Philadelphia Daily News makes "a hit, a very palpable hit" at the amicable state of feeling now existing in the Locofoco ranks.

Hear him! "The strife among the Ovenshines, Kickapoos and Winnebagues, is becoming interesting. Mr. Buchannan and Gen. Cameron are at daggers' points. The Pennsylvanian is lecturing the "democracy" of the interior for preferring Gen. Cass to Buchannan, and the "democracy" of the interior insinuating somewhat tartly in reply, that the Pennsylvanian may may may may be middle. titchen attached, and a frame Stable; late the estate of EDWARD CABEY.

scribes in glowing terms an ascent he enjoyed on Friday the 23d inst., in Mr. Wise's mammoth balloon, the Hercules. A rope fastened to the ground secures the balloon, and after attaining a sufficient height, it is safely drawn down again. They went upabout 1000 feet; he describes the scene on every side below as magnificently beautiful. At 3 o'clock of the same day, Mr. W. withhis lady, niece and son, made another trip. without the rope, and after proceeding a few miles from town he returned, safely delivering the whole party once more on terra

firma. Yankee Sullivan is not yet dead, as we see it stated that he was among the passengers by the Philadelphia, from California. Bad health, it is said, is the reason of his re-appearance in New York. His luck at the mines has been very indifferent, they say. He is the perfect wreck of the man he

was awhile ago, in a physical respect. A Manifest Destiny Man .- A man named Henry Ray was arrested in New York, last week, for smashing the city lamps. By his own confession, he had broken no fewer than twenty-eight, before he was taken up. He said he could give no reason for his conduct, further than "he felt something within him, telling him that it was his destiny to break lamps;" but the police magistrate thought his manifest destiny lay in quite another direction, and so he was sentenced to the pen-

itentiary to break stone for three months. Counterfeit \$10s on the Kinderhook New York Bank, have made their appearance. They are dated June, 1844-vignette, two semales, eagle, shield, &c. This makes its second "bust." A New Cuticle. - The Scientific American says "plasters of dissolved gutta-percha have been in use among the 'regular faculty' for two years. Chloroform is employed to dis-solve the gutta-percha—the solution is firstrate for cuts. If a printer gets the points of his fingers cut, or the cuticle worn with new type, let him go to a druggist and get them pointed with this gutta-percha liquid; they are covered with a thin, white, hard, vet flexible and firmly adhering skin; the chloroform evaporates in an instant, and leaves the gutta-percha behind. Gun-cotton dissolved in chloroform makes a good plaster also, but not like gutta-percha for the hands

of a working man.' Maine Constituton.—The Legislature of Maine, being desirous to restore the winter session of that body, have passed resoluions proposing to submit to the people of the State a reamendment of the Constitution for the purpose. The amendment will be offered to the people, for their sanction, at the annual election to take place next month,
