MPORTANT CORRESPONDENCE: TRIUMPHI OF WRIGHT'S INDIAN VEGETABLE FILLS IN SOUTH AMERICA:—VELLOW FEVER CU-RED: TRUTH STRANGER THAN FICTION! IN SOUTH AMERICA:—VELLOW FEVER CURED: TRIVII STRANGER THAN FICTION:

SALEM, Mass., April 25, 1831.

William Wright, Eag.—Dear Sir.—For many years
we have been the Ralem agents, and also at one time
the county agents, for the sale of your valuable medicine, and during the whole of this time we are not
aware that, in any one instance, have the pills which
we have sold been complained of as causing injury, or
not accomplishing their proper mission. It is doubly
gratifying when we receive voluntary testimony from
a source where the medicine which is sold has been
the means of doing great good and of saving many lives;
Last year we sold three dozen bears to go to aforeign port, and this day have received a letter from the
merchant who ordered them, giving an account of the
wonderful effects which they did in curing a large
number of persons who were attacked with a prevailing epidemic similár to the yellow feser; while those
under the regular physicians' treatment, who were in
the Hospital, some three bundred, including the
flovernor, Magistratea, &c., fell victims to the disease.
If you would like a copy of our letter, we don't know
of any impropriety in giving it you, and perhaps it
would be of service to have it published, together with
our names, as it is addressed to us. We will consult
the parties interested, and if you wish it, you will
please write us. Respectfully, yours,

The following is the letter alluded to above:—

CAYENER, March 22 [185].

Mentre, W. & S. B. Iver, Merchants, Salem:—
Gentlemes—For some years past is have adopted in my family, as a purgative; Dr. Wright's hidian Vegetable Pills (for whom you are his agents in Salem) and have found that medicine of great worth.

Last Normeber we were visited by a kind of inflammatory fever, (the same I presume which greatly articled the symptoms of which had an analogy to the yellow fever, and nearly three thundred persons fell victins to the epidemic (a great number for a population as small as ours,) Our doctors named it the true yellow fever, where the more depresons fell victins to the glocal content of the supplication of leeches, forbidding the use of purguitses, and characteristics and worked from the inside of the Churn by simply under their mode of treatment to the use of quidoinc, and the application of leeches, forbidding the use of purguitses, and of course all the soldiers and sallors, who were obliged to be sent to the Hospitals, as also the Goverinor, several Magistrates, several officers, and in fact all those who were really affinced with the disease, fell victims under their mode of treatment.

A month previous, I had received three dozen boxes of Dr. Wight's Pills, which I presume were bounts of the production, and with whom an and doing basiness. I had the opportunity to administer these Pills to several under under our content of greass, garden, and field seeds, all parts of England, Ireland, Scotland as a formation, and with Measure and the proportunity to administer the product the compaint. I then gave away nearly all my Pills to soveral under or of eight Pills each completely curred them of the compaint. I then gave away nearly all my

these rins to several unter my inch, who were maintied with the same fever, and two doses of eight Pills
each completely curred them of the complaint. I then
gave away nearly all my Pills to some twenty or thirty persons, and all were relieved as it were by enchantment.

The following is from the New York Farmer and Mechawic of November 7th, 1850, and was written by Mr. Starr, the editor, who visued the lands. The wheat/potatoes, and crops, referred to in the article, were raised at Lakeand, near Hermannville Station:

"Having a few hours' leisure during the past wees, we were conveyed over the Long Island Bailroad, to a large tract of the country, about fifty miles from New York, which we find to be capable of very successful and profitable cuitivation. Although late in the season, and viewed under some disadvantage, we were surprised at the quality and abundance of the crops which had been gathered from a protion of the land, availso the winter crops, "which appeared unusually

The article sold as Old Dr. Jacob Townsend's, is all a "Humbing." Jacob Tow-send is a Vender of Periodicals in New York, and a firm pay him several hundred tollivrs a year for the use of his name, for the purpose of manufacturing a spurious article, and palm it off upon the public as the "genuine article," by calling it old Doct. Jacob Townsend's Sarsaparilla.

RHYMES FOR WORKERS. BY ERNST WATMOUGH. . Kend a poem; 'tis a pleasant And a soul-refreshing deed;

And a soul-refreshing deed;
head a poem, 'tis improving,
But consider while you read.
Prize the words for they are jeweis
From the spirit's choicest mine;
Learn their import and their teachings
4 With thine own ideas combine.
Write a Beauty of the spirit with the spirit services of the spirit serv Write a Poem; if the power To accomplish it is given; Write it, with a noble purpose, Making earth the nearer Heaven Let not love's delirious passion :
Be enwoven in thy theme,
Make the cause of human progress The incentive of thy dream

Live a Poem; for 'tis better

Thou wilt prove a noble poem' Lasting to the end of time.

I have found it very useful in various ways, both as a medicine for the cure of what is called the "cake in the bag," and. also, as food, but should not be given in too large quantities, it is best to mix it with other food and chop it up in small pieces.'

THE POTATOE ROT. Another candidate, named Phanueil Flanders, has just laid claim to the reward recently offered by the Legislature of Mass., for the discovery of some specific for the above named disease in the potatoe. He says the evil consists in a small black bug, which preys upon the leaf until it destroys the vine and causes the root to rot. The remedy which he proposes, and the virtue of which, he asserts, is proved thoroughly by much experience, is to sprinkle all the vines once a week, after the appearance of the insect, with a weak solution of lime. The presence of the bug is always indicated by an appearance of rust. Two casks of lime to the acre is thought to be sufficient.

SOUETHING VALUABLE TO KNOW. It is an ascertained fact that powdered charcoal placed around rose bushes, and other flowers, has the effect of adding greatly to the richness of the flower. We-find in a late number of the New England Farmer, very strong evidence of the truth of this statement.

GATES. Every gate should be kept, in good selfhuting, self-latching order. A hole should be bored in the post of every gate, and filled with grease, for readily applying to the latch or hinge, when the one will not play freely or the other creaks.

CHARCOAL FOR SWINE. Allow your swine a liberal supply of charcoal. A box should be kept in the pen well
