modify the day that of the coal and make it resemble the moist heat of wood and make it

A very full meeting of the Coal Operators of this Region, held at the American House. Pottswille, on Friday last, was organized by the appointment of MARTIN WEAVER, Eq., es
Chairman, and Jos. G. Lawton and C. M. Hill,
Secretaries.

aware, no complaint or opposition was made by any of the inhabitants; yet the newly elected sideration of the meeting, which was read, alopted, and ordered to be printed in the papers of the Borough, and in pamphete form.

BUBSTANCE OF THE REPORT.

The people of Schuylkill county have been brought to the verge of bankruptcy by a bold and novel system that was practiced last year, and is again introduced this aprina.

Some speculative persons enter the Bastern markets in edvance or miners, and by offering any Coal (which they have not yet hought) at prices below what it coats us to produce at, they secure at! the orders for immediate delivery.

The nature of mining requires that the daily product shall have an uninterrupted sale and reversal from the mines.

Having thus all the orders in their hands, these forestallers avail themselves of this peculiarity in one of the agreement to suspend shall not be brokened to the spraing that the signatures of the subscribers. Continued the spraing of the trade, which was adopted.

An of School Directure, feeling vais of their acquired honors. (I suppose) have determined to uppose our meetings. They have closed both to uppose our meetings. They have closed both

hearty or quite exhausted. This course will insure a maintenance of the prices for the whole scason—and next winter it is presumed a more callightened and libetachers of our sabbath school were forbidden to enter the school house that day in order to get out their bibles, testament, &c. used in the

tion: so that none need envy his neighbor's market, nor suffer any one's blindness or necessities to regulate him in the matter of prices.

We start this Spring with a market unusually bare of stock. Every department of trade and manufacture is being revived, and money is correspondingly abundant. The established order of things must be reversed, if the Coal trade, upon which all others have more or less dependence, where the most of the said out in A. D. 1845, by the have exceeded their authority; the trustees not having been consulted.

Joseph H. Wythes.

If you have the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, and for the possession of the said school house, accompanied with the same threat of discharge. creased prices, thes obtained, would infease life into the business again,—but that would be the work of time—causing great fluctuations in the trade, without any corresponding benefit to either producer or consumer. The disasters of last year alone have, we firmly believe, reduced the power of producing below the requirements of the market. for the present year—the trade is therefo.e in the hands of the producers—and so long as they demand no more than fair rates, they are right—and our whole community ought to unite also in sustaining them in the course they have adopted.

Several Operators have a lieady been offered the prizes designated, but they deem it more prudent to cease shipping with the others, and not throw any more continued the market. With the store at the content of the accuracy of the Map, they having the fullest official and their original information, from original toformation, from original sources, with the content of time.

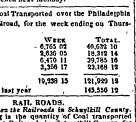

Ed. and other information, from original tobles of the Coal produce &c. will be introduced. &c. will be introduced &c. w

>
> It may be an well to state that the Miners and Laborers, so far as we can learn, approve of the course adopted by the operators. They consider it better to submit to the privations which last year's business forced upon

them, for three weeks longer, in order to receive fur wages for the halance of the year. The operators, on the other hand, whenever they have it in their power, ought to, and we know they will, extend all the aid in their power in relieving the pressing necessities of their hands, in holding out also. The Navigation Company have given notice that the Canal will be opened next Monday

AFFLICTED READ.

A VOICE FROM SCHUYLKHILL CO.
PLEASE READ THIS EXTRAORDINARY.

CURL,
DR: SWAYNE... Dear Sir:... About six years ago, I discovered that my lungs were affected, of which i became more convinced from time to time, although I tried many remedies, yet without any spinern betteff, and any disease increased until I was compelled to keep my room, and at last my bed. I had great pain in my left side, upon which I could not lay in bed, and in the morning my cough was so severe that I found it very painful to throw up the phien which gathered in great quantities on my lungs, when fortunately I bought of your agent, in this place, one bottle of your Compound Syrup of Wild Cherry, which so much relieved me that I continued using it until now. I have used six bottles, and an happy to tell you that my pains are removed, my strength returned, my sleep is undisturbed and sweet, and I feel perfectly well. I can now follow my daily avocation without being afflicted with that painful lacking, weakening cough, and I firmly believe that to your medicine, under the biessings of Providence, I am indebted for this great change, and am very happy to subscribe myself.

ANOTHER FROM OLD MONTGOMERY
STILL ANOTHER WONDERFUL CURE:

BAD THIS EXTAGONIARY CASE.

Da. SWAYNE—Dear Sir—Having contracted a severe coild, which settled upon my lungs, attended with a violent cough, pain in my side and breast, difficulty of breathing, I was attended by physicians of the first respectability, but my symptoms became very alarming, there was an abscess formed in my lungs and made its way through my side, and discharged large quantities of puss externally, so that my physician thought the power or functions of one of my lungs were tetally destroyed—therefore supposed the case entirely inspecies. This mournful state of things continued for a long time, until I was wasted and worn to a skeleton. I had tried a number of remedies, but all failed to do any good. But there still being a spark of hope left for me and my anxious parents, and having heard of the great virtues of your Compound Syrup of Wild Cherry, and its being approved of by physicians of the first eminence, T concluded to make trial of II, and to my great satisfaction, my cough gradually grew better, the bole in my side began to heal, and I amnow happy to say, from a poor and almost hopeless skelefon, I have known healthy and weigh more than I ever have. All my neighbors can testify to the above fact. Askana Huskrær, 2 miles from Skippackville, Skippack to. Pa.
