MINERS' JOURNAL

SATURDAY, JAN. 11, 1851. We Have struck off an extra number of Journals, this week, to supply orders both at home and from abroad. Price 6 cents.

In this week's Journal will be found the reply of the Rev. Mr. J. F. Berg, to Bishop Hughes Lecture on the decline of Protestantism, a 12½ cent pamphlet, in full—the report of the Schuvlkill Navigation Company in full-the School Statistics of our Borough complete—the Statistics of the Anthracite Coal trade of the United States complete-together with the news of the day? We also furnish an extra of the Governor's Message. and a Business Almanac for the year 1851. which any of our subscribers can obtain at our counter gratis-and all for four cents to our subscribers. Is not our paper worth its subscription price? And does it not deserve the patronage it receives?

While on this point we would merely remark, that we do not run round and beg for advertising and other patronage,-it is degrading to an editor of a public newspaper. and destroys all independence of tone and action-we endeavor to deserve it by industry : and enterprise, and then of course expect to receive it voluntarily from the community. Are we not right?

We are indebted to the Hon. James Cooper, Hon. C. W. Pitman, Gov. Johnson, W. F. Dobbins and J. S. Struthers, Esgrs., for public documents from Washington and Harrisburg.

We tender our thanks to the different collectors and officers of the several companies for the aid we derived from them in the preparation of our annual statistics of the Coal Trade of the United States.

Many Thanks to our friends of the Press for their complimentary notices of the Journal. Consider us, gentlemen, as having made our very best bow-we shall always endeavor to merit your puffs.

The Philadelphia Ledger, in trying to throw cold water on the projected new Railroad to Philadelphia, says that the preseng Railroad has been in operation fifteen years. and has never paid a dividend. This is not singular-have not those connected with it, and who have done the dirty work, grown enormously fat? Of course, under such circumstances, the stockholders must grow

The same paper says the new Road is all talk-of course all great revolutions commence with talk-but talk forms public opinion, and enlightened public opinion is omnipotent. It has proved to be so on several oc- ? casions where the Ledger was forced to take the back track, or fall before its power.

agers of the Schuylkill Navigation Company sition to consult the views of these who, from transported 145,450 tons,—this makes the J. Wasley the very nature of the business, are capable of difference in the reports. giving advice as regards the best interests of Of the above quantity of Coal,

receive in an Extra, possesses the great mer it of being short, manly in tone, and is at able document, which must command the attention of the people; and many of its recommendations will meet with a hearty response in the minds of the whole com munity. Its protective features are orthodox and to the point, -and we hope every Pennsylvanian at least, will read it through, In the Senate, B. Mathias. Esq., of Phil adelphia, Whig, was elected Speaker on the

7th, ballot. In the House John Cessna. Locofoco wa elected Speaker-for Cessna 59, George H Hart 37. William Jack, of Westmoreland was elected clerk to the House.

Company." Referred to a select committee sent facilities.

Mr. Leet also offered a resolution for a committee to inquire into the expediency of reducing the number of Judicial districts in the State, and increasing the salaries of the Judges. Referred to a committee of one from each district.

WRITING-ITS POWER.

What a wonderful invention this same writing is! that one's thoughts almost as soon as coined, should be transfixed in o visible characters. They trickle down through one's fingers and are indellibly daguerreotyped for public inspection. What is fancied in the mind-in spirit-takes on peculiar physical shapes called words, and by combining Mill Creek, these, the ideas, the coinage of the brain, Mount Carbon, the operations of that invisible, mysterious Little Schuylkill, ences, the sweet whisperings of the muses Lorberry Creek, and a portion of that sent

duced the rates of toll for merchandise on improvements between this place and Philathe State Works about 15 per cent, below delphia. While the population is increasing what they were last year.

G. W. MERCHANT'S CELEBRATED. CARCLING OIL.

Which is also a Universal Family Embrocation for Diseases of the Human Flesh. Diseases of the Haman Flesh.

TIME and experience has fully proved that this I CNYEESAL REMEDY had not its equal on the list of popular medicines, having been more than 14 years before the public.

Testimony of the most disuberested character of its wonderful effects on the animal economy is almost Testimony of the most disnuterated character of his wonderful effects on the animal economy is almost daily presented to the proprietor. A young man in the Town of Wilson, whose clothes were burnt off of him, was restored (without suffering,) by the timely use of this Oil.

Numerous are the unsolicited statements of patients themselves, and others who have used the Oil, ocures which in themselves appear so remarkable, tha were they at all interested in a peculiar point, they could hardly have been credited.

The following diseases are among many others in the cure of which this Oil has been completely successful and in which others had smirrly failed:—
spavin, Rweeny, Ringbone, Windgalls, Poli Evil, Cullous, Cracked Heels, Galls of alkinds, Lameness, Fresh Wounds, Sprains, Brukes, Sand Cracks, Foundered Feet, Kratehea, or Grasse, Manga, Rheimaltim, Birest of Animas, External Poisons, Palnful Nersons, Affections, Frost Bites,

Bolls, Corns, Whitlows, Burns and Bealds, Callhaine, Compet Contractions of the Muscler, Bwellings, Weakness of the Joints,

Caked Breasts, &c.

ATURE. PENNSYLVANIA LEGISM. On Thursday petitions were present. favor of incorporating a Eank at Tamaqua, with a capital of \$200,000 also of reporting an act authorizing the circulation of small notes. A number of bills were read, principally of a local character—one to prevent more effectually the selling of intoxicating liquors.

POSTSCRIPT!

41 cents per bushel.-

The following gentlemen were nominated for United States Senator. The election takes place on Tuesday next:

A. E. Brown, Townsend Haines, G. W. Woodward, Henry Chapman, Henry H. Foster, Arnold Plummer, Daniel Sturgeon, Wm. F. Johnston, Jas. R. Snowden, Peter S. Michler, Daniel M. Smyses, William Strong, Simon Cameron, Charles T. Ingersoll, Samuel A. Purviance, John Allison, Thomas C. Hambley, Thomas White, A. W. Loomis, H. M. Phillips, D. G. Wagner, W. F. Small, R. J. Fisher, Joseph R. Ingersol, Thaddeus Stevens, Wilson McCandless, George Chambers, Richard Vaux, John B. Smith, H. B. Wright, R. M. Patterson, D. E. Wagner, C. W. Puman, Richard Arthurs, Joseph B. Ard, G. M. Dalfas, G. B. Sterigere, J. G. Jones. A. E. Brown, Townsend Haines, G. W. G. M. Dallas, G. B. Sterigere, J. G. Jones, David Wilmot, A. H. Recder, J. B. Gordon, N. Strickland, Wm. Darlington, J. Sergeant, N. B. Eeldred, J. B. Yost, R. P. Fleuniken, F. X. McLanahan, Edward Darlington, J. B. Johnson, S. Calvin, Augustus Drum and

ames Pollock. Hon. Charles W. Pitman, appears to be the only candidate nominated from Schuylkill county.

CONGRESS.

No business of general importance transicted this week. Yesterday Mr. Chandler asked leave to introduce a resolution into the House, setting forth the inconvenience of the exportation of silver, and instructing the Committee on Commerce to reduce the value of U. States silver coins by diminishing their weight, or increasing the proportion of alloy, or both, if necessary, to prevent their exports. tion. Objections were raised.

From Washington .- The Treasury build ing was discovered to be on fire Thursday afternoon. It originated from the carelessness of the servants. No records or papers of any value were destroyed.

A OURIOSITY. A friend has sent us a copy of the Weekly Sonora Herald, a California paper. The

following are its terms of publication: For one year, \$20,00 For six months, Single copies. . There might be some excuse in not taking the papers at this price.

The Ladies Our Scrap-book furnishes the following worthy sentiment as the perpertration of the original John Smith: "The Ladies-The only aristocrats of the country,-they are unwilling that any man should be free, and they can't believe that all men are equal."

A Complimentary dinner will be given to day in the Chinese Museum Philada. to Capt. B. R. Mathews, commander of the lately arrived Steamer City of Glasgow. It will cost several thousand dollars, and is expected to be a splendid affair.

Masonic-The appointment of Wm. B. Potts Esq. of Orwigsburg Rt. W. Grand master for the counties of Schuylkill, Northampton and Carbon for the ensuing masonic year, was announced before the Grand Lodge of Masons of Pennsylvania, held last Monday in Philadelphia.

Gas in Harrisburg .- Gas is about being introduced into this city, though for the present the illumination is confined to the Capitol and the principle Hotels, until the Company shall have completed their fixtures in other parts of the city.

New Post Office. - A new Post Office has been established at Trevorton, Northumberland county. This place is only a tew months old, but it is growing rapidly and in a very few years will be one of the most important and prosperons towns in the

Webster on Hulsemann .- The late passes between Secretary Webster and Chevalier . Hulsemann have no doubt taught the Austrian Charge a thing or two. He certainly waked up the wrong passenger, when he pounced upon "black Dan."

TA new Post Office has been established Focht's Forge on the Little Schuylkill Railroad, in this county. Charles Focht ppointed Postmaster.

Counterfeits-The American says that nunterfeit \$5 of the relief re-issue, of the Harrisburg Bank, have just been discovered.

They differ from the genuine.

ANOTHER DISCOVERY. The Germantown Telegraph started out last week determined to create a sensation, and we suppose, it was not disappointed .--The Major is not apt to "draw on his imagination for facts." Either he is gloriously humbugged, or really there is something coming—hear him : "There has just been brought to light, the

application of a power, which is to supersede entirely the steam power of the world! This announcement may stagger some but the discovery, when it shall be divulged, will stagger them a thousand times more. It has been made by an Eastern man, who has completed his models—one of which will be deposited at Washington as soon as patent rights shall be secured in the different European countries. The machinery is entirely perfected—the power is a motive one, and steam has no part in creating it. So simple and economical are the principle and application, that two tons of coal will be

ufficient to drive the largest ship of the line around the world! more of this wonderful discovery; but we predict, with the greatest confidence, that a short time only will elapse before a total revolution will take place throughout the world, in our motive power system. Indeed, we assert, with the same confidence, that

the year 1850 terminated the sovereignty of steam!
This is no chimers. We mean what we say—and time, brief in point of duration,
