MAGNETIC OINTMENT, It's related that in conveying to the grave a woman

Life Pills and Phoenix Bitters. These Medicines have now been before the public for a period of FIFTREN YEARS, and during that time have maintained a high character in almost every part of the globe for their extensions and approximately approx traordinary and immediate power of restoring per-fect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act, it was to their manifest and sensible action in parifying the springs and channels of life, and ending them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of permicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenic, nor any other mineral, in any form whatever. A COUNTRY HOME FOR ME I do not ask that city spires, May round my mansion rise,

But that my home may be where trees Are pointing to the skies : With a sweet and merry sound, And the echo of the hunter's gun Shall through the woods resound.

I cannot love the city's pomp. Its fashion and its pride. I had rather dwell in an humble cot, Upon the mountail side, Where sweetly blooms the accacia tree, The tulip, and the rose, And where, beside the rivulet,

The early viole: grows. I would not give my quiet home, Its happiness and health, For all the city palaces. Its pleasures and its wealth; Hove to breathe the mountain air, And roam where all is free,

Let others choose a city life. But a country home for me.
