Mrs. ATTREE, the wife of Wm H. Attree, Eaq. was given up by Dr. Sewal of Washington, Drs. Roc and McClellan of Philadelphia, and Dr. Mott of New York. Her friends all thought she must die. She had every appearance of being in consumption, and was so pronounced by her physicians—Sherman's Balsam was given and it cured her.

Rev. HENRY JONES, 108, Eighih avenue, was cured of cough and catarrhal affection of 50 years standing. The first dose gave him more relief than all the other medicine he had ever taken. Dr. L. J. Beals, 19, Delancy street, gave it to a sistor-in-law who was laboring under Consumption, and to another sorely afflicted with the Asthma. As S. P. Townsend is no doctor, and never was, is no chemist, no pharmoceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a zenuline scientific medicine, containing all the virtues used in preparing it, and which are incapable of changes which might render them the agents of disease instead of health?

But what else should be expected from one who knows nothing comparatively of medicine or disease: It requires a person of some experience, to cook and serve up even a common decent meal, how much more important is that the persons who manufacture medicine, designed for weak somachs and enfeebled systems, should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the vatems should know well the medical properties of plants, the best manner of securing and concentrating their the best manner of securing and concentrating their healing virtues, nleoan extensive knowledge of the various diseases which affect the human system, and he how to adapt remedies to these diseases!

It is fourthle to think, and to know how cruelly the sake of money! Fortunes made out of the aganics of the sick! and no equivalent rendered the despairing sufferent!

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the dead in the crushed and broken, and to banish infirminy, that Old Dr. Jroob Townsend has sought and found he opportunity and means to bring his Grand Dinversity and thus to have the unpurchasable satisfaction of having raised thousands and millions from the bed of the state of this County, John Q.
