has announced himself as opposed to the Compromise Bill as it now stands. In the House the debate has been principally on the admission of Mr. Smith the Delegate from New Mexico, to a seat in the Houec. Objections were made because he was not elected by a people but by a convention, although the late Gen. Harrison was admitted as a delegate from the North Western Territory, who was chosen precisely as Mr. Smith had been. The resolution that it was inexpedient to admit H. N. Smith, to a seat as a delegate, finally prevailed by a vote of

It is however reduced to a certainty that Mr. Webster will be Secretary of State, McKennan of Pa., Secretary of the Treasury, and Pierce of Maryland Secretary of the Navy, Graham of North Carolina or Bates of Missouri Secretary of War, Vinton of Ohio Secretary of the Interior, Hopkins of Alabama or Pettigree of S. THE IRON TRADE IN ENGLAND. By the late arrival we learn that the Iron Trade continues in a very depressed state in England, and that the prices are now lower than ever-so that there is but little prospect. of a very favorable change for our Iron men.

The Liverpool Journal says:-"At the preparatory meeting of ironmasters held in Staffordshire yesterday, leading to the quarter day meeting, it was determined t mak eno alteration in the present prices. In scotland many of the colliers have returned to their work at the reduced prices: Scotch pigiron is consequently lower. Present quotations in Liverpool:—Common bar iron £5 per ton; nail rods £5 15s; hoops £ sheet £7 10s; Scotch pig £2 11s." 🔊

FILLMORE AND THE PRESIDEN We heartily endorse the following which: we find in the Pennsylvania Inquirer: A Washington correspondent of the New York Commercial, says;-

"I presume that there may be some nodification of the measures of Gen. Taylor by his successor, while there will be no depar-ture from his principles. To me it appears that certain that the day of crisis, not to say of disaster, is rapidly coming. All that prudence, sterling ability and devotion to country can do will be done by Mr. Fillmore. It is common belief here that formidable warlike preparations were making in portions of the Soutern States to wrest the province of New Mexico from the Jurisdiction of the United States, and it is demonstrable that it was Gen. Taylor's parpose to resist any such attempt with all the powers of his office. On this point there can be no doubt that President Fillmore will be equally resolved, and enqually firm in carrying out his resolves." We indulge a hope and belief that all parime and expense.
