WE SHOULD BE PEEASED with an interview with "C. J. D." before the publish his Communica-

WHIG STATE CONVENTION. The Whigs of this State will hold their State gin, having nothing but their industry and per- take occasion, now and then, to allude to this Convention, for the purpose of nominating a Candidate for Canal Commissioner, at Harrisburg, on the 16th of August next. It is time, therefore, of honor. Numerous, indeed, are these cases; and that the whigs of this State in connection with any young man, when poverty stricken and surthose people who desire to perpetuate Whig rule, rounded by difficulties, should never despair of and stand by the men whom they have placed in becoming elevated in the world, if he is posses is moving slowly but surely onward, to take ev power, to move in the matter. The Press in nu-sed of proper ambition and perseverance. Diffimerous sections of the State are busily engaged in culties if piled up mountain high-Pelion on fearful a ravage of this epidemic. Our streets, discussing the merits of their respective friends, Ossa—may be overcome, and in the history of especially those in the suberbs of the Borough; some of the statesman of our country, we have a should undergo a thorough cleansing, as it is a themselves as to the man of their choice. This, true exemplification of this fiet. Witness Hen- fact that the Cholera most generally originates in themselves at present, will be attended to in time. And the second content to the property of the second content to the property of the property o After the nomination shall have been made, we desire to see an aroused spirit among the Whigs

as ten per cent. As factories can now be erected by companies, in accordance with the General Manufacturing Law passed at the late Legislature, occurred in our country, within a very short we hope soon to see factories of this kind put up period. The New York riot, a row occain Pottsville, than which very few places possess sioned by the rivalry of two mere play actors, in more superior advantages. The Stock is put at a which 23 persons were killed and a large number reasonable sum, to which, all who desire, can sub- wounded; the increase of the crevasse in the reasonable sum, to which, all who desire, can sub. wounded; the increase of the crevasse in the scribe—including the operatives, who, when posterior of them, would take an that much afflicted city is inundated—so much sary near the shoulder joint. The operation was equal interest in the establishment with the man so that persons are compelled to seek shelter else- performed by Doctors AlcKibben and Halberwho is possessed of larger number of shares where; the recent fire in St. Louis, which has stadt, and we believe the ad is doing well. There are other advantages to be derived: it would been the cause of the less of millions of dollars employ large numbers of hands, including boys, who now are idle, as well as girls, of a proper age of numerous other fires, causing losses of tens of the exception of yesterday, has been really eplendid, benefitting those living at a distance from Potts-ville, make Pottsville a greater mart, &c. With these things in view, we see no reason why per sons should hesitate in the work. We possess all sons should hesitate in the work. We possess all sons should hesitate in the work. We possess all sons a should hesitate in the work. We possess all sons should hesitate in the work. We possess all sons should hesitate in the work. We possess all sons should hesitate in the work. We possess all sons should hesitate in the work in the state of the steam of the employ large numbers of hands, including boys, and deprived many persons of their homes; while can be found anywhere, and with these things looking into our face, if other towns succeed in getting shead of this, it will be because the citizens of Pottsville did not desire to make the effort.

EXPLOSION OF STEAM BOILERS.

Mr. Burke, late Commissioner of Patents, in his report on this subject, attributes the bursting of steam boilers mainly to the use of cast iron boiler-heads, and the absence of such guards as inventive genius has furnished. It is more than twenty years since the Government of France every other town in the vicinity suffered from it passed a law prohibiting the use of cast iron boil severely. This has been attributed, and no doubt cr-hi ade, after some destructive explosions from this correctly, to the free and universal use of quickcause; yet our Government has neglected to fol- lime, fresh from the kilns, which was scattered supposed to have been the work of an incondiary. low its example. From the report it appears that, through the gutters, cellars, privies and yards. Its within the past twenty years, there have been kill disinfection properties seizing with avidity on all led by explosion in this country, 926 persons, and impure any deleterious gases are well known, and 298 wounded, many of them have been made crip- where plentifully used, will no doubt, under ordi-

> > BLAST FURNACES.

The construction of Blest Purnaces is an expensive undertaking. Anthracite Purnaces, in come instances, cost upwards of \$5,000, while Charcost furnaces cost \$25 or 30,000, which, to Suyder, was so severely cut in the hed with a persons unocquainted with the business appears Such, we fear, will be the fate of the Maygars, if cal situation. The police were in search of the first glance. Small charcoal furneces are neuccessful; and Russia, in taking arms against offenderson Thursday, and succeeded in the built and put in operation, with all their machinery that country is prompted by the same motive that night in arresting one of the rioters, whose name at an expense sometimes not exceeding \$10,000 or \$12,000; but this must be on water power furnished at little cost for dam, and race-way, and with the strictest economy in the amount and quality of the machinery for the blast, and in the general character of all the work. Such furnaces can hardly be depended upon for a long time, still from the contingencies of the business, it is often the meat judicious plan to construct such.

The following estimate comprises the ordinary essential items connected with building a furnace for charconl, and about the range of their cost. Furnace-stack and foundation \$1,000 to \$3,000

300 " 200 " Castings (including 20 000 lts. hot air pipes) at 4 cts, per lb 600 " Coal sheds 1.500 " 3,000 Workmen's houses Agent's house 2 000 1,000 Out houses, stables, etc. 800 " 1,500

\$13,400 to 23,850 If kilns are saded for charring wood, their cost will be from \$700 to \$1000 each.

All Sorts of Items.

I is said that an editor at the South has
