strong—be careful—stand upright and firm-ly. Be indifferent to nothing; but very par-ticular in all your dealings. Such a course But one of the most singular instances in

connection with material things, exists in will secure you the approbation of allithe case of a young man who not very long ago visited a large iron manufactory. He

CLERGYMAN' of the Preston (England) House of Correction, states that out of 1945 stood opposite a large hammer, and watched with great interest its perfectly regular individuals admitted in the year 1849, 936 strokes. At first, it was beating immense could neither read nor write; 533 could read; lumps of crimson metal into thin, black | 441 could read and write ; 26 could read and sheets; but the supply becoming exhausted, write fluently; so that only 1 to every 100 at last it only descended on the polished an- possessed what is termed a good education. vil. Still, the young man gazed intently on He states further, that 1312 could not give its motion ; then he followed its strokes with the names of the months, 1198 were ignora corresponding motion of his head; then ant of such words as vice and virtue, 367 his left armemoved to the same tune; and, | could not count 100, 1173 did not know the finally, he deliberately placed his fist upon name of the reigning Sovereign, and 785, the anvil, and in a second it was smitten to did not know the name of God. This is a jelly. The only explanation he could al- indeed a frightful picture of ignorance.

ONE OF THE most singular mechanihe knew he should be disabled : that he saw all the consequence in a misty kind of man- nal inventions displayed at the World's Fair is the model of a man by Count Danin. It represents the figure of a man five feet high, in fact, to which he succumbed, and by which in the proportions of the Apollo, and from that size the figure can be increased in all its suggests many things, besides proving the compartments to six feet eight inches. It is peculiar nature and power of morbid impul- intended to facilitate the clothing of an army; ses; such things, for instance, as a law of and it is so ingenious that the Emperor parsympathy on a scale hitherto undreamt of, doned and recalled Count Danin, who is a as well as a musical tune pervading all Pole, on seeing the result of many years labor and ingenuity. The number of pieces composing this model is 7000.

> To MAKE WATER COLD.-The followng method of obtaining cool water has been found to work well, and those who cannot readily procure ice, should give it a trial :---Let the jar, pitcher, or vessel used for water, be surrounded with one or more folds of coarse cotton, to be constantly wet. The evaporation of the water will carry off the heat from the inside, and reduce it to a freezing point. In India and other tropical regions, where ice cannot be procured, this is comniou.

TATMOSPHERIC DECEPTION IN NORTH-ERN LATITUDES. - We had frequent occasion, says Parry, in our walks on shore, to remark the deception that takes place in estimating the distance and magnitude of objects, when viewed over an unvaried surface of snow.-It was not uncommon for us to direct our steps towards what we took to be a large mass of stone, at the distance of half a mile from us, but which we were able to take up in our hands after one minute's walk.

THE MOST aristocratic mau of our acquaintance is the grandson of a fidler; the proudest woman, the daughter of a washwoman. It betrays a lack of good sense to look with with contempt on any virtuous person, however poor he or she may be. The wise and good respect and love goodness, wherever it may be found.

.... One of the chief characteristics of a truly great man is; his refusal to be entirely mould-or wantonly twist it in the soil, and a scar-SCRATCH the green rind of a sapling, ed into the form of the society in which he red or crooked oak wilt tell of the act for lives, and his striking out bold and original centuries to come. How forcibly does this paths of his own. He stamps his own mind figure teach the necessity of giving right on the age in which he lives. He often fights tendencies to the minds and hearts of the with and controls circumstances; rises in young.

Indeed it would seem when the Ainighty ir. trusted great faculties to any man, he placed judge of character, once said, "When I see him in adverse circumstances, in order that one of my apprentices or clerks riding out on the majesty and might of those powers might the Sabbath, I dismiss him on Monday. Such
