MINERS' JOURNAL. SATURDAY, OCTOBER 11, 1851.

AN APPEAL TO THE VOTERS OF SCHUYLKILL. Are you for or against Protection?

We wish to make one last appeal to the voters of Schuylkill, on the subject of Protection, before they cast their votes, which shall, in a measure, decide the question for or against us.

It is clearly the interest of Pennsylvania to advocate a Protective Tariff. The Whigs have ever been recognized as the Tariff party—it has always been a main plank in their party platform.

Now here are 1380 men, anxious, bold and willing to work, but they are doing nothing for them to do. They must remain idle and idle they must remain.

Imports of specie into the port of New York for the month of September, 1851. From California \$2,618,700. From Europe \$2,200,750.

Exports from the port of New York for the month of September, 1851. Domestic merchandise \$2,050,250. Foreign merchandise \$1,014,075.

EXCESS OF EXPORTS FOR THE MONTH OF SEPTEMBER, FORTY AND FIFTY MILLION DOLLARS SEAR, as clear gain to the country.

JEFFERSON AND PROTECTION. Some of the Locofoco profess to call themselves Jefferson Democrats, but Thomas Jefferson was so strong a Protectionist, that on one occasion he declared that he was sorry the Atlantic Ocean was not a sea of fire.

FOR SALT RIVER. THE BIGLER BOAT. The news from California assures us that Bigler's brother is on his way to Salt River in Missouri, where he will be joined by Pennsylvania Bigler after the 14th of October.

IMPORTS OF IRON. The increase under the Tariff of 1846—Our Tariff is the result of the Tariff of 1846.

The following shows the value of Iron imported into the United States for the several years annexed: 1844 \$5,227,481. 1845 5,227,481. 1846 5,227,481.

The quantity for this year is not yet known, though the probability is it will far exceed the amount last year. In '46-'47, on account of the famine in Europe, and the vigorous efforts of our young manufacturers to sustain themselves, the effect of the Tariff of '46 was not immediately felt.

A fair estimate, taking the result of last year as an average, will give the imports of Iron for four years, over Sixty million dollars, of which at least, fifty-five millions were for the manufacture of iron.

Now let us see how this operates in particular communities. We recently published a table, showing that 1450 men were now unemployed in the different Counties of the State.

Now here are 1380 men, anxious, bold and willing to work, but they are doing nothing for them to do. They must remain idle and idle they must remain.

JEFFERSON AND PROTECTION. Some of the Locofoco profess to call themselves Jefferson Democrats, but Thomas Jefferson was so strong a Protectionist, that on one occasion he declared that he was sorry the Atlantic Ocean was not a sea of fire.

FOR SALT RIVER. THE BIGLER BOAT. The news from California assures us that Bigler's brother is on his way to Salt River in Missouri, where he will be joined by Pennsylvania Bigler after the 14th of October.

F. W. HUGHES. At the request of one of our citizens, we made the following charge against F. W. Hughes in our last paper; that he stated in a conversation with one of our citizens, 'That they never had so much difficulty as they had in preventing a modification of the Tariff of 1846, at the last Congress.'

We published the above as we received it from a gentleman of this place, not knowing anything about the matter ourselves, nor do we know whether he intended including Mr. Hughes in the number or not. Mr. Hughes denies that he was opposed to a modification of the Tariff of 1846, and that he did everything in his power to procure a different result.

It was called upon by F. W. Hughes, this morning, who requested us to explain certain remarks which he had made in his conversation with the public. I call the attention of our citizens to the following plain statement of facts, which I had before me on the 10th Oct. 1851.

I signed this paper, but after reflection I was fearful it would be placed in a false position before the public. I therefore requested Mr. Hughes to withdraw it, but he refused to do so.

Now let us see how this operates in particular communities. We recently published a table, showing that 1450 men were now unemployed in the different Counties of the State.

EXAMINE YOUR TICKETS. Examine your tickets carefully, and vote EARLY. See that you have the WHOLE WHIG TICKET and nothing but the Whig ticket. Be careful when you get your ticket from, but at all events, examine them for yourselves.

TO THE MINERS AND LABORERS OF SCHUYLKILL. We have a few plain questions to ask the miners and laborers of Schuylkill, before they cast their votes on Tuesday next, and decide which party shall rule in this County.

What has the Locofoco party ever done for your benefit in Schuylkill County? Here they ever made any laws to operate in your favor? How much work, in an average, do they give you from one year's end to another? How many of them can you count that are now in business in this Region, that give employment to the laboring classes?

What has the Locofoco party ever done for your benefit in Schuylkill County? Here they ever made any laws to operate in your favor?
