R. RUNDLE SMITH, Secretary

THE PEOPLE'S ROAD.

We have received, from our Representatives, copies of the Charter for the new Road from the Coal Region to Philadelphia. The principle features of the Bill are these: The shares are fixed at \$20, bringing them within the reach of all classes of the community live. Yeas 31; nays 13. -the Capital Stock is limited to seven milper cent. is allowed on the instalments of several members desiring to speak on it. stockholders, as paid in after the road is complan will secure all the funds required for its construction at the regular rate of interest, while at the same time, it invites investments which will pay much better than in real estate. The charter limits the expense of transporting coal to the Delaware at \$1 25 per ton, and for Passengers not to exceed three cents per mile. The company will have the exand fegulations, which the Company are the county, free. bound toursusport, and charge therefor not more than 24 cents per mile for each passenger, nor 3 cents per mile for each ton of two was afterwards made for incidental and conthousand pounds freight-3 cents per mile for each Passenger or Baggage Car, and 2 cents ment in California, per mite for each burthen or freight car, four wheels being computed a car. The Charter is liberal to the Corporation.

while at the same time, the community is protected from exorbitant charges. As soon as seventy-five thousand shares are subscribed, and two dollars paid on each share, the Company can be organized and the work commenced, provided it is commenced within two years from the date of the act. We learn from Harrisburg that the Bill meets with great favor, and there is but little doubt of its passage. We are safe in stating, that at least two

hundred thousand dollars of the stock of this Road can be obtained in Schurlkill County. Every owner of property in the Region will take some, and even journeyman mechanics, miners and others, will subscribe to the stock with a view of aiding the enterprise.

EXPENSES OF RAILROADS.

Our Estimats. We glean the following from the recent the New York and Eric Railroad.

"This Road when completed, including the New urgh Branch, will be 465 mires in length. The whole cost of the road, with ample depot grounds and build ings, and equipments for operating the road, togeth-er with the Newburgh branch, and valuable, and ex-, and New York, with extensive machin amons, barges, attainboard, &c., wit becaute the time of reacting the lake, about, (\$20,50-,000) or, after deducing the value of the equipments, (\$2,500,000) \$35,700 per mile—a cost by no means targe, when compared with other important railroads in the country. It is constructed in the most substantial manner. The bridge aboutments are of solid coment majoury, and the arched origins some of them gigantic in size, are models for strength and durability. Within the last your, paris of the road on the Eastern division have been removed and replaced by others upon durable stone abutments. As a whole, the road is interior to more in the permanency of its construction, in the capacity for doing business, and in its susceptionity to economy in working.

The cost upon the Western division has been augmented largely, if hot mainty, by adopting a new line, other than that upon with a grade of 60 leet to the mile

From the above it would appear that the law to have such forfeiture declared. whole expense of completing this road has been only \$38,706 per mile, without the than down the Valley of the Schuylkill.

Railroad, estimating fron at \$50 a ton, (which would command the best American Iron) including sleepers &c., laid down, is about \$13,000 per mile. At our estimate this would leave \$27,000 per mile for grading between this place and Philadelphia. There are many, who believe the Road could be constructed for about 30 or \$35,000 per mile; we, however, prefer being a little too

WETHERILL DIVORCE CASE.

This case is now before our Legislature again. On our first page will be found Mrs. Wetherill's address to the Senate and House of Representatives, in reply to her husband's application for a divorce. It is a most eloquent appeal. It bears the evidence of honesty and truthfulness in every line, and must carry conviction wherever it is read. She are involved some very important questions stories high, with a stone basement, cost-\$5,500. speaks of her husband as "deceived" and " misguided, " and, not withstanding his continued ill-treatment toward her, expresses the hope, that he may yet be reclaimed. We hope, for the credit of the State, as well persons, generally emigrants, during the as in justice to Mrs. W., that the application for divorce will fail and any member of the Legislature, who votes for it, in considera. four hundred and fifty acres of land each : tion of all the sircumstances of the case, must certainly be influenced by more weighty arguments than we can imagine are found in the mere application.

Commerce of New York and Boston. We observe by a table of statistics representing the respective commercial positions of these two cities that New York had nearly five times more foreign imports, and over six times the exports of Boston last year.-The progress and advancement of this great commercial emporiom is so enormous that it astonishes any one who looks into the statistics of its trade. The imports of 1850 exceeded those of 1849 more than forty million of dollars, and its exports were more than double those of 1840, and even twenty-one millions more than in 1849! No year that has ever passed shows such an immense husiness as the last. N. York seems rapidly advancing to that position in commerce. which will make her in a few years the

Scott and Johnston seem to be almost unansional character in the report of Elizur imously adopted throughout the State, as Wright's examination before the United the next Whig candidates for the Presidency States Commissioner. and the Gubernatorial chair of the Keystone. No better selections could be made for the respective offices.

lions of dollars; and interest, at the rate of 6 final passage was postponed on account of menced, until it is completed, which is to be Rusk's bill and the House bill, are that Mr. ded the evening's "performance" with a volunta. charged to the construction account. This Rusk's bill provides for a postage of three ry, and a refunding of the small change-very small; not pre-paid on letters less than half an ounce, and for any distance exceeding three thousand miles, double these rates. Instead of the uniform rate of one cent on newspapers, it provides a tariff postage of from five to twenty-five cents per quarter for weekly papers, according to distances; semi-weeklies. clusive control of the motive power-but double; tri-weeklies, treble, and dailies five others may put on Cars, under their rules times these rates. Weekly papers within

It passed finally on Wednesday by a vote tingent expenses in the Post Office Depart-

the ability and patriotism of his late letter in reply to Chevalier Hulseman. He richly deserved such a compliment. This correspondence has attracted very general attention over all Europe, as well as throughout this country, and proportionally raised Mr.

It passed on Wednesday. Several attempts were made to tack the Tariff to it, but they vere-ruled out of order.

Congress will adjourn on Tuesday. Some. thing may yet be done with the Tariff by attaching it to some other Bill, but the chances in its favor are growing very small.

PENNSYLVANIA LEGISLATURE. The usual variety of petitions have been presented during the week. On Thursday, road from Pottsville to Philadelphia; also for the immediate removal of the seat of Justice

House-eight for the new road; also, one for the charter of a railroad from Tremont to Mount Eagle. Mr. Shaeffer on the same rably scalded, but not dangerously, as at first apprer Arkansas, day presented petitions from citizens of Potts- hended. ville, Schuylkill county, asking the repeal of the act of April 12th, 1828, prohibiting the banks of this Commonwealth from issuing in Stichter's Hall, next Friday evening. Many small notes under the denomination of five

dollars. A motion was made by Mr. Frailey, in the Senate on Monday, providing that hereafter incorporated companies pay the interest falwas made; by which a grade of 60 leet to the mile continuously, for 14 miles, has been reduced to 40, and the distance anortemed six miles. The has been done on the fifty miles hearest Dunkirk, and will save the in current or legal funds of the Commonon the fifty miles hearest Dunkirk, and will save the company annualty, in working the road, the interest spon four times its extra cost! Other important changes have been made in the line of the road, by which many miles of a continuous grade of sixtynine feet have been reduced to fifty feet per mile. The right of way contingent upon a thange of line has been expensive and the extra cost rendered necessary in hastening the work, compliance with the requierment of the state, to finish it within a prescribed time.

Therefore the charge of the state is to finish it within a prescribed time.

Therefore the charge of the charge of the charge of the state is to finish it within a prescribed time.

Therefore the charge of the

In the Senate also on the same day, Mr. equipments, over a much more rugged route Navigation and Internal Improvement reported a bill for the management of the Public The superstructure of a double track of Works. their business and ruin.—Newark Advertiser.

DECLINE OF THE SLAVE TRADE.

The United States Gazette of a late date says:

"Our private accounts from the coast of Africa state that the Slave trade is on its last legs, and nearly all the slave dealers on the South Coast are Bankrupt. Such was the vigilance of the cruisers that there were 8000 slaves in the barraccoons at Ambriz which they would not run the risk of shipping. The Phænux, screw sloop, Commander Lysaught, was stationed off that place.
