☞ A western editor with a passion to rhyme, thus sets his rhyming machine in motion, on the subject of Bloomerism:

The ladies put on tights,
Would you know the reason,
'Tis the age of woman's rights,
The warm and planing season.
The ladies want to get a gain,
As every body knows,
And man (deny ye who can.)
Is mostly made of clothes.
Lo, woman takes the male attire,
Because she deems the breeches
Of promise," and the dress does "higher,"
To mortify male wretches.

☞ An editor off towards sunset has fallen into the hands of the Philistines, and breaks forth in the following heart-moving appeal:

"Sheriff, spare that press,
Touch not a single type,
Don't put me in distress,
To stick to me through life;
'Tis all in all to me—
If lost, what shall I do?
Then, why not let it be?
Oh Sheriff—boo! boo! boo"

Wit and Humor.

A SURPRISE.

Some college chaps were closely engaged at some forbidden game, when a footstep in the passage approached the door, and the familiar cough of Professor H. was heard.—The room was on the first floor, and it was but the work of a moment to gather up and jump out of the window. In this all succeeded except Jim, who threw himself behind the bed.

"The wicked flee, when no man pursueth," said the good old Professor as he entered.

"But the righteous are as bold as a lion," answered Jim, as he jumped up from his hiding place.

The Professor laughed and said,

"True; but the lion should not wag his tail, or color in the face so much."

☞ A Friend tells us the following, which we consider a "good un."

Being in a mechanic's shop, the other day an urchin came in, his dress covered with mud. His father, observing his dirty plight, said to him:

"William, my son, how came you to muddy your dress so?"

The boy stopped a moment, then looking his father in the eye, very soberly asked—

"Father, what am I made of?"

"Dust. The bible says, 'Dust thou art, and unto dust shall thou return.'"

"Well, father, if I'm dust, how can I help being muddy when it rains on me?"

"William! go down stairs and get some wood. Start."

☞ The Portland *Advertiser* tells an anecdote of the Commencement the other day at Brunswick. One of the family met an old graduate, Mr. G., amid a circle of friends, and remarked, on shaking hands, "that he never saw him without being reminded of the circumstances of their first meeting."

"What are they?" asked G. "Why, you were in your room engaged *in playing* with a dog you kept there!" "But," responded G., putting on one of his solemn looks, "do you know *why* I kept him?" "No," was the answer. "Well," said G., "the wood which the faculty furnished us with that spring was green and wet, and I kept that dog in my room that I might kindle my fires with the bark." The professor vanished.

☞ "Uncle Jotham," said the youthful connection of an old Connecticut farmer,—"how, sir, you tell me whereabouts—now—how far 'us tew Uncle Sylvanus's?" The old man looked rather indignant and answered "Tom! are yew always going to be such a cussed fool? Havn't yew been there to hayin' and harvestin'—to borrow neck ropes and sich like, and didn't yew go there yesterday to thresh; and wan't yew there this very mornin' to drive cows to pastur; and here yew come neow to ask what Uncle Sylvanus's is! Don't yew know it?" "Why yes, Uncle Jotham. I know wear it is myself wall duff; but—heow—I am axing for this ar' leetle boy, he wants to know."

☞ "Captain D." said one of his lady passengers, "you must be a happy man, to be master of so beautiful a boat." "She is a beautiful boat, madam—sits on the water like a duck." "He was in town so long as the conversation was about steamboats.—"Captain D." said another lady, a blue-stocking of the Lydia Languish tribe, "what do you think of the immortal Shakspeare?"—"Think, madam! think! I think she burns too much wood, draws too much water, and carries too little freight." We never learned whether the Captain staid any longer or not.

☞ A Lady one night at a party was much annoyed by the impertinent remarks of a coxcomb who sat near her: at length becoming tired and vexed, she said:—

"Be pleased, sir, to cease your unbecoming impertinence."

The fellow was astonished at so sudden a rebuke and could only reply—

"Pray, Miss, do not eat me."

"Be in no fear, sir," she replied, "I am a Jewess."

☞ As two urchins were trotting along together, one of them fell and broke a pitcher which he was carrying. He then commenced crying, when, the other boy asked him why he "took on so?" "Cause," says he, "when I get home, mother'll lick me for breaking the mug." "Wha'," said the other, "haint you got no Grandmother living at your house?" "No," was the reply.—"Well, I have, and might break two mugs and they daren't lick me."

☞ A writer says women require more sleep than men, and farmers less than those engaged in almost any other occupation.—Editors, reporters, and doctors, need no sleep at all. Lawyers can sleep as much as they please, and thus keep out of mischief. Clergymen can sleep twelve hours out of twenty four, and can put their parish to sleep once a week.

☞ Should you meet a gentlemen on election day going home on a wheelbarrow, his hat very much on one side, and all his ideas inflamed with the "constitutional privileges of electors," you may hazard the opinion that he is drunk, decidedly drunk, without incurring any of the risks connected with the law of libel.

☞ An Explicit Answer.—A learned counsel once said to a witness: "Sir, did I understand you to say that you saw the defendant strike the plaintiff?"—"I know not what you may have understood," said the witness, "but if my eyes served me properly, I certainly did witness a manœuvre that would warrant such a description."

☞ Said a Bed-Bug to a Mosquito, whom he chanced to meet, "how is it that you make out to extract more of life's current than myself, when I can bite as hard as you?" How can you explain?" "For particulars see small bills!" quoted the mosquito with dignity.

☞ A Sufficient Excuse.—A gentleman having lately been called on to subscribe to a course of lectures, declined, "because" said he, "my wife gives a lecture every night for nothing."

AGENCY OF DR. SWAYNE'S
COMPOUND SYRUP OF WILDCHERRY.

READ, AND BE CONVINCED.

Point of Rocks, Frederick County, Md.
June 9th, 1851.

Dr. Swayne.—*Dear Sir:*—Believing it a duty I owe to the public, and in justice to you, I have thought proper to make known one of the most extraordinary cures, in my own case, that has ever been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abcess, and also communicated to my lungs, and very much afflicted them, and discharged large quantities of corruption, external and internal, that is, large quantities passed through my Lungs, which threw up. My breath could also pass through my Lungs, and out through the cavity of my breast with apparent ease, attended with a violent cough, day and night, loss of appetite, and extreme debility, so that my physicians thought my case entirely hopeless and beyond the power of medicine.—I remained in this wretched condition for a long time until I was reduced to a mere skeleton, and there seemed to be no hope for me, but having read in the public papers of the many wonderful cures performed by your COMPOUND SYRUP OF WILD CHERRY, I immediately sent to Baltimore for five bottles and commenced its use, and to my great satisfaction and anxious family, the abcess of opening to my lungs began to heal, and the cough subside, and on using in bottles I was restored to perfect health. I feel very grateful and firmly believe, that to your valuable medicine, under the blessings of Divine Providence, I am indebted for this great change, and I am happy to say that I am now enjoying as good health as I ever have.

For the satisfaction of those who are not acquainted with me, I append to this certificate the names of gentlemen well and favorably known to a large portion of the citizens of Maryland and Virginia, and with confidence induce all who are similarly afflicted to try your wonderful and invaluable Compound Syrup of Wild Cherry. Yours, Very Respectfully,

THOMAS DIXON, Jr.

The subscriber is well acquainted with Thomas Dixon, and can testify that he has been afflicted as above represented. I regard his recovery as almost a miracle. He is a worthy member of society.

JAMES R. DURBOROW,
Pastor of Berlin Circuit, Baltimore Conference.

We, the undersigned, residents of the Point of Rocks and vicinity, are acquainted with Thomas Dixon, and know him to have been afflicted as above represented, and as thought by his friends, as well as by our physicians, to be past recovery, but by the exclusive use of that inestimable remedy, *Dr. Swayne's Compound Syrup of Wild Cherry*, is now restored to perfect health, and we feel duty bound to recommend such a valuable medicine to all who may be similarly afflicted

The above invaluable medicine is the result of many years extensive practice in Philadelphia by Dr. Swayne.

Very Important Caution.

Remember no preparation of Wild Cherry is genuine, except the original article as prepared by Dr. Swayne. See that his *Portrait* is on the wrapper around each bottle. Until you obtain this Compound you will never know the real virtues of Wild Cherry.

ever offered to the Public.

J. J. Ayres, a highly respectable merchant of Williamsport, Pa., states: I have tried some Vermifuge in my own family, and can speak in the very highest terms of it. My wife is so much pleased with it she will use no other.

Remember! none is genuine except that in square bottles, with the portrait of Dr. Swayne on each wrapper.

☞ See that the name is spelt correctly.

SWAYNE.

Dr. Swayne's Sugar Coated Sarsaparilla and Extract of Tar Pills.

These are undoubtedly the best Pills offered to the public, and every family should be without them. Safe and easy in their operation, without producing any griping pain or unpleasant feelings. They are peculiarly adapted to cleanse and purify, thereby rendering the blood pure and invigorate the whole system. A few doses will oftentimes prevent a severe attack of sickness, and for complaints to which females are subject they are invaluable. No Pills can have a better effect than these for monthly irregularities which occasionally happen to women. They assist at the commencement of puberty; also when there is a suppression from cold, or improper exposure, and even at the time of their entire cessation. By taking this medicine, women would be carried on through with the change of life without danger or Infringement on their more youthful days of womanhood.

Be particular to obtain the genuine, see that they are in boxes turned out of the solid wood, covered with a red label with the signature of Dr. Swayne thereon.

REMOVAL

Dr. Swayne, Proprietor of the widely celebrated Compound Syrup of Wild Cherry and other Family Medicines, has removed his Principal Office from the corner of Eighth and Race streets to No. 4 North Seventh Street, above Market, Philadelphia, where all orders must be addressed.

PURE WHITE LEAD.

WETHERILL & BROTHER, Manufacturers, No 65, NORTH FRONT street, Philadelphia, have now a good supply of their warranted pure WHITE LEAD, and those customers who have been sparingly supplied in consequence of a run on the article, shall now their orders filled.

No known substance possesses those preservative and beautifying properties, so desirable in a paint, to an equal extent with unadulterated white lead: hence any admixture of other materials only lessens its value. It has, therefore, been the steady aim of the manufacturers, for many years, to supply to the public a perfectly pure white lead, and the unceasing demand for this article is a proof that it has met with favor. It is invariably branded on one head: *WETHERILL & BROTHER* in full, and on the other, *warranted pure*, all in red letters.

A PAPER FOR EVERY BODY!

AN ENTERPRISE RAISED ON LOW POSTAGES

PROSPECTUS OF THE

WEDNESDAY DOLLAR JOURNAL.

THE "WEDNESDAY DOLLAR JOURNAL" is the title of a weekly paper, to be published in this Borough after the first of July next. The DOLLAR JOURNAL will be devoted to EDUCATION, TEMPERANCE, POLITICS, AGRICULTURE, GENERAL NEWS, &c. It will be independent in character, fearless in tone, and aim constantly to furnish the most correct, dispassionate, and reliable views of the subjects under discussion. It is designed expressly to accommodate the wants of the *people*, in asserting and advocating their rights, and likewise as a medium of expression for their views: the publisher therefore *intends to make* it just such a paper as the spirit of the times demands, for circulation among the masses. Its cheapness, and the importance of the field of labor it enters upon, will very greatly extend its circulation, and render it undoubtedly one of the most serviceable journals of the day.

The JOURNAL will be printed on good paper, about the size of the MINERS' JOURNAL, before its enlargement. A new font of type is now casting for it; and when the casting of a Power Press can be put, publisher hopes to furnish a paper that will compare favorably with any in the State.

The paper will be entirely distinct from the MINERS' JOURNAL; and therefore those who now take that paper, need not hesitate to subscribe for the WEDNESDAY DOLLAR JOURNAL.

The first Number of the DOLLAR JOURNAL will appear in June, as a specimen, and be continued regularly after the first of July. Subscribers will therefore send in their names immediately, as the paper *will be published*

TERMS:—$1 a year, payable in *advance*.

Clubbing.

The WEDNESDAY DOLLAR JOURNAL will be furnished to one address, as follows:

15 copies,	-	12 00	" " 16 00

The very low rates at which the paper is offered, compels us to require the subscription invariably in advance.

Particular attention will be paid to the state of the markets in the Coal Region.

As several thousand copies of the specimen number will be printed, it will afford a fine opportunity for advertising. Advertisements intended for the specimen copy, must be sent in before the 10th of June next.

Every young man ought to subscribe to this paper, as the terms of subscription are within the reach of all.

Post Masters will please act as Agents, in forming clubs, &c., and forwarding subscriptions. For every Club of Fifteen, we will furnish a copy *gratis* to the person who forms the Club.

The WEDNESDAY DOLLAR JOURNAL is published every Saturday, on an extra large sheet, at $2 per annum for Clubs, as follows: To one address, three copies $5; seven copies $10; fifteen copies, $20; and one copy *gratis* to the person who forms a Club of fifteen.

S. P. TOWNSEND'S SARSAPARILLA
The Genuine Article.

GREATLY IMPROVED—MANUFACTURED BY Dost. CHILTON, the Great Chemist.

Dr. S. P. Townsend's Sarsaparilla,

The most Extraordinary Medicine in the World: over two hundred and fifty thousand persons cured of various diseases, within the last two years. It cures Scrofula, Stubborn Ulcers, Effects of Mercury, Fever Sores, Erysipelas, Inflammation, Consumption, General Debility, Dyspepsia, Costiveness, Skin Diseases, Liver Complaint, Dropsy and Gout, Rheumatism, Cancers and Tumors, Heart Diseases.

The great beauty of this medicine is, that it never injures the constitution, and thus always beneficial, even to the most delicate, and is the only medicine ever discovered that creates new, pure and rich blood, and that reaches the bone. Thousands are ready to testify to its many cures.

GREAT SPRING AND SUMMER MEDICINE.

Every person should take a bottle spring and fall, to regulate the system and drive out humor.

TAKE CARE OF YOUR CHILDREN.

One bottle of Dr. S. P. Townsend's Extract of Sarsaparilla will cleanse the system of a child.

READ THE EVIDENCE.

This is to certify, that my child was afflicted with a horrible disease in the face (which resisted the efforts of my family physician,) and was entirely cured by half a bottle of Dr. S. P. Townsend's Sarsaparilla.

WILLIAM WOOD,
Pastor of M. E. Church.

Uniontown, Fayette co., Pa., July 2, 1850.

This is to certify that we have sold Dr. S. P. Townsend's Sarsaparilla for many years, and consider it a very valuable medicine, many cures having been effected in our vicinity. A young man by the name of Westley Rotherock, of this place, was cured of the Scrofula, (having large lumps in his neck) by the use of *one bottle*.

THOS. REED, & SON.
Hendrigden, Pa., July 3d, 1850.

NOTICE.

The public are notified that Dr. S. P. Townsend's Extract of Sarsaparilla, will in future be manufactured under the direction of James C. Dalton, Chemist, whose name in connection with that of Dr. S. P. Townsend, will be upon each bottle, to prevent fraud. Sold at BANNAN'S

Bookstore, Pottsville, Wholesale and Retail.

☞ Druggists and others are informed that we have made arrangements to supply the medicine by the Dozen, at the Manufacturer's prices. It will be to their advantage to therefore to procure their supplies from us.

The Recipe to manufacture this article, was sold a few months ago, for the sum of *One Hundred Thousand Dollars*, the best evidence of its great worth as a medicine. The sale has been unexampled.

The article sold as Old Dr. Jacob Townsend's, is all a "Humbug." Jacob Townsend is a Vender of Pedicals in New York, and a firm pay him several hundred dollars a year for the use of his name, for the purpose of manufacturing a spurious article, and palm it off upon the public as the "genuine article," by calling it old Dost. Jacob Townsend's Sarsaparilla.

☞ If you want the genuine article always ask for Dr. S. P. Townsend's Sarsaparilla.

The Wife's Help and Husband's Joy.

GERMAN WASHING FLUID!

THIS ARTICLE IS MUCH CHEAPER AND EASier to use than soap, and is warranted to perfectly cleanse all kinds of apparel without doing any injury whatever to the clothes. It contains no Potash Soda Ash, Spts. Turpentine, Ammonia, Acids, or any other article whatever that will in any manner injure a *fabric or the flesh*. Calicoes are warranted not to fade if washed with this Fluid.

This Fluid was originally discovered by the celebrated Professor of Chemistry, Dr. Mitscherlich of Berlin, and for which he has ever since had an extensive sale throughout Germany, and other parts of Europe. A. Boysen (from whom I. P. Hoyt purchased) is a thorough Chemist, and was for many years the sole superintendent of Dr. Mitscherlich's Laboratory, and was therefore the only person in the United States who had any knowledge of its manufacture, and any other article purporting to be such must be of a spurious nature. We ask you to *Try it. It is not one* of the many Humbugs. If you do not like it the money will, in every such case, *be refunded*. It entirely does away with that laborious task of rubbing the clothes upon the wash-board, which wears out the clothes more than the regular use of them.

It is an article better adapted for cleansing clothes than any cleansing article now in use, softening, setting colors in calicoes, restoring clothes to their original color that have been stained with acids, cleansing dirty and greasy flannels, coat collars, hats, wool, &c., and for scrubbing floors, and cleaning paint, than anything which has ever been offered to the public.

Washing Fluid is put up in large Pint Bottles, and retails at 12½ cents per Bottle. Each bottle contains sufficient for two ordinary Washings.

B BANNAN

Has been appointed sole Agent for the sale of the Fluid in the counties of Schuylkill, Lehanon, and Northumberland, by Messrs. Hoyt & Gardner, the Proprietors, and he is prepared to furnish it to Merchants, &c., wholesale, to sell again, at the Proprietor's prices by the dozen bottles.

☞ It is also for sale retail at his Store in Pottsville. Certificates seen at his Store. Try it and judge for yourselves. One and a half cents given for empty Bottles at his Store.

☞ Merchants and others who desire to keep the article for sale, in the counties named, will please send in their orders and the terms will be given.

BLAKE'S Patent Fire Proof Paint.
FROM OHIO.

The Subscribers have just received a further supply of this elegant and valuable substance. In addition to the slate color, they have a beautiful chocolate or brown, resembling the sand stone now in use, and so much admired for the front of buildings.

The principal *Ingredients* are *silica, alumina* and *protoxide of iron*, which in the opinion of scientific men satisfactorily accounts for its fire-proof nature—the *two former substances* being *non-conductors, and the latter acting as a cement*, to bind the whole together and make a firm and durable paint.

For use it is mixed with Linseed Oil, and applied with a brush, the same as ordinary paint. It dries as firm, tile, zinc, canvass, paper, &c. It hardens gradually and becomes fire-proof. It is particularly suitable for roofs of buildings, steamboat and car-decks, railroad bridges, fences, &c. In fact, for any purpose this article is equal to one slate, at a vast saving of expense.

Specimens may be seen at the office of the subscribers
