keeper was replacing his articles.

"Well sir, I'll give you sixty-two cents." "Oh ! well, mister. I never stand for half.

"No-I must have my half cent."

Well, mister, if you must have it, you must, that's all, but you won't want another, I reckon." Saying this, he took the hatchet from his customer's hand, and walking to the door laid a cent on the stone "Stop! stop! fellow !- you'll ruin me

"Stop ! stop ! fellow !- you'll ruin me 'atchet." He was not in time, however. The Yankce

had already cut the cent on the doorstone in two parts, merely remarking that those, who were determined to have a half cent, ought

were determined to have a half cent, ought to pay the expense of getting it." Any one of no vast erudition will find a wery instructive moral in the above, and for aught we know, the suggestion contained in it will be of great advantage to the Board of Currency.

FIT FOR A LAWYER. An old lady walked into a lawyer's office lately, when the following conversation took

place : Lady.—Squire, I called to see if you would like to take this boy and make a lawyer of him. Lawyer.—The boy appears rather young, Lawyer. and Stir Carpets in Stir Carpets and Fast colors Manufactures of Carpets and Flannels, Manufactures

madam. How old is he? Lady-Seven years, sir. Lawyer.-He is too young-decidedly too young. Have you no boys older ?

(ESTABLISHED IN 1824,) , the pains and evils of

I envy not the mighty king Upon his splendid throne, Nor crave his glittering diadem, Nor wish his power my own : For though his pomp and power be great And round him thousands bow With reverence, in my low estate, More solid peace I know. I envy not the miser—He May tell his trousures o'er. May heaps on heaps around him see, Yet toil and strive for more : I'd scorn his narrow, sordid soul,

t

THE FARMER'S SONG.

BY SANUEL D. PATTERSON.

Rapacious and unjust, Nor yield to mammon's dark courol, That soul-debasing lust.

Let warriors mount family fiddy height Gain glory's gallant med. Be calm, collected, in the fight, While thousands round them bleed.

My wants are few, and well supplied By my productive fields-I count no luxuries beside,

Save what contentment yields-

More real pleasure labor gives, Than wealth or tame can bring,

The Farmer.

TREATMENT OF COWS.

CURRYING .- Cattle are well known to thrive much better when this operation is

horoughly performed : and Dr. B. Rush, in

a lecture upon the advantages of studying

the diseases of domestic animals, states that there is an improvement in the quality of the milk, and an increase in its quantity, which are obtained by currying the cow. Be assured, by experience, of the truth of the saying, that "one cow well milked, is

CURWEN, from three acres of grass, cut and fed to thirty milk cows 28lbs. each day

for 200 days. Their health was excellent,

MILK CLEAN.-The first drawn contains

KICKING. -If the milker will keep his nails hort, not one cow in a hundred will kick.

SURES.-An ointment made of linseed oil

DRINK. - Those who wish their cows to

give large messes of milk in the winter sea-

son should give them warm drink. The ex-

tra trouble will be more than repaid by the

IN MILKING be kind and soothing ; the cow will give down her milk more freely. CREAM .- Do not milk so far from the dairy as to let the milk cool before it is put in the

APPLICATION OF GUANO. .

The editor of the American Farmer repeats

his advice given before, in the most urgent

manner, to his agricultural triends, who intend using Guano this season, "To use plas-

ter, or ground charcoal with it, to fix and

prolong the action of ammonia, which is,

perhaps, its most efficient element. Such

in light, porous ones we hold it to be indis-

pensable. He who expends his means in

dmixture would be advisable in all soils, but

and white lead will cure cracked teats.

FOR REMITTANCES TO AND PASSAGE FROM Great Berland manure he may apply. Those who talk

about guano and plaster being antagonistic to each other, speak without knowledgeknow nothing at all about the matter."

COAL ABHES.

- I beg to state the result of an application, on a small scale, of coal ashes on grass land. Part of a piece of wet, heavy land was dressed with them; the result was most satisfactory. It could be easily seen at a considerable distance how. far they had been applied; and and the crop was quite as heavy as it could

have been expected, had good manure been applied. I imagine they act not directly as manure, but, like charcool, they are justrumental in absorbing ammonia and other gases, which plants are known to feed rapidly on, and to yield it to the plants, without giving off any of their own substance, which remains unchanged for a series of years .--

W. Wakefield.

STORING WHINTER CABBAGE. Such cabbages, at the extreme north, as you wish to keep good through the winter, and early spring may be pulled up by the roots, and arranging them in rows, with

their heads downward, resting on the surface of the ground, so that their stalks stand upright in the air ; then they may be covered with straw and earth, and treated in every other respect as directed for root craps.-Should the weather be unusually warm, the earth and straw should be opened to let in the air.

The housekeeper.

PROTECTING TENDER HOSES-

After trying various modes of sheltering

tender roses during the winter, including the

use of moss, inverted turf, straw, tan-bark

covered with boards. &c., none appears to be equal, says the Albany Cultivator, to a cov-

ering with the branches of evergreens.-

Plants but slightly tender need very little

shielding in this way; while those suscepti-

ble of injury should be encased several

nches thick. One eminent advantage which

this treatment possessess, is the entire free-

dom from decay in the bark and stems of

the sheilded plants, which sometimes results

from other modes. - Piue, hemlock, white

Where evergreen hedges or screens have

been planted, the shearings or clippings may

PERSPIRATION OF PLANTS.

Plants perspire more abundantly than an-

warm day thirty ounces, or, as it is said,

as much as seventeen men. The stem of a

vine cut off near the head, with a bladder

fastened tightly around it, will, in the sun,

soon send off, in the form of perspiration, say enough to swell and burst the bladder.

VIRGINIA EGG BREAD.

Dissolve one table-spoonful of butter in

three and a hall pints of milk : add one

quart of Indian meal, half a pint of wheat

flour, a little salt, and two eggs well beaten :

mix all well together, and bake in a buttered

imals. Thus a sun-flower will perspire in

be employed with great convenience.
