FOR THE CHOLERA.

The abovn named medicine was discovered in 1822,
at the hospital in the City of Berlin, by Dr. C. W.

HIFELAND, the Royal President of the Royal Medicial Society, and I now introduce this infallible medicine for the public safety, from the scourge that now threatens our city and vicinity, by appointing J. RuoGLES, of Broad street, above Vine, my sole and exclusive Agent, where the genuine medicine may always be found, and at no other place. It is the only preventive that the public can rely upon with safety. It has saved the lives of millions of people in the city of Berlin, and its vicinity. I have not only used this preparation in my practice in Europe, but In America also, and always found the same beneficial effects resulting.
