SATURDAY, OCT. 5, 1850.

The 31st Congress closed its first session gives it as his decided opinion that if there In an article we hastily copied, some time ten months or three hundred days, being the admission of California, providing territorial governments for New Mexico and Utah, passage of the Fugitive Slave Bill, which by the way is not likely to be entirely disposed of yet, abol shing the slave trade in the District of Columbia, passage of the Military Bour,ry Land Bill, and dispensing with the services of the "cat" in the Navy. It has been characterized with an unusual amount of squabbling, interspersed with an occasional fight to relieve the monotony of talking about legislation and doing very little towards at, besides creating much sectional animosity and local excitement from one end of the Union to the other. Monday, however, was a day of general reconciliation and the occabeen all forgotten in the general rejoicing that so long and tedious a session was closed

among all parties. There has been a Locofoco majority in both Houses. These, with the heip of factional fanaticism and Southern ultraism have prolonged needless discussions on subjects in many cases principally of a local interest to

The Postage Reform, the Tariff and many other important subjects, under whose present disadvantageous arrangement we are daily suffering, have been wholly neglected.

Mr. Dobbins did vote for the Reading Rall And the cube of this line equals the square little Schuylkill R. II. Little Schuylkill R. III. Little Schuylkill R. II. Little Schuylkill and the people, notwithstanding their numer- advocates of the Bill in the Legislature. His nals of the day as "Kirkwood's Analogy," and ous petitions for active and immediate legis- subsequent vote, now paraded before the is already regarded by the most prominent RATES OF TULL IAND TRANSPORTATION ON RAILENAD lation on these questions, are left without public, on an amendment, was given when Scientific men not only of this country, but any relief and with the additional burden of he knew the bill would pass without his vote, also of Europe, as the greatest discovery the heavy expenses of so long and inefficient and was expressly intended to be used, as it is since the time of Kepler. It is important as a session. There is no direct charge for now, to deceive and blind the eyes of his a tangible expression of one of Nature's most what has been accomplished, but a deserved constituents. We confidently refer to any general laws and also as furnishing the founcensure for what has not been done; many member of the House of Representatives, dation for other and still higher developeof the acts of this Congress will compare who served with Mr. Dobbins, for a corrobo- ments in the mysterious arrangement of the favorably with those of any previous session ration of this statement. —in many cases, transcend them; but there

AMERICAN GENIUS. Under this head, the Economist (Canne ton, Ind.) pays a flattering enconium to our

respected townsman. Daniel Kirkwood, in an Tariff question in Congress, so powerful article upon his late Scientific Discovery. was the avalanche of popular feeling that We are happy to notice this appreciation of poured in from all quarters of the country American talents and industry, and more on the subject, that many of the Locofocos particularly as it affords us an opportunity who opposed it, particularly those from New of correcting some errors made in the inter-England, became alarmed, and manifested a pretation of Mr. Kirkwood's law. both by disposition to change their views; and he the Economist and other publications.

on Monday last, having been in session full had been time to call up the measure again, since, from the North American, relative to it would have carried. He thinks if a Whig this discovery, Sir David Brewster was quoted longest in the history of our Republic. The Legislature can be secured in this State at as incorrectly estimating the radius of the principal features of its proceedings are, the the coming election, and those Representa- sphere of attraction "from the Sun to the care. tives who opposed Protection; and who are point of equal attraction between any two now candidates, can be defeated, a Tariff planets." The Economist falls into a similar bill with additional protection, will be pass- mistake and calls "double the distance of this ed immediately upon the reassembling of point from each planet the diameter of its Congress, as every Whig, from North, South, sphere of attraction," and misapplies Sir East or West will stand by the measure. It David's language in relation to Kirkwood's s therefore highly important that every law comprehending the original mass of the we law comprehending the original mass of the M. Carbon. M. Carbon. J. Carbon. M. Carbon. J. Carbon. J should awake to their interests, and show the discovery of Neptune. The error was no doubt originated with Sir David Brewster, cy. Protection or Free Trade, they prefer to as both articles are founded on his remarks Tot'l by R Rand Can't 1,223,216 16

ported in the London Economist. Kepler's three laws relate to the mutual relationship between the planets as regards their revolutions rou, d the Sun. Mr. Kirkwood's discovery is a law regulating their revolutions on their axes, and is thus expressed: The square of the number of a primary planet's days in its year is as the cube of the diameter of its sphere of attraction. The opposition to internal improvements, the pressed: The square of the number of a prithe diameter of its sphere of attraction. The principal feature in the analogy is the "sphere of attraction." This Mr. K. arrived at by party in voting annually millions of dollars supposing a point between any two contiguat their instance, if they (the Locofocos) are ous planets A. and B. in conjunction, where unwilling to yield a corresponding spirit of there would be a perfect neutralization of their attractions, and the connection between many cases principally of a local interest to the entire exclusion of those questions, in which the people were most immediately concerned.

We repeat, what we stated last week, that concerned.

We repeat, what we stated last week, that Dobbins did vote for the Reading Rail And the cube of this line equals the square of B's number of axial revolutions or days

The following is the quals in Schuylkill County, for the week ending Thursday evening.

We repeat, what we stated last week, that this and another point similarly chosen by the week ending Thursday evening.

We repeat, what we stated last week, that this line he calls B's sphere of attraction.

And the cube of this line equals the square of B's number of axial revolutions or days

PEPSIN AND BENET.

Pepsin is the chief element, or great Digesting principle of the Gastric Juice. It is found in great abunciple of the Gastric Juice. It is found in great abunciple of the solid parts of the human atomach after death, and sometimes causes the stomach to digest itself, or cat itself up. It is also found in the stomach of animals, as the ox, call, &c. It is the material used by farmers in making cheese, called Renner, the effect of which has long been the special wonder of the daily. The curding of milk is the first process of discussion. Rennet possesses automating power. The

bility. Emeriation, Nervous 'Decline, and Despension' Consumption, supposed to be on-the very verge of the citizen of the North, or manned by a North grave. It is impossible to give the details of cases in the limits of this advertisement—out antitated certificates have been given of more than TWO HLD.

DREO REALARK SILECURGS, in Philadelphia New York and Boston atoms. These were nearly all despension. DREO REMARK ABLECURE's, in Philad-lphia New York and Boston atons. These were neally all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great nervous antidote, and particularly use ful for tendency to billhous disorder, Liver Complaint, Fever and Ague, or budly treated Fever and Ague, and the evil effects of Quintine, Mercury, and other Drugs upon the Digestive organs, after a long sickness.

Also, for excess in eating, and the too free use of actions after a long sickness.

Harrisburg, January 28, 1850 5

Philadelphia, Friday, 4 o'clock. Wheat Flour, \$5,00-Rve, do. \$3 00 per bbl.—Corn Meal. \$3 00 do.—Wheat, Red \$1 05. White, \$1 10.—Rye, 65 cents. -Corn 65-Oats, 41 cents per bushel. Whiskey 27 cents per gallon.

PROM RUBOPE. The Steamer Cambria, with Liverpool dates to the 20th ult., arrived at Halifax, on Thursday morning. The chief feature of the English news is an unpopular publication of the Cabinet Synod of Thurles, regulating the Government Colleges in Ireland. It is condemned by some of the leading Roman Catholic papers. The President of the French Republic has returned to Paris. Another battle took place, on the 12th ult.,

less, of Chester county, was last Saturday morning found dead at the door of a school house, where she was engaged as teacher. having been shot by some one secreted near. George Pharaoh, who had been seen with a gun close by, was arrested as the murderer. The size of his shoes upon examination,.

mass meeting was held on Tuesday last. Zion Chapel which can seat 1500 persons was crowded. Several speeches were made and a number of resolutions adopted expressive of the indignation of the meeting at the injustice of the law.

The Rev. Dr. Baird, we learn by the Honesdale Democrat, is now delivering a course of lectures on "modern Europe" in that place-We should be glad to see this learned gentleman in Pottsville. In no place would

Dead bodies Found .- The Sunbury Amercan states that three dead bodies were found near that place, supposed to be the victims of the late catastrophe at Nescopeck. That of a lady, about thirty five years of age, on Friday, 20th, and the bodies of a boy and girl several miles down the Northumberland on Saturday 21st.

Gov, Quitman, of Mississippi, has issued a' proclamation for re-assembling the Legislature of that State on the 18th of November. No Change will take place in the proprietorship of the Washington Union, as Father. Ritchie announced some time since. Theruse would'nt take in Congress.

The National Intelligencer publishes a letter from Governor Burnett, of California, in which he says:

4 Our country has neglected and even oppressed us: but there is not in our hearts one feeling of revenge, or one sentiment of enmity. We feel as dutiful children towards a kind parent, who has for once been in error, but whose uniform kindness we have so long enjoyed that we can never forget it. We can ouly complain, that our wrongs may be redressed; but, as for making war upon our country, oh, never." Though he slay me, yet will I trust in him.' There is no earthly object that I so idolize as that Union." That's the tilly.

Robert Stephenson, the great Engineer and the projector of the Britannic Tuhular Bridge, it appears by the late English papers, has been offered knighthood and lias refused it. Mr. Farraday, one of the greatest of living chemists, has also declined a similar tender. Which is a's a Universal Family Embrocation for Discusse of the Human blesh.

Time and experience has fully proved that this I UNIVERSAL REMEBY has not insequation the list of popular medicines, having been more than 19 years before the public.
