Just Published. TICKNOR'S PRACTICAL MENSURATION FOR ACADEMIES AND COMMON SCHOOLS.

FOR ACADEMIES AND COMMON SCHOOLS.

THE Friends of Education are invited to examine
I Ticknor's Practical System of Mensuration, simplified for the use of the Academies and the Common
Schools of the Country. The present works on this
subject are not intended for the masses; they are too
abstruce and difficult, and are better suited for the
more advanced pupils in Colleges. The author of
this work prepared it with a view to its introduction
into the Academies and Common Schools of the
Country, so as to bring this science within the reach
of the mass of the business and mechanical portion of
the community, educated in these schools,—it is therefore just such a work as the Country requires at the
present time. The following are a few of the recommendations of the work:—

Lineaster, Nov. 26, 1849. mentations of the work:

Having carefully examined Mr. Ticknor's Menauration, I most cheerfully give it my entire approbation. The questions are well selected, and judiciously arranged; containing all the information necessary for young mechanics; happily adapted to their comprehension, and being what they daily want for practice in their mechanical employment.

I have already introduced the work into a private class of young mechanics, and most cheerfully recommend it to the public, hoping its circulation will adequate to its merits.

JACOB PRICE. Having cursorily examined "Ticknor's Mensuration" I consider it decidedly superior as a text-book for schools, to the majority of works now in use. The absence of all which unnecessarily perpletes the learner, and which is two often a prominent characteristic of works on this subject, will recommend it to tudicious teachers.

I had it fully tested on a Locomotive Engine for two days, (in rainy weather, with mud flying over the machine at every revolution by a skillfulenglucer, who assures me that it works equal to the best, spermacelt oil, with a saving in quantity of 20 percent. This saving, together with the greatly reduced price as which you inform me you can furnish the article, willstrongly recommend its use in Ballscoads and in large mills and factories where arge quantities of Oil are used. I have now no doubt of its entire success, and under that impression tender you my sincers congratulations. Truly yours.

Pure, Fresh Cod Liver Oil. IIIS new and valuable Medicine, now used by the Tills riew and valuable Medicine, now used by the medical profession with such astonishing efficacy in the cure of Pulmonary Consumption. Scrofula Chronic Rheumatiam, Gour, General Debility, com plaints of the Kidneys, &c.; &c., is prepared from the liver of the Cod Fish for medicinal use, expressly for our sales.

[Fatract from the London Medical Journal.]

"C. J. B. Williams, M. D., P. R. S., Professor of Medicine in University College, London, Consulting Physician to the Ruspital for Consumption, &c., says: I have prescribed the Oil in above four hundred cases of the Langs, in different stages, which have been under my care the last two years and a half. In the large number of cases, 200 out of 231, its use ways followed by marked and unequivocal improvement, varying in degree in different equivocal improvement, varying in degree in different cases, from a temporary retardation of the progress of the disease, and a mitigation of distressing symptoms, up to a more or less complete restoration to apparent

health,

The effect of Cod Liver Oil in most of these cases
was very remarkable. Even in a few days the cough
was miligated, the expectoration diminished in quantity and opacity, the night sweats ceased, the pulse hecome slower, and of better volume, and the appetite, flesh and strength were gradually improved.

In conclusion, I repeat that the pure fresh oil from the Liver of the Cod is more beneficial in the treatment of Pulmonary Consumption than any agent, me-dicinal, dictic or regimenal, that has yet been em-ployed." ployed."

As we have made arrangements to procure the Cod
Liver Oil, freab, from head quarters, it can now be
had chemically; pure by the single bottle, or in boxes
of one dozen each,
La wonderful efficacy has induced numerous spurious, initiations. As its success depends entirely on
