What ground had you for interference,

WESTERN ETIQUETTE.

Our Yankee traveller who saw the live hoo-ier, has agig written to his mother:

"Western people go their death on cliquette. You can't tell a man here that he lies, as you can down east, without fighting. A few days ago a can aman wastelling two of his neighbors in my hearing a pretty large story.

Says I, Stranger that's whapper?

Says Ie, Stranger that's whapper?

Says he, 'Loy there, stranger!'

And in a twinkling of an eye I found myself in the ditch, a perfect quadruped, the worse for wear and tear. Upon another occasion, says I to a man I never saw before, as a woman passed, 'That isn't a specimen of your western women is it?

Says he, 'You are afraid of the favor and sgue, stranger, ain't you?'

'Very much,' says I.

'Well,' replied he, 'that lady is my wife, and if you don't spologies, in two minutes, by the honor of a gentlemang I swear that these two pistols, (which he held cocked in his hand) shall cure you of that disorder cinities]—so don't fear stranger!'

So I knelt down and politely spologiesed. I admine this western country much; but curse me if I can stand so much etiquetic; it slways takes me unawarea.'—Chicago Democrat.

A manby the name of CLAPP has engaged with a young man of the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and user his name to put up a Sarsaparila, which they cail Dr. Townsend's Sarsaparilla, denominating it GENUINE Grigicals etc. This Townsend is no doctor, and never was; but was formerly a worker on railreads, canals, and the tike, Yet he assumes the title of Dr., for the purpose of gaming credit for what he is no. This is to caution the public not to be deceived, and purchase none but the Genuine Original Old Dr. Jacob Townsend's darsaparilla, having on it the tild Dr's, likeness, his family coat of arms, and his signature across the coat of arms.

Knowing, many years ago, that he had, by his skill,
science, and experience, devised an article which would
be of incipicable advantage to mankind, when once
known and extensively used, he hoped and correvered, expecting the time to artice when the means would
be furnished to bring it into universal notice, when
its inextimable virtues would be known and appreciated. This time has come, the means are supplied; this

Let every man ring throughout the land, that Old Br. Jacob Townsend is now manufacturing the real Townsend Rarsaparilla, which never spurs, never fements, and never charget its character.

From this day forth the people shall have the Park Gennias Townsend Sarsaparilla, which shall never sour in the bottle, or in the stomach, and it shall yet same in the bottle, or in the stomach, and it shall yet banish from the land al Fernenting, Youring, Exploding, Vinegary Sarsaparillas, now in use. Unlike young S. P. Townsend's it improves with age, and never changes, but for the better; because it is preparted on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest is preparted on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest site of the Art have all been brought later regulation in the manufacture of the OLD DR's. SARSA-PARILLA. The Sarsaparilla not, it is well known to medical men, contains many medicinal properties, and some properties which are linet or useless, and others, which, if retained in preparing it for use, produce fermentation and seid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhaltation, under heat, are the very existation facile properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is mano from the coloring matter in the root than from anything else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "darsaparilla Extract, or Syrup." But such is not the article known as the GENUINE OLD DR. JACOB TOWNSEND'S SAR-BAPARILIA.

This is no prepared, that all the inert properties of

This is so prepared, that all the liner properties of the Sarasparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and eoncentrate form; and thus it is rendered incapable of losing any of its volumble nd healing properties. Prepared in this way, it i

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of Consumption, Dyspresa, and Liver Complaint, and in Rhemarism, Strofula, Pilea, Continences, all Cutaneous Eruptions, Plimbles, Blotches, and all affections arising from Printing and Liver Complaints arising from indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, polypratum of the heart, cold feet and cold shands, cold chills and hot finahes over the body. It has not its equal in Colds and Couchs; and promotes easy expectoration, and gentile perspiration relaxing stricture of the lungs, thricat, and every other part. But in nothing is its excellence more manifestly even and acknowedged than in all kinds and stages of Female Complaints.

AN INALIABLE MEDICAR—We have frequently bard of the Celebrated Garman Bitters, manufactored by Dr. Hoofand, spoken of in terms of commendation, and we know deservedly so. It is a too common practicle, in certain quarters, to puff all manner of escless trash, but in the case of the above litters, bundered are living winesses of their reical moral and physical worth. As a medicine for the Liver Complaint, Joundice, Nervous Debility and Dyspepsia, and in taste and surell, and can be administered under any circumstances, to tho nost delicate stomach laded, they can be used by all persons with the most perfect safety. It would be well for those who are spoonful or less, and gradually increase. We speak from experience, and are of course, a proper judge. TO TREAT REACH TREES. The Peach Trees are only of a few years duration now, after which they wither and die. It has been suggested that grube are the cause of this early decay and that they can be destroyed. by removing the ground at "und the root of the tree and adding wood cabes or newly burnt lime, which should be left till fall and then de removed so that the frost can get to them.
