THE COAL INTEREST.

In last Saturday's paper we announced it. Cooper's presentation of the memorial of the Penneylvania Iron men to the Senate, showing the depression of the Coal and Iron business, and praying, for a modification of the Tariff in favor of these interests. Mr. Sturgeon opposed the memorial, and endervoted to get up the impression, which every man's daily experience contradiets, that these interests were never more prosperous. Valley drew a pistol and show him.

DAYTON, May 1, 1847.

DR. A. M. MAURICEAU—My Dear Sir: 'The Married Woman's Private Medical Companion,' for which Lenclosed one dollar to your address, came safely to hand. I would not have troubled you with these few lines, but that I am impelled by a sense of gratitude. Fir myself and wife, to give utterance to our sincere and heartfelt emotions.

"My wife has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent dancer, and which was, on the last occasion, despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. At this time (now about two months) I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and persual, I can not express to you the relief it afforded my distressed mind and tho joy its pages inparted to my wife, on leaving that the grait discretery of M. M. Descriptions. Extract of a Letter from a Gentleman in Dayton, O. not express to you the relief it afforded my distressed mind and the joy its pages imparted to my wife, on learning that the great discreery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. No peen niary consideration can ever repay the obligations I am under to you for having been the means of imparting to us the matters contained in 'The Married Woman's Private Medical Companion.' But for this, ere another year would have passed over my head, in all hyman probability my wife would have been in her grave, and my children left motherless."

Extract from a Letter. Competence and Health.

"LANCASTER, PA, Oct. 24, 1847.

"MY DEAR SIR: I know you will have the kind ness to bear with me in eneroaching upon your time, while I acknowledge (in behalf of myself and wife) the obligations we feel ourselves under to you in having made known certain matters, contained in your most invaluable. Married Woman's Private Medical Companion. It has been worth its weight in gold to me. If I express myself rather warmly, you will see that I can hot do so too warmly, when I infer you of the extent to which I have, through it, been benefited. I will state my situation when I obtained your book through the merest cariosity I look upon I look upon had been married some ten years, and was the father of seven children. I was long struggling unceasingly to the end that I might gain a moderate competency, but the results of my utmost exertions at the enddeft me about where I was at the beginning of each year; me about where I was at the beginning of each year; and that only, with the most stinted economy, sufficing with barely the necessaries of life. Finally, this constant effort was beginning to have its effect upon my health: I felt less capable to endure its continuance, while I felt the necessity of perseverance.

"This constant, unceasing structle on my part was imperative, in consequence, of the prostrated condition of my wife (with occasional intermission) for six years, much of the time confined to her bed, and of course incapable of taking the charge and management of household affairs. Her condition arose from causes of which I was ignorant. Oh! what would I have given had I the six years to live over again! chaises of which I was ignorant. Our want wome I have given had I the six years to live over again! What would my wife have given to have been spared the long days and still longer nights prostrate on a bed of sickness!—all of which would have been avoided, had I then seen, a copy of 'THE MARRIED

Woman's Phivate Medical Companion." From a Physician. DANGEROUS DELIVERIES, OBSTRUCTIONS, IRREGULARITIES, &C. OBSTRUCTIONS, IRREGULARITIES, &C.

How many are suffering from obstruction or irregularities peculiar to the female system, which undermine their health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice! How many suffer from prelapsus uten (falling of the womb), or from fluor-albus (weakness, debility, &c., &c.)! How many are in constant agony for many months preceding confinement! How many have difficult if not dangerous deliveries, and whose lives are jeoparded during such time, will find in its pages the means of prevention, amelioration, and relief!

Is constantly effecting curves of the utmost impor-tance. The most incredulous are convinced—the most faithless are compelled to believe in the power and virtue of this great remedy.

It is universally admitted to be the most wonderful combination known to the world for the immediate relief of disease and pain.

It never falls while there remains sufficient tife to restore a natural and healthy action to the capillary vessels of the body, and equalize the circulation of the blood. By this means a controlling power is gained over the trost malignant forms of disease, which cannot be obtained from any other remedy. Such is the power of this combination that it penetrates to every portion of the human frame; every bone and muscle, vein and ligament is searched out and made sensible of jip purifying and healthy action. Herfee it comes it copes as readily with internal as external diseases.
