# MINERS' JOURNAL.

SATURDAY, NOV. 23, 1850.

LIFE INSURANCE.—There is, perhaps, nothing that creates so severe a pang on the death bed as the reflection that we are leaving those we love, perhaps a wife and children, dependent upon the cold charity of the world: Therefore every one in life should prepare for this emergency. It can be done, even by the poorest, through the agency of Life Insurance.

Every man who loves his family ought to get his life insured. Every man in debt, and owning property, ought to have his life insured, lest at his death his property may be sacrificed. There are but few who could not save a small sum annually to insure their lives; which if not invested in this way would be spent perhaps in trifles, and their families thus left to penury and want.

Life Insurance is becoming just as common in this country as Fire Insurance; and should be more so Wives persuade your husbands—you can save enough in your household affairs to pay the annual premium without feeling it—and the reflection that you are provided for, will alone be a full recompense for the outlay. You can insure the lives of your husbands for your own benefit, and the amount cannot be touched by their creditors in case of their death.

Full information on this subject can be obtained on application to B. BANNAN, at the Office of the Miners' Journal.

☞ *A Certain Paper*, published in this place, and edited by a person in Philadelphia, who found Schuylkill county too hot for him, states that we refused to publish a certain article handed us by a friend of Senator Cooper. We need only state that no friend of Senator Cooper would ask us to publish it, and in the next place, no person did. It is a fabrication of their own coining, characteristic of the source from which it emanates. These folks seldom hit upon the truth except by accident.

☞ *Hon. Daniel Webster* was received in a most enthusiastic manner at New York, on Tuesday last. In the evening he attended M'lle Lind's concert, and was loudly greeted with cheers from the audience for Webster and the Union. He arrived at Philadelphia, on Wednesday evening on his way to Washington.

☞ *Col. Richard M. Johnson.*—This distinguished individual died at Louisville on the 19th. inst. in the 65th year of his age.—His services during the war of 1812 has rendered his name among the most famous in the history of our country. He was a member of the Kentucky Constitutional Convention at the time of his decease.

☞ *Free Trade in the South.*—The Southern manufactories are reported to be closing their operations. The reason assigned is the high price of cotton which will not justify further purchases for manufacture. And yet, it is remarkable that the English factories than that of England, the former being 3,130,000 tons, and the latter 3,130,000 tons. If this be true, we are of course the first commercial nation in the world.

☞ *The London* correspondent of the New York *Herald* states that the commercial tonnage of the United States is 20,000 tons more

☞ *Getting Tired.*—The London Times says, "We (the English nation) are actually at this moment supporting out of the public funds the descendants of Arnold, the American traitor." This is one of the beauties of the Pension system.

☞ *Montour County Officers.*—The Sheriff, Coroner, Prothonotary and Clerk of the county have all severally been commissioned by the Governor. Their Commissions and the Constitution of the Commonwealth say:—

*" They shall hold their offices for three years, and until their successor be duly qualified."*—[*Danville Intellegencer.*

☞ *The Columbus* (Ga.) *Sentinel* regales itself with the following pleasant language.

"We frankly tell you that so far as we are concerned, we despise the Union and hate the North as we do h—ll itself."

☞ A brilliant talker is not always liked by those whom he has most used, for we are seldom pleased with those who have in any way made us feel our inferiority.

☞ Modesty is a quality that highly adorns a woman.—*Old Adage.*

And ruins a man.—*Louisville Democrat.*

☞ *An American*, who lives in Paris, has just finished the model of a gas apparatus which will revolutionize the present system.

*Heckscherville, November 15, 1850.*

MR. B. BANNAN:

*Dear Sir*:—I see by the *North American* of this week, that Governor Johnston has appointed a committee for this State, for the World's Fair in London, 1851; amongst whom I see the name of Dr. Eckert, to whom I would suggest that Schuylkill County should exhibit her wealth at this great Exhibition, by sending a collection of specimens of Coal from each vein in this Region, neatly labeled, with the name of the Vein, the kind of ash it makes, depth below the surface, by whom mined, and any other particulars in regard to it. A collection of this sort would attract considerable attention in England, and it can be collected together with no expense, and I have no doubt that the Railroad Company would convey it to the city free of expense.

Yours, Respectfully,

CHARLES W. PEALE.

## THE COAL TRADE FOR 1850.

The quantity sent this week by Railroad is 54,050 01, which is the largest shipment ever made in one week by the Company. We knock under, if even it was done by putting on night shifts.

The proceedings of the meeting of Coal operators, held on Monday last, will be found in another part of our paper. We need only remark that the resolutions passed unanimously, and as far as we can learn meet the approbation of all in the region, both large and small, with but one solitary exception. A greater feeling of unanimity prevails among our operators on this question, than we have ever known to exist on any other subject connected with the trade, and we sincerely hope that the Company will comply with their request, so unanimously made, because we firmly believe it will result to the mutual benefit of both parties.

In reply to an inquiry, we will state that the Schuylkill Canal is now navigable from Reading to Philadelphia. It will not be navigable from Pottsville to Philadelphia before next Spring. All the work will be completed on or before the 1st of January, except the Blue Mountain Dam, below Port Clinton, which will require a longer period to build anew.

## All Sorts of Items.

☞ *Cui Bono?*—The following will answer one such question as to the Balloon:

"It is suggested to missionaries by the *Hong Kong Register* to distribute tracts and small religious publications through China by the agency of balloons. Upon the calculation made of the weight of the tracts, each balloon could carry two thousand, which might be allowed to fall, one by one, and at short intervals. Thus, the word of God would fall literally like a refreshing shower over the incredulous "Flowery Land."

☞ *Female Divines.*—Oberlin College, Ohio has lately awarded diplomas to eight young ladies, one of whom was colored, who have completed their ladies' course. The degree of A. B. was conferred upon eleven gentlemen, and one lady; that of A. M. in course, upon nine gentlemen and one lady. Three gentlemen and two ladies completed the theological course. One of the latter expects to devote herself to pulpit labors.

So then, whether the fair sex obtain their "rights" or not, they are resolved upon laboring to set the men to rights. It is probable that they have undertaken a more difficult enterprize than they suppose.

☞ *Intemperance.*—It is estimated that the annual cost of intemperance, is, in the United States, $80,000,000; in Great Britain, $209,000,000; in France, $275,000,000; in Sweden $70,000,000; and in the rest of the world $300,000,000. It is likewise estimated that the cost of workhouses, police, asylums and prisons, merely so far as intemperance occasions their use, amounts to two thousand millions of dollars; so that the aggregate of the annual amount of cost to the world simply for intemperance, produces a grand total of three thousand millions of dollars! This statement ought to paralyze the arm of the drunkard as he raises the poison to his lips.

☞ *Consumption of Cotton.*—A correspondent of the Boston *Courier* says that the consumption of cotton by the world, is a little over 2,750,000 bales. The United States commonly furnish 2,250,000 bales, grown chiefly by slave labor. Of this, there is consumed at the North, 500,000; by England, 1,050,000: by France, 309,000; by other European nations, 400,000; leaving to come from other countries, only 500,000.

☞ *It was* a beautiful observation of the late William Hazlitt that "there is room enough in human life to crowd almost every art and science into it. If we pass "no day without a line," visit no place without the company of a book, we may with ease fill libraries or empty them of their contents. The more we do, the more we can do, the more busy we are the more leisure we have."

☞ *Another Paper* is about to be commenced at Washington City. It is a daily, to be called "The Constitution," published by Robert Farnham & Co., as the organ of the great Union Party of the United States.—This will make four dailies at the seat of government.

☞ *Oak Hall, Boston.*—Great sales and small profits is Simmons' motto. His stock is one of the largest in the country, and well worthy the attention of all wishing to purchase clothing. No one should visit the city without calling in at this famous establishment.

TO MR. "E. G."

A rose gazed from her flower green
Upon the summer night,
And never had creation seen,
A flower so fine and bright;
Her modest form so soft and meek,
With morning radiance tried,
Beamed like the lovely blushing cheek
Of a young Village bride.

But soon a storm dark o'er the vale
Its mountain fury shed.
And shrouded in the twilight pale
The lonely rose lay dead;
And so it is a gentle mind,
Sinks under sorrow's darr—
The storm may pass, but leaves behind
Too oft a blighted heart.

## SHERIFF'S SALES of Real Estate.

BY VIRTUE OF SEVERAL WRITS OF VENDITioni Exponas and Levari Facias, issued out of the Court of Common Pleas of Schuylkill county, Pa., to me directed, will be exposed to Public Sale or Vendue, on Friday the 6th day of December, 1850, at 1½ o'clock, P. M., at the Court House in the Borough of Orwigsburg, Schuylkill county, the following described premises, to wit:

All the undivided seventeen one hundred and eighty fifth parts of all that certain tract of land, situate in the township of Branch, (now Cass) in the county of Schuylkill, bounded and described as follows: Beginning at a post on the West Branch Railroad, thence north 62½ degrees, west 112 perches to a post, thence north 26 degrees, west 47 perches to a stone heap, thence north 90½ degrees, west and eight tenths perches to a post, thence south 31½ degrees, east 119 perches and seven tenths to a white oak, thence north 59½ degrees, east 103 and one tenth perches to the place of beginning, bounded by lands of Gilmore & Bowling, Richard Rickert, Daniel R. Bennet and the Delaware Coal Company, containing 97 acres and 14 perches; said tract of land being purpart number four (No. 4) of a large tract of land, known as the "Oak Hill" tract, (recorded in the office for recording deeds, &c., in and for the county of Schuylkill, in Mortgage Book H., page 223,) together with the hereditaments and appurtenances—late the estate of JOSEPH F. TAYLOR.

Also, all that certain tract of land in Manheim township, Schuylkill county, that is to say, one full, equal and undivided half part of three tracts of land, surveyed as follows, to wit: One of them on a warrant granted to John Harris, bearing date the 3rd day of March, A. D. 1795, containing 437 acres, 90 perches and allowance. One other of them granted to Caspar Thiel, bearing the same date of the aforesaid warrant, and containing 398 acres and 110 perches and the usual allowance. And the other of said warrants was granted to Sophia Moyer, bearing date the 30th day of April, A. D. 1798, containing 158 acres and 90 perches allowance, 77 acres 39 perches having been sold out of the John Harris tract conveyed to the President, Managers and Company of the Schuylkill Navigation Company, by metes and bounds as by the draft thereof fully described, since then a re-survey being had and the residue found to contain 1940 acres, be the same more or less; the said lands first mentioned by the James Wilson lands, by lands late of George Ege, Esq., now of John Shull, by the Schuylkill Navigation Company and others, patented to the Commonwealth of Pennsylvania by Daniel Boadarmel, and of whose property it passed to John Keim in fee, and by whose last will and testament and other conveyances duly had and executed, it became vested in the said George P. S. Keim and Benneville Keim in fee, as in and by the respective conveyances duly recorded reference thereunto had more at large appears, together with the hereditaments and appurtenances—late the estate of GEORGE D. B. KEIM.

Also, all those two certain lots of ground, in the borough of Tamaqua, situate on the west side of Pine street, fronting 40 feet on said Pine street each lot having a front of 20 feet and extending back 160 feet, bounded on the east by Pine street, on the west by William Levan and Mary Ann his wife, on the north by lot No. 20, and on the north by lot No. 22, being the same lots which Thomas Wilson and Julia his wife, and William Levan and Mary Ann his wife by indenture dated the 9th day of September, A. D. 1846, conveyed to the said John Eyner, Mortgage recorded in Mortgage Book G, page 539, with the appurtenances—late the estate of JOHN EYNER.

Also, all those two certain lots of ground, in the borough of Tamaqua, Nos. 24 and 25 in Wilson & Levan's addition to the borough of Tamaqua, situate on the west side of Pine street, each having a front of 20 feet and extending back 160 feet, bounded east by Pine street, west by a 30 feet street, south by lot No. 23, north by lot No. 26, being the same lots which Thomas Wilson and Julia A. his wife, and William Levan and Mary Ann his wife, by indenture bearing date the 8th day of September, A. D. 1846, conveyed to the said John Eyner, recorded in Mortgage Book G, page 543, together with the hereditaments and appurtenances, late the estate of JOHN EYNER.

Also, all that certain lot or piece of ground, situate in Port & Patterson's addition to the borough of Pottsville, Schuylkill county, bounded by front by Minersville street, westwardly by an alley, northwardly by lot of John Fulbert, and southwardly by an alley, containing in front 40 feet and in depth 135 feet, with the appurtenances. Erected thereon a two story frame house—late the property of BENJ. DAVIS & LEWIS POWELL.

Also, all that certain lot or piece of ground, situate at the northward corner of Market and Spring streets, in the borough of Pottsville, Schuylkill county, being lot marked No. 59 in the map or plan of Pott & Patterson's first addition to the town of Pottsville, bounded eastwardly by 20 feet wide street, called Spring street, northwardly by 15on street, eastwardly by No. 61 on the aforesaid map or plan, and southwardly by Market street aforesaid, containing in front or width on said Market street 26 feet 9 inches, and in length or depth 190 feet, with the appurtenances, consisting of two three story stone dwelling houses, one two story stone dwelling house, and one 1½ story frame dwelling house, two bake ovens, and other out-buildings—as the property of PATRICK McMANUS,

Seized, taken in execution, and will be sold by

C. M. STRAUB, Sheriff.

Sheriff's Office, Orwigsburg, November 23, 1850.

TO BUYERS OF ANTHRACITE COAL AND OWNERS OF COAL LANDS.

THE SUBSCRIBER WOULD CALL THE ATtention of Miners and others interested in Coal Lands, to his patent COAL BREAKER—a model which will enable machinists to build correctly can be seen as No. 106 Market Street, which it is believed will satisfy persons using the Coal Breaker, that it can be constructed to break from 50 to 500 tons per day, and even a larger quantity, if required, and is not liable to get out of order. The great advantage of this machine consists in the sawing of waste. The proprietor is so well assured of this, that he will agree to receive as a compensation for the privilidge of using it, one fourth of the value of the coal saved by its use, which may be ascertained by a comparison with other machines, or he will make such other arrangement for its use as may be agreed upon. Parties interested are invited to examine the model and satisfy themselves.
