R. GOSE'S ALTERNATIVE, FOR THE RADIcal cure of Scrotula, Diseases of the Bone, stubborn Ulcers, Liver Complaints; old Eruptions, Rheumailsm, and every Disease arising from an impute
state of the blood.

This preparation has no equal for the cure of the
above named diseases. My extensive practice in
Philadelphia' the last thirry years has made me acquainted with all forms of disease, and being a gradunte from the University of Pennsylvania in 1820, ander the guidance of the truly great Professors, Chapman, Physic, Gibson, Cox and flare, names scelebraic
for medical science, and baving daily intercourse and
consultation respecting disease, and the application
of remedies thereto; with these distinguished physicians, I am enabled from all-of those advantages to
offer the public my Alternative Syrup, which parties
and gives tone to the system, diving therefrom all
urking diseases. This remedy I have alway' relies
upon, in a practice of thirty years, to restore broken
down constitutions.

Over 1000 persons, in the city of Philadelphia can

SYRUP.—A certain, speedy cuts for Coughs, Colds.

Consuptions, Asthma, splitting of blood, and all diseases of the longs. This valuable Syrup has no equal; it allays irritation or inflamation of the air cells, removing scremess from the chest; causing the patient to expecionate with case and freedom. After an extensive medical practice of thirty years in the city of l'hitadelphia, I am enabled to offer the afficted public a Cough Syrup which has gladdened the hearts of many almost upon the brink of the grave. Thousands are ready to testify to its cardities and healing virtues. This preparation has placed consumption on the list of manageable diseases, and makes it as curable as any other, if the patient applies for aid before the

Testimony of the most disinverented character of its wonderful effects on the animal economy! I almost daily presented to the proprietor.

A young man in the Town of Wilson, whose clothes were huntr off of him, was restored (without suffering), by the timely use of this Oil.

Numerous are the unsolicited statements of patients themselves, and others who have used the Oil, ourse which in themselves appear so remarkable that were they at all interested in a peculiar point, they could hardly have been credited.

The following diseases are among many others in the cure of which this Oil bas been completely successful and in which others had entirely falled:

DR. TRASH'S

-MAGNETIC OINTMENT. MAGNETIC OINTMENT.

Is constantly effecting cures of the utmost importance. The most increditions are convinced—the most faithlessare compelled to believe in the power and virtue of this great remedy.

It is universally admitted to be the most wonderful combination known to the world for the immediate relief of disease and pain.

It never falls while there remains sufficient tife to restore a natural and healthy action to the capillary vessels in the body, and equalizathe circulation of the blood. By this means a controlling power is gained over the noct inalignant forms of disease, which cannot be obtained from any other remedy. Such is the power of this combination that it penetrates to every partion of the human frame; every bone and muscle, veln and ligament is searched out and made sensible of its purifying and healing influence. Hence it comes it copes as readily with internal as external diseases. Numerous instances are on record where this remedy has reatored health to patients so near the grave that the most powerfulinternal remedies failed to produce any effect. Such has frequently been the case in Inflammation of the Bornis.

No patient need ever do with this disease where the Magnetic Oliment can be obtained. That dangerous Epidemie known patient Ergispelas, can always be cured by this remedy. For Inflammatory Rasmuntism, this olument is the most complete remedy prepared. In 99 cases out of 100 it will safford entire relief to the worstrasses of

Facts in Philosophy .- A man is taller in the morning than at night to the extent of half an inch, owing to the relaxation of the cartilages. The human brain is the 28th of the body; but in the horse only the 400th. Ten days per annum is the average sickness of human life. Lettom ascribes health and wealth to water, having sets of small beer, and disease and the contract of the contract o fat man leaner. Richter enumerates 600 diehappiness to small beer, and disease and crime to spirits. Elephants live 200, 300, and even 400 years. Bats in India are called flying boxes, and measure six feet from tip to tip of their wings. Sheep, in wild par-tures, practice self-defence by an array, to which rams stand foremost, in concert with ewes and lambs in the centre of a hollow square. The Hudson's Bay dogs draw sledge loaded with 300 pounds, fifteen miles in a day. One pair of pigs will increase in six years to 119,160, making the increase of fourteen times per annum. A pair of sheep in the same time would be but 64. A single horse fly produces in one season 20,080,327 eggs. The flea, grasshopper and locust jump 200 times their length; equal to a quarter of a mile for a man.

Deliberate and Singular Suicide. - On the afternoon of the 17th, says the Albany Atlas, a large sized mastiff, a good looking animal, was seen walking moderately but directly down Lumber street, toward the river. On close examination, it was discove ered that he had in some manner become seriously wounded, there being a large gash laying open the flesh to the bone, and eral other wounds in different parts of his body. On being called or spoken to, he paid no attention, but continued his course toward the river, and upon reaching the dock plunged off, swam a few feet out into the tream, dived under and was seen no more: This was witnessed by a number of persons.

The Washington corresponent of the N. York Commercial says :- "I have heard it asserted that Mr. Rhett will, after he takes his seat in the Senate, submit a proposition requiring of the general Government to enter into negotiations with Great Britain for the extradition and surrender of fugitive slaves having sought refugé in Canada.'
