FIRE! FIRE! FIRE!

THE old adage, "take time by the forelock" commends itself to every one by its plain common sense; and, when built winds of autumn begin to blow, giving notice of the approachof winter, every prudent man will at once make provision against cold weather. *Knowing* that the people of Pottsville have a prudent regard for comfort, convenience, and economy, LONG & JACKSON have just started their new store in Centre street, opposite Trinity church, with a fine assortment of PARLOR AND COOKING STOVES, among which will be found all the old and approved styles, and a number of new ones adapted particularly to the wants of the Coal Region. We have the pleasure of introducing to this neighborhood

PIERCE'S AMERICAN AIR TIGHT COOKING STOVE, WITH BRICK TOP OVEN.

This stove, which is of recent invention, bids fair to defy and supercede every other kind now in use. During the past year it has grown into public favor with unprecedented rapidity. Also,

STEWART'S SUMMER AND WINTER AIR TIGHT COOKING STOVE.

This stove, which is equally adapted to wood or coal, has received either medals at the fairs of the American Institute, New York; of the Mechanics' Institute, Boston; of the Franklin Institute, Philadelphia; and of the Mechanics' Institute, Wilmington, Delaware. A number of their stoves are now in operation in this region, and have given entire satisfaction.

Call and examine our assortment of parlor and chamber stoves; they are of all sorts, sizes and prices.

A large and splendid assortment of *Sheet Iron, Tin, and Japanned Ware* kept constantly on hand.

TIN ROOFING and all work connected with the business executed with neatness and despatch, and at the most reasonable prices LONG & JACKSON.

THE BUCKS COUNTY ECONOMIST
PATENT AIR-TIGHT COOKING STOVE.
The Greatest Improvement of the Day!

THE subscriber respectfully informs the public that he has recently secured the patent right for Schuylkill County, for the manufacture and sale of the new and admirable Cooking stove called the BUCKS COUNTY ECONOMIST.

Among the many improvements lately introduced in Cooking Stoves, it is acknowledged on all hands, that nothing can surpass this in all the points requisite and desirable in that necessary article of household economy. *The facility* with which it is regulated, the regularity of *perfection* and *despatch* with which cookery and baking can be done at one and the same time, and the small quantity of fuel consumed, are matters of surprise to all who have tried it, and gives it the first rank among all the stoves yet introduced. It is unnecessary, however, to specify its peculiar facilities in addition to a personal examination of its features will best satisfy those who may wish to make purchases; and it will afford the undersigned much pleasure to receive calls, and satisfy all inquiries with respect to its capacities and performances. The store will be put up for thirty days, and if found not to meet the expectations of buyers, or to perform as represented, it will be taken away without charge. There are three sizes—Nos. 1, 2 and 3—and constructed to burn either wood or coal. Call and examine specimens, now ready at the stove and sheet iron ware manufactory of the subscriber, in Centre Street, two doors above the Public Schools—where, also, any thing in his line of business may be had on accommodating terms.
