Wit and Humor.

THE PROPESSOR AND STUDENT A professor of Latin in the University of Edinburg, now no more, having desired the students to give a list of their names in Latin, was greatly surprised at seeing written on a slip of paper the name "Joannes Ovum

Novum. After in vain seeking for a translation of this, he at last became convinced that it was either one of those dark Latin passages, which even the skill of Bently would have failed in solving, or that it was a hoax. He therefore next day, in the class, read out the three dark words, and desired the

writer of them to stand. One of the pupils immediately rose.

"What are you?" said the professor. "A poor scholar, sir," was the answer. "A very poor scholar, indeed, sir-or you would never have written such stuff as "Joannes Ovum Novum." That can't be

your name, sir," "I don't see." said the student, "where you can find better Latin; my name is John Egnew, "Ovum" for Egg, "Novum" for

new; Ovum Novum-Egg-new." The professor seeing that he had rather the worst of it, immediately laid his finger upon his forehead, and looking at his hopeful pupil, who was standing somewhat in

the attitude of a drill sergeant exclaimed in a pitiful voice, "Alas! alas! something wrong here, doubt."

"May be so," shouted "Ovum Novum, "something may be wrong there; but," stri-Galop Brilliant, from the Opera of the Four Sons of Aymon, by T. C. Wiereck.

THE MAN WITH BIG FEET.

We heard to-day of a laughable "Anecdote of a man with a big foot.' He was a Buffalonian, who must be living now, for a man with so good a hold upon the ground, is not likely to "drop off" in a hurry. He stepped one day into a small shop a of boot-maker, in the flourishing capital of old Erie, and asked Crispin if he could make him a pair of boots. Looking at his long display pedal extremities, and then glancing at a huge uncut cow-hide that hung on the wall, he said-

"Well, yes, I guess so." "What time will you have them done?to-day is Monday." "Well, it will depend on circumstances;

guess I can have them done for you by Sat "On Saturday, therefore, the man called

for his boots: "Have you got 'em done?" said he, a

he entered the shop.

"No, I havn't—I couldn't, it has rained ever since I took your measure." "Rained!" exclaimed the astonished pa tron; "well, what of that? What has that

to do with it?" "What has that to do with it?" echoed Crispin; "it has a good deal to do with it. When I make your boots, I've got to do it out of doors, for I havn't room enough in my shop, and I can't work out doors in rainy

A gentleman in Twelfth street, who is in blacked, could not find his polished under-

the habit of sending his boots out to be standings one day last week. He sent his little son to the darkey's cellar but he returned saving it was shut up. The gentleman went himself in his slippers, and after rapping some time, he heard a noise inside.

Presently a window opened and Cuffy's head poked through,

Proposed through,

Pr

"I want my boots," said the gentleman "Sorry to form you, massa, dat you cannot hab 'um' replied Cuff. "Fac' is, I is give cout, busted, failed, broke, cleaned out jamped up, split, I is."

"But, Cuff," said the gentleman,, "I can' help that. I must have my boots." Cuff, finding his customer rather riled up, poked out of the window, one of the boots

and said-"Massa, I isn't tellin' no lie. I is clean bust and no mistake. I's taken an i'ventory of my a'fecs, and as I b'lieves, on the honor ob a gentleman, dat I shall be able to pay fifty cents on the dollar, I is willin' to gib you yours now : Dar it am. Take de

So saying, he slammed to the window. leaving our friend to go home in his slippers, with one boot in his hand-his fifty cents on the dollar.

This Animal," said an itineran showman, "is the royal African hyena measuring fourteen feet from the tip of his nose to the end of his tail, and the same distance back again, making, in all, twentyeight feet. He cries in the woods in the night season, like a human being in distress, and then devours all those who come to his assistance; a sad instance of the depravity of human nature."

Willie," said a doting parent at the breakfast table, to an abridged edition of himself, who had just entered his grammar at the high school-Willie my dear, will you pass the butter? Thertainly, thir; I liketh to parthe anything, -butter ith a common thubthantive, neuter gender, agreeth with rolleth, and in London ith governed by hog'th lard, undershood.

Sheridan was never free from pecuniary embarrassments. As he was one day hacking his face with a dull razor, he turned to his eldest son, (who was a chip of the old block.) and said. "Tom, if you open any more oysters with my razor, I'll cut you off with a shilling." "Very well, father," retorted Tom. "but where will the shilling come from?"

Cure for Lisping .- A British provincial paper says that a rapid and emphatic recital of the following pathetic narrative is an infallible cure for lisping :- " Hobbs meets Snobbs and Nobbs; Hobbs bobs to Snobbs and Nobbs; Hobbs nobs with Snobbs and robs Nobbs' fobs. This is, says Nobbs, the worst of Hobbs' jobs, and Snobbs sobs."

Humble as I am," said a bullying sponter to a mass meeting of the unterrified, MINERS' Boots and Monroes, or hirst quality, at low prices.
BOYS' and Youths' Boots and Monroes coure or fine. LADYS' French and English Lasting Gaiter Boots, Morocco, Calfskin and Goat Boutees, French Morrocco, Calfskin and Goat Botees, French Morocco, Rid well and pump spring Bucskins and Jeffersons, French Morrocco and Kid Turnrounds; from 50 ets. to \$1; Mew England Bootees and Shoes of all kinds cheap. . I still remember that I am a fraction of this magnificent republic." "You are, indeed," said a by-stander,

" and a d-d vulgar one at that." Why did Addam bite the apple?" asked a Sabbath school mistress of a bright little fellow of about six years old. "Cause," said the pupil, " he hadn't got no knife to cut it with !"

MARRIAGE:

WHY SO OFTEN UNHAPPY. THE CAUSES AND THE REMEDY!

MANY and many a wife endures years of bodily suffering and of mental anguish, prostrate and help-less, embittering her life, that of bor husband, and bazarding the future welfare of her children, arising from causes which, if known, would have spared the suffering, the anguish to the wife, and to the hus band embarrassments and pecuniary difficulties hav-ing their origin in the mind being weighed down and barrassed in consequence of the sickness of the companion of his bosom.

NEW BUSIC.—LEE & WALKER, SUCCES.

I sors to Geo. Willig, No. 162 Chesnut st. eet, under Barnum's Museum, have justpublished the ollowing beautiful Ballads, Polkaz, &c.:
Think ere you Speak, by N. J. Spotle
The Becret, by the author of "Will use we me then as now."

Saucy Kaie, as sung by Mr. Hudson, M. sic by Dr. Cannington. How important that the causes should be known to every wife, to every husband, that the dreadful and harmwing consequences to the health and happiness of both may be avoided! Life is too short and health too precious to admit any portion of the one to be spent without the full enjoyment of the other. The timely possession of a little work entitled as follows has been the means of saving the health and the life of thousands, as over TWO HUNDRED THOUSAND

copies have been sold since the first edition was is The author has been induced to advertise it by the urgent and pressing request of those who have been indebted to its publication for all they hold dear that all may have an opportunity of obtaining it), and who have favored him with thousands of letters of encomium, some of which are annexed to the adver-

THE MARRIED WOMAN'S Private Medical Companion. BY DR. A. M. MAURICEAU,

Twentieth Edition. 18mo., pp. 250. Price, \$. 10. Twentielk Edition. 18mo., pp. 230. Frite, 4.0.

THIS WORK IS INTENDED ESPECIALLY FOR THE MARRIED, or those contemplating marriage, as it discloses important secrets which
should be known to them particularly.

Here, every female—the wife, the mother—the
one either budding into womanipood, or the one in
the decline of years? in whom nature contemplates
an important change—can discoyer the causes, symptoms, and the most efficient remedies and most certein mode of cure, in eyery complaint to which her tain mode of cure, in every complaint to which he sex is subject.

The revelations contained in its pages have proved
the innumerable letter

s blessing to thousands, as the innumerable letter received by the author (which he is permitted by the writers to publish) will attest. SICKLY AND UNHAPPY WIVES. Extract of a Letter from a Gentleman in Dayton, O.

Extract of a Letter from a Gentleman in Dayton, O.

"DAYTON, May 1, 1847.

"DR. A. M. MAURICAU—My Dear Sir: 'The Married Woman's Private Medical Companion,' for which I enclosed one dollar to your address, came safely to hand. I would not have troubled you with these few lines, but that I am impelled by a sense of gratitude, for myself and wife, to give utterance to our sincero and heartfelt emotions.

"My wife has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent dancer, and which was, on the last occasion, despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. At this time (now about two months) I heard your book highly spoken of as containing some matters reaching my case. On its receipt and perusal, I can not express to you the relief it afforded my distressed mind and the loy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to
me which I little conceived was possible. No pecuniary consideration can ever repay the obligations I
am under to you for having been the means of imparting to us the matters contained in The Married
Woman's Private Medical Companion. But for
this, ere another year would have passed over my
head, in all human probability my wife would have
been in her crave, and my children left motherless."

Extract from a Letter.

Competence and Health "LANCASTER, PA. Oct. 24, 1847.

"My Dran Sir: I know you will have the kind ness to bear with me in encronching upon your time, while I beknowledge (in behalf of myself and wife) the obligations we feel ourselves under to you in having made known certain matters, contained in your most invaluable. Married Womania Private Medical Companies. It has been worth its register in cold most invaluable 'Married Woman's Frivate Metical Companion'. It has been worth its weight in gold to me. If I express myself rather warmly, you will see that I can not do so too warmly, when I inform you of the extent to which I have, through it, been benefited. I will state my situation when I obtained your book through the merest carriesity. I look upon it as one of the most figurate events of my life. I and been married some ten years, and was the father deeven children. I was long structling moreagnety. ind been married some ten years, and was the tailler deeven children. I was long strangeling onceasingly to the end that I might gain a moderate competency, but the results of my utmost exertions at the end left me about where I was at the beginning of each year and that only, with the most sinted economy, sufficient with barely the necessaries of life. Finally, this ong with barely the necessative of life. Finally, this constant effort upon one health: I felt less capable to endure its continuance, while I felt the necessity of perseverance. This constant, unceasing struggle on my part was imperative, in consequence of the prostrated condition of my wife twith occasional intermission) for aix vears, much of the time confined to her bed, and of the air of household affairs. Her condition arose-from causes of which I was ignorant. Oh! what would

ment of household situate. Her condition arose-from causes of which I was ignorant. Oh! what would I have given had I the six years to live over again! What would my wife have given to have been spared the long days and still longer nights prestrate on a bed of sickness!—all of which would have been avoided; had I then seen a copy of 'THE MARKIED WOMAN'S PRIVATE MEDICAL COMPANION." From a Physician. DANGEROUS DELIVERIES, OBSTRUCTIONS, IRREGULARITIES, &C.

How many are suffering from obstruction or irregularities peculiar to the female system, which, undermine their health, the effects of which they are in norant, and for which their delicacy forbids seeking medical advice! How many suffer from prolapsus where (falling of the womb), or from fluor-albus (weakness, debility, &c., &c.)! How many are in constant acrony for many months preceding confinement! How many have difficult if not dangerous deliveries, and whose lives are jeoparded during such time, will find in its pages the means of prevention, amelioration, and relief!

Extract, from a Letter. To those just Married.—" Had I known!" "PHILADELPHIA, Nov. 29, 1847.
"DR. A. M. MAURICEAU: Had I known of the important matters treated of in 'The Married Woman's Private Medical Companion' some years ago, how much misery I might have escaped! I have suffered years from eaties which you point out in your book, without knowing what to do. I trust every female will add the companion of the property of th

Letters are daily received of this character, unnecessary to present.

To those yet unmayried, but contemplating marriage, or perhaps hesitating as to the propriety of incurring the responsibilities attendant upon it, the importance of being possessed of the revelations continued in these pages, so intimately involving their future happiness, can not be appreciated.

It is, of course, impracticable to convey more fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage; ineither is it necessary, since it is every one's duty to become possessed of knowledge whereby the sufferings to which a wife, a mother, or a sister, may be subject, can be obviated.

ge or curiosity. Book-sellers, News Agents, Pediars, Cauvassers, August 21, 1850 The Greatest Discovery of the Age. DR. TRASK'S

MAGNETIC OINTMENT. A Sconstantly effecting cures of the utmost importance. The most incredulous are convinced—the most fatthlessare compelled to believe in the power and virtue of this great remedy.

It is universally admitted to be the most wonderful combination known to the world for the immediate relief of disease and pain.

It never falls while there remains sufficient life to restore harmal and healthy action to the capillary. blood. By this means a controlling power is gained over the most malignant forms of disease, which cannot be obtained from any other remedy. Such is the not be obtained from any other remedy. Such is the power of this combination that it penetrates to every portion of the human frame; every bone and muscle, vein and ligament is searched out and made sensible of its purifying and heating influence. Hence it comes it copes as readily with internal as external diseases. Numerous instances are on record where this remedy has restored health to patients so near the grave that the most powerful internal remedies failed to produce any effect. Such has frequently been the case in Influentiation of the Bowels.

No patient need ever die with this disease where the Magnetic Ointment can be obtained. That dangerous Epidemic known as the Patrid Erysipties.

can always be corred by this remedy. For

can always be cured by this remedy. For

Also, for sale by an Agent in each town in the State September 9, 1850.

burning in the flesh, constant imaginings of evil, and great depression of spirits, can be effectually cured by DR. HOOPLAND'S CELEBRATED GERMAN BIT-

DB. UOOFLAND'S CELEBRATED GERMAN SIT"Lebs, prepared by Dr. C. M. Jackson, at the German Medicine store, No. 120 Arch Street,
Philadelphia.

Their power over the above diseases is not excelled,
if equalled, by any other preparation in the U. States,
as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalds.
Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most
searching powers in weakness and affections of the
digestive organs, they are; withal, safe, certain and
pleasant.

READ AND BE CONVINCED.—The Hon. Charles D.
Hineline, Editor of the Camdem Democrat, the best
paper in West Jersey, says, July 21:—"Hoofland's
German Bitters.—We have seem many fattering notices of this medicine, and the source from which they
came, induced us to make inquiry respecting its merits.
From inquiry we were persuaded to use it, and must
say we found it specific in its action upon diseases of
the liver and digentive organs, and the powerful influence it everts upon nervous prostration is really surprising. It caims and strengthens the nerves, bringing
them into a state of repose, making sleep refreshing.

"If this medicine were imore generally used, we are
satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of
real and imaginary diseases emanate. Have them in

when all hope of relief had been given up, and everything else been tried in vain:

To illustrate the use of the GALVANIC BELT.

impose the case of a person afficted with that bane of civilization, DYSPEYBIA, or any other Chronic or Nervent which, by their action on the nerves and muscles of the stomach, afford temperary relief, but which leaves the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyseptic andrere, even in the worse symptoms of an attack, and simply the the Belt around the body, using the Magnetic Fluid as directed. In a short period the innensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and hence back again to the positive, thus keeping up a con-

hence back again to the positive, thus keeping up a coninuous Galvanic circulation throughout the system. Thus
the most severe cases of DYSPEPSIA are FERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY
SUFFICIENT TO ERADICATE THE DISEASE OF
YEARS. CERTIFICATES AND TESTIMONIALS Of the most Undoubted Character,

From all parts of the Country could be given, sufficien to fill every column in this paper! AN EXTRAORDINARY CASE, hich conclusively proves that "Truth is stranger than Fiction."

CUREOF Rheumatism, Bronchitis and Dyspepsia REV. DR. LANDIS, A CLERGYMAN New Jersey, of distinguished attainments and exalted

of New Jersoy, of distinguished attainments and exolted reputation:

Sidney, New Jersey, July 12, 1848.

Da. A. H. Christie—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows:

For about twenty years I had been suffering from Dysapsia. Every year the symptoms became worse, nor consider the suffering from the suffering from Dysapsia. Every year the symptoms became worse, nor consider the suffering from Dysapsia. Every year the symptoms became worse, nor considered the suffering from Dysapsia. Every year the symptoms became worse, nor considered the suffering from Dysapsia. Every year the symptoms became worse, nor consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. Farther: in the winter of '45 and '46, in consequence of preaching argent deal in my diven and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral thors. My nervous system was now thereughly prostrated, and as my Bronchitis became worse, so, sho did my. Dysapsias and Rheumatia affection—thus evincing that these subsorders were connected with each other through the faction of the Nervous System. In the whole pharmacoposis there seemed to be no remedial agent which could reach and recuperate my Nervous System; everything that I had tried for this purpose had completely failed. At last I was led by my friends to examins your inventions, and (though with no very sanguine hopes of their efficiency,) I determined toty the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This, was in June, 1846. To say dear it was examined to a superior of the splication of the GALVANIC BELT AND NECKLACE, with the AGNETIC FLUID. This was in June, 1846. To say dear it is the wonderful and happy resu

are. Such is the washing and selection of the server in the server in the server is the server in the server is the server is a server is the i am, dear sir, yery respectfully yours, ROBERT W. LANDIS.

DR. CHRISTIE'S GALVANIC NECKLACE is used for all complaints affecting the Throat or Head, such as Broughitis, Inflammation of the Throat, Nervous and Sick Headache, Dizziness of the Head; Neuralgia in the Face, Buzzing or Roaring in the Fars, Dealness, which is generally Nervous, and that distressed complaint, called Tie Doloreux.

Palsy and Paralysis.

All physicians acknowledge that these terrible diseases are caused by a deficiency of Nervous Energy in the steeted limbs. Da. Christic's Galvanic Articles will supply this deficient power, and; a complete and entire cure is thus effected. 1000 Cases of Palsy and Paralysis have been reported to Ds. Christiz and his Agent within the last two years, which have been entirely restored.

OF CAP. ANDREW J. F. Tomes of Brooklyn, N. Y., had not been able to walk a step for near four years, and was so helpless that he had to be fed. The most celebrated physicians gave him up. In five days after he commenced wearing the Galvanic Brit. Necklack, and Brit. Ext. Necklack, and Brit. Lets, he walked across the room, and in three weeks he had perfectly recovered his health. Captain Tomes is seventy years of age.

Severe Deafness Cured.

The following is an extract from a letter lately relived from a distinguished physician in the State ceived from a distinguished physician in the State of Virginia:

"A. H. Christir, M. D.—Dear Sir: One of my patients, unknown to me, chiained your Galbanic Bill and Necklace, with the Magnetic Fluid, for a serious affection of Deafness. The case was that of a lady whose Nervous system was much disordered, and her general health poor. Much was done previously to the application of the Belt, but with very little success, and I feel it only right to tell you, that since she commenced wearing the Belt and using the Fluid, but a few weeks ago, she has EN-TIRLLY RECOVERED HER HEARING, and her general health is better than for several years."

(G)— Every case of Deafness, if it be Nervous, as it generally is, can be cared by this wonderful remedy.

DR. CHRISTIE'S GALVANIC BRACELETS

Tic Doloreux and Neuralgia. These dreadful and agonizing complaints are immediately relieved by the application of the Galvanic Brit.

Necklack and Furn. The Belt diffuses the Electricity through the system; the Necklack has a local effect, and the Finis acts directly upon the affected neares. In these distressing afflictions the application NEVER FAILS.

100-Many hundred Certificates from all parts of the country of the most extraordinary character can be given, if required.

100-Mo trouble or inconvenience attends the use of DR. CHRISTIF'S GALVANIC ARTICLES, and they may be worn by the most feeble and delicate, with perfect cause and uslety. In many cases the sensation attending their use is highly pleasant and agreeable. They can be sent to sup part of the country.

BLAKE'S Patient Fire Proof PAINT.

FROM OHIO.

THE Subscribers have just received a further sup play of this singular and valuable substance. In addition to the state color, they have a beautiful chocolate orbrown, resembling the sand stone now in use, and so much adumbed for the from of buildings. Its principal ingredients are alice, a lumina and protoxide of iron, which in the opinion of scientific men satisfactorily accounts for its fire-proof nature—the two former substances being non-conductors, and the two former substances being non-conductors, and the latter acting as a cement, to bind the whole together and make a firm and durable paint.

For use it is mixed with Linseed Oil, and applied with a brush, the same as ordinary past, to wood it on, tin, zinc, canvars, paper, &c. It hardens gradually and becomes fire-proof. It is particularly suitable for roofs of buildings, stramboat and car-decks, all yand becomes fire-proof. It is particularly suitable for roofs of buildings, stramboat and car-decks, railroad bridges, fences; &c. A roofcoated with the article is equation one of side, at a vast saving of expense.

Specimens may be seen at the office of the analysis.

tage. Dr. Smith, of Boston, has hn aviary on his house-top, from whence his little winged laborers traverse the air eight or ten miles in search of food. What a delicious hanquet they afford from the rich nectar gathered! They collect honey and bread from most kind of forest trees, as well as garden flowers; orchards, forests, and trees, all contributing to their wants, and their owner gratified with the whole. Sweet mignonette is especially mentioned as easily cultivated by drills in a garden, and is one of the finest and richest flowers in the world from which the honey-bee can extract food. The cobweb must be kept away from the

AND CONTROLLER FOR THE CONTROLLE Dr. Swayne—Dear Sir:—A man purchased a bottle of your Verminge, the other day, for his child; and by lts use; discharged sixty-three of the largest worms he had ever seen. It is somewhat difficult to get the sometimes knock the apples off at a sad rate. Let no farmer be without an orchard because he does not happen to live on the south side of a hill. Plant good healthy trees on a well drained soil, and with atten-

tion to them afterwards, you will soon have fruit from them. While upon this subject, we would say a word about planting trees on the side of walls and fences. We, last winter, lost some young trees by the weight of snow which drifted upon them and crushed them down, breaking them off near the ground. We have noticed that many others have lost trees in the same manner. In order to obviate this, it will be a good thing to place the stakes round them in the fall, together with brushes applied in such a way as to take most of the weight, instead of bearing on the young tree. By a protection of this kind, until the tree is large enough to resist

such action, it will be saved from hurt. FARMERS ITEMS During the winter season, when every farmer has more or less leisure time, the numberless little "odd jobs," that go to make up the aggregate of good farming should be attended to-for instance:

Gates .- There should be no bars about a farm. Good, substantial gates should take their places everywhere. The American Former justly remarks, There is more time lost in taking down and putting up a set of bars in a year than would pay for two gates." Tool Houses. Your tool houses should be well supplied with necessary tools, which should be kept in good repair. A workshop

save its cost in a couple of years.
