Some of you can remember as far back as 1833, when even our Government was so completely involved, that when our Envoy who was despaiched to Europe, to negotiate a loan, was treated with contempt. fixed upon the Presidency, he swallowed th guilded pil, presented to him by Southern Na-bobs, and crushed by his vote the prosperity of his native State for years. May his name be harded down to posterity, with that of the tories and traitors of the Revolution, and may every hon-est man teach his children the name of the man with wold the assessment of the Kerystone State

who sold the prosperity of the Keystone State to Southern nullifiers and demagogues!

The deed was done, and the glorious old Commonwealth, once more felt the band of oppression. Her workshops, once more were silent, and the fire of her Furnaces and her Rolling Muls, once more went out—the grass once more covered the streets, where in former times thousands were to be seen engaged in some honest and useful employment. A silencelike that of the grave reign triumphant. Store Orders could then be seen if the hands of the Miner's wife, and in the hand of the laborer, and tears could then be seen if their humble dwellings, where once smiles only were to be seen. The great leaders of the Loco foco party, then came out strongly in favor of the Tariff of 1842, and declared that it was a favoris measure with their party for years, and even as late as the companies of 1848—some of their orators had the impudence to stand before the citizens of this County, and argued that the

Whigs were not half as strong protectionists, as were the present Lacofoco leaders in this county! But the sophistry of Oily Gammon' could not deceive the people of this county, and Lewis Cass, was dismissed amidst much "notes and con-Gass, was dismissed amust much holes and con-fusion," and Geo. Zechary Taylor elected Chief Magistrate of this Republic.

Taylor was elected because he said he would carry out the wishes of the people! It was not the military glory, which surrounded the Old man, that influenced his election, it was because

Bers Sir: Trusting to your known impartiality as the editor of the Atisers! Jesu and, we hope that you will give the following a place in your valuable paper.

Last week's Emperium gave a statement of an affair between Theodore R Johnson and John Lewis, with other young men of the town of St Clair, which at the best was far from being the truth. The Emperium states that on the evening of the lith of July, a party of young men, with tina, horns, pane and horse Addins, assembled before the dwelling of Mr. TR Johnson, and commenced a dreadful miles, which they continued till three of clock the next (Sunday) morning, notwith standing that Mr Johnston was so liberal as to offer five dollars for the discontinuance of the said annuyance.

The facts of the case are these: On the evening of the 14th of July, a few young men arisembled, according to custom, (at least in this place), and commenced a wedding serenade, with diversinatiuments of music ling to custom, (at least in this place), and commenced a wedding serenade, with diversinatiuments of music ling to custom, (at least in this place), and commenced a wedding serenade, with diversinatiuments of music ling to the fact to the offer made by Mi.
