SATURDAY, DECEMBER 15, 1849. PROTECTION TO AMERICAN INDUSTRY—

A subscription paper his been placed at this office for the purpose of receiving subscriptions to defray the expenses of circulating. Petitions to defray the expenses of circulating. Petitions to be ordered at this office of the present British Tariff, and substituting in its stead a Bill-for the protection of American Industry. A small contribution from the fields of Protection will answer this nursees. It has been suggested that the most effectual way in procuring signatures, would be to employ a person or person, to tist all the Collieries and Lowns, &c. &c. in this county. If the people desire—Frotection they must petition for it.

Petitions to Congress have been printed, and can be obtained at this office.

THE UNION OF THE STATES.

The newspapers are now so full of discussions in which it he integrity of the Union is involved, as a question to be considered; that it may be well to remind the agitators who are fond of speculating upon the probabilities of such an event, that the thing is utterly impossible. It might save a great deal of bold aslk and bluster if this fact were always kept in mind.

Upon this subject the Baltimere American truly remarks, that so long as threats of disunion are likely to create alarm in the public mind, so long will they be resorted to for political effect. But let it once be understood that such threats are idle, and that those who indulge in them are in a fair way to make themselves ridiculous; that the unity of this Republic is a primary fact from which our whole political system takes its character and pursues its destiny; that the continuance of such unity is a postulate, not to be argued about, not requiring proof, not admitting of doubt; that any unity is a postulate, not to be argued about, not requiring proof, not admitting of doubt ;-that any theory of disunion is as absurd as it would be to suppose that the body of a man might be several and destined to a high and noble purpose. Study and it two and both parts remain alive; if these closely the mind's bent for a labor or profession. There was something wrong with them—something rotten in Denmark. He them—something rotten in Denmark. He could look at his own side of the House without blushing; but when he looked at the Democratic side, his emotions were of a different character. The Speaker, had good reason to believe that Mr. Brown, the candidate for Speaker) had written a letter to Wilmot, pledging to appoint such committees on the District, Perritories, and Judiciary, as would be satisfactory to the Free Scilers Mr S., was followed by Mr. Bayley of Va, after which Mr. Ashman, enquired whether there was any truth in the rumor that an agreement had been entered into between the Free Soilers and Locofocos. Bayley denied it: Mr. Ashmun then asked whether there had been any correspondence Bayley, said not that he was aware, but afterwards acknowledged there was. Mr. Root made a further explanation amid great confusion and excitement-Mr. Brown then made an explanation, saying his nomination was wholly unexpected, and in reply to a letter from Wilmot and others, upon appointing of committees, stated he would make them satisfactory to that party Mr. Stevens, of Pa., desired to know, whether

Since the withdrawal of Mr. Winthrop Mr. Vinton, of Ohio, and Mr. Stevens, o this State, are spoken in connection with the office of Speakers.

The proceedings on Thursday were of

the most disorderly character, and the day passed without the election of Speaker. Mr Brown, of Mississippi, offered a resolution that the Hon H. Cobb be, and he is hereby, chosen Speaker of the House for the 31st Congress. He said that he drew the resolution without consultation with any of his political friends, or without giving notice that he intended to offer it.

After some discussion upon this reso lution in which Messrs. Strong. Brown, Levin participated, when Mr Butler, of Pa. proposed a resolution, leaving a blank for the insertion of a name of the person who shall, on the next trial, receive the highest number of votes If no election, then the next-highest. Mr Carter offered an amendment:-

PROSPECTUS FOR

JOURNAL THE MINERS'

The first number of the Twenty-Sixth Volume of the Miner's Journal will appear the first week in January, 1850, with a new and beautiful type, made expressly for this paper, and other improvements will be made which will make it equal, if not superior, to any weekly paper published in the United States The character of the Journal is so well known in this community, that it is useless to dwell upon it,—suffice it to say that we will continue to advocate the Protective Policy of the country, which is the only means by which labor can secure a proper reward, and all such measures as are calculated to advance the good of the greatest number. This is our political creed.

The Journal contains nearly twice as much reading matter as any of the other papers published in Schuylkill (ounty, and nearly double the labor and expense is devoted to its publication, while the subscription price is the same. It has always been our pride to publish a paper worthy of the great Coal Region of Pennsylvania, and therefore have spared no expense to make it a creditable representative of our citizens abroad. Although its circulation is now greater than that of any other paper published in Northern Pennsylvania, still we think it can be materially increased in this vicinity with a little exertion on behalf of its friends, and its usefulness extended.
