POTTSVILLE. SATURDAY, JULY 21, 1840.

A writer in the last Locoloco Paper of t his Borough, is anxious to drop politics in this county, this Fall, and elect talented members to the Legis-

lature, or in other words, the writer desires to be elected himself. Now when we state that the person who concocted that article, is a rank Pres Trade Locoford of the deepest dye, and of the most unscrupulous character, utterly opposed to the Protective Policy, the object of his advice is easily fathomed. We had talented members in the last Legisla

ture from Schuylkill county, and who did more for our county and State than the whole brood of Locofocos that have represented the county for the last twenty years-and their talents were directed effectually too against all unnecessary Corporations in Schuylkill county. They sucenv, in which, if we are not misinformed, the writer of that article was deeply interested.

The assertion that our Region cannot compet with the other Coal Regions, is all humbug-it is a slander upon the county,-an outrage upon the interests and investments in this Region- and the writer and publisher had better emigrate at once old, and has borne his kind and considerate mas to those more favored and happy spots he speaks of.

soon as the Protective Policy is restored, but no before,-that's certain,-because no Capitalist i fool enough to invest in any new improvement of that character in the present state of business is this country.

The Iron business, which is not located Schuylkill county-the Manufacturing business, which is not located in Schuylkill county -and all other interests are effected similarly to the Coal Trade;-it is the destruction of those interests abroad, that is destroying us here, and to attribute all our difficulties to the prices charged by the attention from the real cause of our suffering.

TRev. Theobold Matthew has commenced his work in Brooklyn. On Sunday he celebrated big as a hay tack ! high mass in Rev. Mr. Schueller's Church, before a crowded congregation, and afterwards adminisor three days with him, proceeded to Albany, Boston, &c.

Growth of Minesola .- The Minesota pa pers report the rapid progress of population in that territory. Lots at St. Paul, the capital, which were the other day considered quite remote are now right in town. More than seventy buildings, it is said, were 'crected there during the three weeks previous to the 1st inst.

Before setting out, under full sail, in this epis tle. I ought to have an "understanding"-a sort of hands shaking-with the reader: inasmuch as a considerable period has clapsed since I last had the pleasure of his or her sudience through the columns of this paper. Although now standing to the Journal in the relation of a mere out sider, I still hope to be recognized as an old friend, who, albeit having little claim to the affectionate remembranco of the public, nevertheless cherisbes true and steadfast! When other friends desert the warmest sentiments of regard for that portion you, he is than ! The will rejoice with youwith whom it has hitherto been his fortune to fight for you -die for you! communicate. "Absence cannot conquer love." I can therefore appreciate-perhaps, better aps My heart is among the mo bold precipices, the sharp peaks and crags of tachment of Gen. Taylor for his faithful charger. My sympathies, glaring magnificence of the Presidental mansion, tham of its native anthracite! My sympathies, too, always were with her honest Toilers, and from the peculiar circumstances which, for a year or more past, have surrounded the caterprizing of the Coal Regions, I have felt nothing but the sincerest grief at their accumulated missiently induge his great love for the war-hores fortunes. It is an old saying, and a true one, fortunes. It is an old saying, and a true one, of Buena Vista. I say it was noble-don't you! that "troubles never come single handed" - but in battallions and regiments, armed for the most potent resistance. It is clear, as has been exhibited time after time, that the present Tariff is exceedingly hostile to the prosperity of the Coal Interests of Pennsylvania; and, by referring back to the time it went into operation, the whole series borhood and the surrounding country is now of evils that have fastened upon the trade, and swarming with locusts. The woods, or chards and other branches of business associated with it, can the standard st other branches of business associated with it, can be clearly identified as flowing out spontaneously from the practical workings of that law. And as the people of the Coal districts confided in Gen.

Great injury is done to the fruit trees in this way. I planted a new orchard last spring; the trees flourished finely till within two or three discovered. disappointed. General Taylor (let me whisper in the the ears of the Coal-bespattered workers of Schuylkill,) is a decided Turiff man; and being one of the plainest, most unpretending and honest citizens of the Republic, he loves, with his whole soul, to see the laborer get a proper reward

He takes a great interest in Agricultural affairs, paper is an account of a cure, unlike any we have as they are pursued in the North, and it is his intention, the coming Autumn, to travel through the tention, the coming Autumn, to travel through the great Farming and Manufacturing districts of Sie nevertheless, continued to sink till toward the free States, that he may thoroughly understand night, when the husband returned very much inthe people, and their respective wents, and be toxicated. I will say a few words concerning old Whitey. He is a most remarkable animal. His eyes, his clean limbs, sinews and muscles-his gentleness, are unequalled. He is now over seventeen years ter through many a bloody struggle and fatiguing wounds, which he carries with him as very honorable mementos of his past bravery and fidelity. He is the greatest "hoss," without doubt, that ever "stood up to the rack-(fodder or no fodder)" in the Presidential Stables. When Whitey had approached within about eighty miles of this city, cause of the cholera, so fatal in Camden, N. J., is consigned to the care of Col. This injunction was "religiously" observed.

There is, indeed, something beautiful in the pirit which dispenses kindness to the domestic nimals. \$1,112 00 B. F. KETNER, Trea July 14, 1849. Dyspepsia and Genaral DEBILITY CURED BY THE OXYGENATED

BITTERS.

IN ALL CASES of Indigestion and derangement of the storage by

IN ALI. CASES of Indigestion and derangement of the stomach, this medicine speedily restores the digestive organs to their natural healthy state, thus attempthening the whole system. Hence it is an excellent preventive of epidexnic diseases, for persons in a weak and debilitated condition; at the present time every such person ought to have it.

But no medicine is more highly recommended for Dyarprata, in all its forms, such as headache, hearthurp, costiveness, and stomach, lose of appetite, pain in the stomach, debility, and also, asthma attended with derangement of the stomach.

The following is from a most eminent Chemist.

The medicinal articles used in the preparation of the Bitters, are those prescribed by the most eminent phycicians for the chef from, and cure of, the diseases for which gases Bitters have been so successfuly used. The combining of them is in accordance with chemical rules, securing the edicacy of each; and the compound seems to have resulted from extended observations in medical practice.

Respectfully,

A. A. HAYES, M. D.,

State Assayer, Lowell, Mass.

FROM THE GOLD REGIONS.

News has been received from the Gold Region. Gold appears to be as abundant as ever. At Valphraiso on the 30th of May, considerable excitement was occasioned by the report that the abundance of

gold in California still continued. A disease, similarly to the Cholera, has made its appearance in Panama. An immore option of the Solicitor, he declared noull and word; or he may, if he shall choose to do so, te-self the property, and require such bidder to pay the difference between the sun actually realized therefor and the price offered in his bid.

11. In all cases where fraud shall have been precised against the United States the Solicitor may, before executing the conveyance, declare the bid invalid, and of no effect.
