but four months have transpired since the issue of the first number, of this Maguzine, it numbers already 45,000 subscribers. It is the cheapes Magazine of the kind in the country, and sustains a high reputation: Subscriptions received, as single numbers for sale at Bannan's.

[For the Miners' Journal.]

Mr. Bannan; The result of the late Election this County, has east a sombre gloom over the Whig party. Not that we fiel that we are in the minority, or that we dread the power of our insidious foes (for their victory is so mention that they know that nothing short of aid from Traitors in the Whigherty can afford them say prospect of tuture success.) But we must candidly admit that we do feel chagined that we have so misplaced confidence, and the reflection that the last Sheriff's Election should tave sufficiently inveiled the hypocrisy of some of the would-be-leaders in your Borough, adds keepness to that regret. I have reference to inpon a beautiful elevation at the North end of the Borough, and overlooks the whole town with a splendid view on every side.

The Commissioners, we understand, will decide upon the plan of the Prison on Tuerday next. It is also their intention to proceed with the foundation of the Building this fall.

EF Literary Society.—At the meeting of the

the head. Thos. Ewing is simply a man great good sense; what the Western prole call "horse sense." He does his own inking but thinks pretty much in the bean tracks. Mr. Calhoun's successor also led, and of his successor I am not bound to nearly.

Ights, by accident, were suddenly extinguished, and complete darkness, and the whole audience left in complete darkness, all others who may be detected in such herewy, for a few minutes. We heard a great rustling of it would rather be defeated than conquer with such in the bean tracks. Mr. Calhoun's successor also led, and of his successor I am not bound to necount for; perhaps—but we can't imagine, leader—produce when you have the netendence. A man who cannot cutch his insafine

CHEMICAL AFFINITY.—This law in Chemistry is remarkably illustrated in the restoration of the equilibrium between the supply and waste in direased a spinal matter, through their servery of G. W. Merchani's Celebrated Garging Oil. It is well known that chemical action takes place only under certain circumstances, that some bodders have no tenderey to make the chemically s and that others strongly influence each other's properties. The former are said to have no appristry for each other, their, mixture is merely, mechanical, and no change takes place. The latter class of bodies, in which is included the Garging Oil in its application to morbid swimst matter, act by their affinity for each other, their action keing productive of chemical phenomena, and the properties of one or both are affinity of each other, their action keing productive of chemical phenomena, and the properties of one or both are affinity of each other through difficulty of the control of the control of the most beautiful floish. They go on the principle, that for your money you should have satisfaction, and they will charge nothing unless you are pleased with the goods they offer you. Calland examine their specimens. Rooms free at all times. Price of Flemen or both are affinited.
