PASSENGER TRAIN. We are authorized to state that the Passenger Train will leave Mount. Carbon for Philadelphia this motning, at 81 o'clock, and will run regularly hereafter. The afternoon Passenger Train will be discontinued, so as to leave the toad as free as possible for the transportation of coal.

THE MAILS. For two weeks past, owing to the interruption of Railroad conveyance, the Mails have reached us very irregularly. We do not know where the fault lies, but certainly some one is to blame. Government Salaries are sure pay, and generall pretty good, and in a Department, so immediately connected with public convenience as the Post-office, no exertion should be omitted to keep up a continuous and regular line of communication in any case of emergency. Making all possible allowance for unexpected difficulties, we think the necessary arrangements could have been made, if the matter had been properly attended to.

THE TARIFF.

We learn from Washington that Congress is awakening to the necessity of some action on this subject, and it is hoped that something will yet be done, even at this late hour, in answer to the numerous petitions from all parts of the country. There is an erident disposition among the Members to give it attention, and it is gaining strength daily. Every Southern Whig, except one, it is confidently asserted, will go for a modification of the Tariff, such as the North desires. Want of time will be the principal excuse if the subject be neglected. Congress adjourns in two weeks, and therefore whatever is done, must be done at once. Let every one ter, press the claims of our suffering interests, till Congress shall give us the legislation so much desired and so much needed. The Hon. C. W. Pitman is said to have done much by his honorable and manly course to effect a conciliatory feeling on the part of Southern Members toward the interests of the North, on the Tariff question. He is represented as one of the most popular members in Congress.

The Benefit of Life Insurance. - The Pittsburg Gazette states that the Keystone Mutual Life Insurance Company of Harrisburg, promptly paid the sum of \$5,000 to the widow of Solomon Schoyer, of Pittsburg, who was insured on Saturday, and died the following Monday. By its charter, the company is not bound to pay under 60 days after proof of death—but in the above case, and we understand it intends to in all others that may occur, the payment was made immedily. Here we have an instance of the benefits accruing to one's family, in case of death. from the expenditure of a mere trifle in com-parison to the advantages to be felt from effecting an insurance. In our opinion, the man especially of moderate means, who fails to make provision of this kind for his family, is guilty of inflicting upon them a greivous wrong; for surely there must be few who

> Captive Lady among the Camanches.— The Van Buren (Ark.) Intelligencer says, a trader among the Camanche Indians has discovered, in a camp of that nation, a white voman, fair and comely in appearance, who is intermarried among them, and says she is the sister of Lieut. Love or Lovett, who commanded a train which left Independence about three years ago, and that she was in ompany with the party when it was attacked by the Camanches, and that her brother was badly wounded, a large number of the men were killed, and she, with a number of men, were carried off prisoners by the Indians. She says she is well treated by her husband; but the women are cruel to her; that she is anxious to return to her friends, and that four or five good riding horses will procure her ransom.

Fraud out West, with Havre de Grace Notes .- The Ohio papers state that great excitement exists in the northern part of the State, on account of fraudulent circulations of Havre de Grace notes. It appears that a large number of cattle had been bought up-and these notes given in payment. Subse-quently, the fraud was discovered, and the luped dealers, with a party of friends, started n pursuit of the swindlers, whom they overtook and after a desperate fight, succeeded in seizing the cattle. The authorities inter-fered and arrested portions of both parties, who were lodged in jail.

White Boy Stolen by Indians.—The Ocala (Fla.) Argus of the 10th ult., says: -A white boy was recently stolen by the Indians from the lower part of that county. The lad had been sent for a branding iron. The horse which he rode returned that night with the boy's suspenders braided in his mane. Investigation proved the vicinity of the Indians. The Argus says much excitement prevails. Families are again breaking up. The boy's parents are inconsolable.
